

*In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel, based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, and all of the Bonds and the income therefrom are exempt from all taxation by the State of Hawaii or any county or other political subdivision thereof, except inheritance, transfer, estate and certain franchise taxes. In the further opinion of Bond Counsel, interest on the Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although Bond Counsel observes that such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the accrual or receipt of interest on, the Bonds. See "TAX MATTERS" in this Official Statement.*

**State of Hawaii**  
**\$225,000,000**  
**General Obligation Bonds**  
**of 2004, Series DD**

**Dated: Date of Delivery**

**Due: May 1, as shown on inside cover.**

The General Obligation Bonds of 2004, Series DD, will be issuable in fully registered form and when issued will be registered initially in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"), New York, New York. So long as DTC or its nominee is the registered owner of the Bonds, purchases of the Bonds will be made in book-entry form only, through brokers and dealers who are, or who act through, DTC participants; beneficial owners of the Bonds will not receive physical delivery of Bond certificates; payment of the principal of and interest and any premium on the Bonds will be made directly to DTC or its nominee; and disbursement of such payments to DTC participants will be the responsibility of DTC and disbursement of such payments to the beneficial owners will be the responsibility of DTC participants. Purchases of the Bonds may be made in the denomination of \$5,000 or any integral multiple thereof. See **"THE BONDS — Book-Entry System"** herein.

The Bonds bear interest payable on May 1 and November 1 of each year, commencing November 1, 2004. **The Bonds are subject to redemption prior to maturity as and to the extent described herein.**

The Bonds are being issued for the purpose of financing, or reimbursing the State of Hawaii for, the Hawaiian Home Lands Settlement, and the costs of acquisition, construction, extension or improvement of various public improvement projects, among which are public buildings and facilities, elementary and secondary schools, community college and university facilities, public libraries and parks and for other public purposes. See **"AUTHORITY AND PURPOSE"** herein. The Bonds are general obligations of the State of Hawaii. The interest and principal payments on the Bonds are a first charge on the General Fund of the State of Hawaii, and the full faith and credit of the State of Hawaii are pledged to the punctual payment thereof.

The scheduled payment of principal of and interest on the Bonds when due will be guaranteed under a financial guaranty insurance policy to be issued concurrently with the delivery of the Bonds by MBIA Insurance Corporation.

This cover page contains information for quick reference only. It is not a summary of this issue. Investors must read the entire Official Statement, including the Appendices hereto, to obtain information essential to the making of an informed investment decision.

**MATURITY SCHEDULE — See Inside Cover Page**

*The Bonds are offered when, as and if issued and received by the Underwriters, and are subject to the approval of validity by Orrick Herrington & Sutcliffe LLP, Bond Counsel to the State. Certain legal matters will be passed upon for the Underwriters by their counsel, Watanabe Ing Kawashima & Komeiji LLP. It is expected that the Bonds in definitive form will be available for delivery through the facilities of DTC in New York, New York, on or about May 13, 2004.*

The information contained in this Official Statement has been obtained from the State of Hawaii and other sources deemed reliable. No guaranty is made, however, as to the accuracy or completeness of such information. The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, its responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information. This Official Statement, which includes the cover page and appendices, does not constitute an offer to sell the Bonds in any state to any person to whom it is unlawful to make such offer in such state. No dealer, salesman or other person has been authorized to give any information or to make any representations, other than those contained in this Official Statement, in connection with the offering of the Bonds, and, if given or made, such information or representations must not be relied upon. The information contained herein is subject to change without notice and neither the delivery of this Official Statement nor any sale hereunder at any time implies that the information contained herein is correct as of any time subsequent to its date.

THE BONDS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, IN RELIANCE UPON AN EXEMPTION CONTAINED IN SUCH ACT. THE BONDS HAVE NOT BEEN REGISTERED OR QUALIFIED UNDER THE SECURITIES LAWS OF ANY STATE. IN CONNECTION WITH THIS OFFERING THE UNDERWRITERS MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF THE BONDS OFFERED HEREBY AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

# OFFICIAL STATEMENT

## State of Hawaii

\$225,000,000  
General Obligation Bonds  
of 2004, Series DD

The purpose of this Official Statement, which includes the cover page and the inside cover page hereof and the appendices hereto, is to set forth information concerning the State of Hawaii (sometimes herein referred to as the "State") and its \$225,000,000 aggregate principal amount of General Obligation Bonds of 2004, Series DD (the "Bonds"), in connection with the sale of the Bonds by the State of Hawaii.

### AUTHORITY AND PURPOSE

The Bonds will be issued pursuant to the authority of and in full compliance with the provisions, restrictions and limitations of the Constitution and the laws of the State, including Part I of Chapter 39 of the Hawaii Revised Statutes, as amended ("HRS"), and pursuant to the authority of certain acts of the Legislature of the State and a Certificate of the Director of Finance of the State (the "Bond Issuance Certificate").

The proceeds from the sale of the Bonds will be used (i) to finance, or to reimburse the State for, certain expenditures for public purposes for which appropriations have been made in certain Acts of the State Legislature and which the Legislature may from time to time approve, including the Hawaiian Home Lands Settlement effected by Act 14, Session Laws of Hawaii 1995 (Special Session) and the costs of acquisition, construction, extension or improvement of various public improvement projects, among which are public buildings and facilities, elementary and secondary schools, community college and university facilities, public libraries and parks, certain other public purposes, including payment of \$30 million during fiscal year 2003 in connection with the Hawaiian Home Lands Settlement, as authorized by Act 259, Session Laws of Hawaii 2001, and (ii) to pay costs of issuance of the Bonds. See "**DEBT STRUCTURE – Outstanding Indebtedness and Debt Limit**" in Part I of Appendix A.

### THE BONDS

#### Details of the Bonds

The Bonds will be dated their date of delivery, and will be issued in fully registered form without coupons, in the denomination of \$5,000 or any integral multiple of \$5,000. The Bonds will mature serially on May 1 of the years, and will bear interest at the rates (calculated on the basis of a 360-day year composed of twelve 30-day months), as shown on the inside cover page hereof, payable on May 1 and November 1 of each year, commencing November 1, 2004 (each an "interest payment date").

The Bonds, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Bonds. Individual purchases of the Bonds will be made in book-entry form only under the book-entry system described herein (the "Book-Entry System"), in the principal amount of \$5,000 or integral multiples thereof. Purchasers will not receive certificates representing their interests in the Bonds. Principal of and interest on the Bonds will be paid by the Registrar and Paying Agent for the Bonds (initially the Director of Finance of the State of Hawaii) to DTC, which will in turn remit such principal and interest to its Participants (as hereinafter defined), for subsequent distribution to the Beneficial Owners (as hereinafter defined) of the Bonds, as described herein. The Bonds may be transferred or exchanged in the manner described in the Bonds and as referenced in related proceedings of the State. See "**THE BONDS—Book-Entry System**" below. If the State ceases to use the Book-Entry System, the Director of Finance may select a different Registrar and Paying Agent to perform such payment and registration functions.

## **Optional Redemption of Bonds**

The Bonds maturing after May 1, 2014, will be subject to redemption of the State at any time on and after May 1, 2014, in whole or in part, in any order of maturity selected by the State and by lot within a maturity, at a price equal to the principal amount thereof plus accrued interest to the redemption date.

In selecting such Bonds for redemption by lot, each Bond in a denomination of \$5,000 and each \$5,000 principal portion of a Bond in a denomination in excess of \$5,000 will have equal probability of being selected for redemption. If any Bond is of a denomination in excess of \$5,000, portions of the principal sum thereof in installments of \$5,000 or any integral multiple thereof may be redeemed.

If any Bond (or any portion of the principal sum thereof) shall be redeemable and shall have been duly called for redemption and notice of such redemption shall have been duly given as provided in the Bond Issuance Certificate, and if on or before the date fixed for such redemption the State shall have duly made or provided for the payment of the principal sum thereof to be redeemed, the premium, if any, payable upon such redemption and the interest accrued on the principal sum to be redeemed to the date fixed for such redemption, then such Bond (or the portion of the principal sum thereof to be redeemed) shall become due and payable upon such date fixed for redemption and interest shall cease to accrue and become payable from and after the date fixed for such redemption on the principal sum thereof to be redeemed.

Notice of redemption will be mailed, not fewer than 30 days prior to the fixed date for redemption, to each holder of a Bond in whose name such bond is registered upon the Bond Register as of the close of business on the forty-fifth day (whether or not a business day) next preceding the date fixed for redemption at such Holder's address as shown on such Bond Register. Failure of the Holder of a Bond to receive such notice by mail or any defect in such notice will not affect the sufficiency of the proceedings for the redemption of any Bond.

## **Book-Entry System**

**General.** DTC will act as securities depository for the Bonds. The Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One fully registered Bond certificate will be issued for each maturity of the Bonds in the aggregate principal amount of such maturity, and will be deposited with DTC.

**DTC and Its Participants.** DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants ("Participants") deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions in deposited securities, such as transfers and pledges, through electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The rules applicable to DTC and its Participants are on file with the Securities and Exchange Commission.

**Purchase of Ownership Interests.** Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond (for the purposes of the discussion under "**Book-Entry System**," a "Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners.

Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the Book-Entry System for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of Bonds with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

**Notices and Other Communications.** Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the Bonds. Under its usual procedures, DTC mails an Omnibus Proxy to the State as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

**Principal and Interest Payments.** Principal of and interest payments on the Bonds will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the payment date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the State, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

**Discontinuance of Book-Entry System.** DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the State. Under such circumstances, in the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The State may decide to discontinue use of the system of Book-Entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered.

**Use of Certain Terms in Other Sections of the Official Statement.** In reviewing this Official Statement it should be understood that while the Bonds are in the Book-Entry System, references in other Sections of this Official Statement to owners or holders should be read to include the person for whom the Participant acquires an interest in the Bonds, but (i) all rights of ownership must be exercised through DTC and the Book-Entry System and (ii) notices that are to be given to owners or holders by the State will be given only to DTC. DTC will forward (or cause to be forwarded) the notices to the Participants by its usual procedures so that such Participants may forward (or cause to be forwarded) such notices to the Beneficial Owners.

**DTC and Book-Entry Information.** Information concerning DTC and the Book-Entry System contained in this Official Statement has been obtained from DTC and other sources that the State and the Underwriters believe to be reliable, and is not guaranteed as to accuracy or completeness by, and is not to be construed as a representation by, the Underwriters or the State.

Neither the State nor the Underwriters will have any responsibility or obligation to Direct Participants, to Indirect Participants or to Beneficial Owners with respect to (i) the accuracy of any records maintained by DTC, any Direct Participants or Indirect Participants, (ii) the payment by DTC, any Direct Participants or any Indirect

Participants of any amount in respect of principal of or interest on the Bonds, (iii) any notice which is permitted or required to be given to owners (except such notice as is required to be given by the State to DTC), (iv) any consent given or other action taken by DTC as Owner of the Bonds or (v) any other event or purpose.

## **SECURITY FOR THE BONDS**

### **Security Provisions**

Under the Constitution and the laws of the State, the payments of principal of and interest on general obligation bonds of the State, including the Bonds, shall be a first charge on the General Fund of the State. Under said laws, the full faith and credit of the State are pledged to the punctual payment of the principal of and interest on general obligation bonds of the State, including the Bonds. At the beginning of each month, the Director of Finance of the State transfers from the General Fund into a special reserve account the amount of interest due and principal maturing during that month on the issued and outstanding general obligation bonds of the State, including the Bonds. The special reserve account is used to pay the debt service on such general obligation bonds, including the Bonds, and any balance in said account is held for that sole purpose.

### **Market Risk**

There can be no assurance of continued marketability of the Bonds at the current price level. Various factors affect the market value of municipal securities, including the Bonds, over most of which the State has no control, such as general economic conditions, inflation, federal economic policies, interest rate trends and proposed or actual changes to the Internal Revenue Code of 1986. State finances, future State legislative actions and bond ratings may also affect the market value of the Bonds.

### **Sovereign Immunity**

Under the doctrine of sovereign immunity, a state of the Union (including the State) cannot be sued by its own citizens. Under the United States Constitution, a state of the Union (including the State) cannot be sued by citizens of another state of the Union or by citizens or subjects of any foreign state. A state (including the State) may waive its immunity and consent to a suit against itself. However, such waiver and consent may subsequently be withdrawn by the state. Such immunity from and constitutional prohibition against suits against a state extend to officers of a state acting in their official capacity. Therefore, there can be no assurance that, in the event the State fails to make timely payment of principal of or interest on the Bonds, a right of action would lie against State officials to enforce such payment.

The State has never defaulted in the payment of either principal of or interest on any indebtedness of the State.

## **BOND INSURANCE**

### **The MBIA Insurance Corporation Insurance Policy**

The following information has been furnished by MBIA Insurance Corporation ("MBIA") for use in this Official Statement. Reference is made to Appendix G for a specimen of MBIA's policy.

MBIA's policy unconditionally and irrevocably guarantees the full and complete payment required to be made by or on behalf of the Issuer to the Paying Agent or its successor of an amount equal to (i) the principal of (either at the stated maturity or by an advancement of maturity pursuant to a mandatory sinking fund payment) and interest on, the Bonds as such payments shall become due but shall not be so paid (except that in the event of any acceleration of the due date of such principal by reason of mandatory or optional redemption or acceleration resulting from default or otherwise, other than any advancement of maturity pursuant to a mandatory sinking fund payment, the payments guaranteed by MBIA's policy shall be made in such amounts and at such times as such payments of principal would have been due had there not been any such acceleration); and (ii) the reimbursement of any such payment which is subsequently recovered from any owner of the Bonds pursuant to a final judgment by a

court of competent jurisdiction that such payment constitutes an avoidable preference to such owner within the meaning of any applicable bankruptcy law (a "Preference").

MBIA's policy does not insure against loss of any prepayment premium which may at any time be payable with respect to any Bonds. MBIA's policy does not, under any circumstance, insure against loss relating to: (i) optional or mandatory redemptions (other than mandatory sinking fund redemptions); (ii) any payments to be made on an accelerated basis; (iii) payments of the purchase price of Bonds upon tender by an owner thereof; or (iv) any Preference relating to (i) through (iii) above. MBIA's policy also does not insure against nonpayment of principal of or interest on the Bonds resulting from the insolvency, negligence or any other act or omission of the Paying Agent or any other paying agent for the Bonds.

Upon receipt of telephonic or telegraphic notice, such notice subsequently confirmed in writing by registered or certified mail, or upon receipt of written notice by registered or certified mail, by MBIA from the Paying Agent or any owner of a Bond the payment of an insured amount for which is then due, that such required payment has not been made, MBIA on the due date of such payment or within one business day after receipt of notice of such nonpayment, whichever is later, will make a deposit of funds, in an account with U.S. Bank Trust National Association, in New York, New York, or its successor, sufficient for the payment of any such insured amounts which are then due. Upon presentment and surrender of such Bonds or presentment of such other proof of ownership of the Bonds, together with any appropriate instruments of assignment to evidence the assignment of the insured amounts due on the Bonds as are paid by MBIA, and appropriate instruments to effect the appointment of MBIA as agent for such owners of the Bonds in any legal proceeding related to payment of insured amounts on the Bonds, such instruments being in a form satisfactory to U.S. Bank Trust National Association, U.S. Bank Trust National Association shall disburse to such owners or the Paying Agent payment of the insured amounts due on such Bonds, less any amount held by the Paying Agent for the payment of such insured amounts and legally available therefor.

## **MBIA**

MBIA Insurance Corporation ("MBIA") is the principal operating subsidiary of MBIA Inc., a New York Stock Exchange listed company (the "Company"). The Company is not obligated to pay the debts of or claims against MBIA. MBIA is domiciled in the State of New York and licensed to do business in and subject to regulation under the laws of all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Virgin Islands of the United States and the Territory of Guam. MBIA has three branches, one in the Republic of France, one in the Republic of Singapore and one in the Kingdom of Spain. New York has laws prescribing minimum capital requirements, limiting classes and concentrations of investments and requiring the approval of policy rates and forms. State laws also regulate the amount of both the aggregate and individual risks that may be insured, the payment of dividends by MBIA, changes in control and transactions among affiliates. Additionally, MBIA is required to maintain contingency reserves on its liabilities in certain amounts and for certain periods of time.

MBIA does not accept any responsibility for the accuracy or completeness of this Official Statement or any information or disclosure contained herein, or omitted herefrom, other than with respect to the accuracy of the information regarding the policy and MBIA set forth under the heading "Bond Insurance". Additionally, MBIA makes no representation regarding the Bonds or the advisability of investing in the Bonds.

The Financial Guarantee Insurance Policies are not covered by the Property/Casualty Insurance Security Fund specified in Article 76 of the New York Insurance Law.

## **MBIA Information**

The following document filed by the Company with the Securities and Exchange Commission (the "SEC") is incorporated herein by reference:

The Company's Annual Report on Form 10-K for the year ended December 31, 2003.

Any documents filed by the Company pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act of 1934, as amended, after the date of this Official Statement and prior to the termination of the offering of the Bonds offered hereby shall be deemed to be incorporated by reference in this Official Statement and to be a part hereof. Any statement contained in a document incorporated or deemed to be incorporated by reference herein, or contained in this Official Statement, shall be deemed to be modified or superseded for purposes of this Official Statement to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Official Statement.

The Company files annual, quarterly and special reports, information statements and other information with the SEC under File No. 1-9583. Copies of the SEC filings (including (1) the Company's Annual Report on Form 10-K for the year ended December 31, 2003, and (2) the Company's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2003, June 30, 2003 and September 30, 2003) are available (i) over the Internet at the SEC's web site at <http://www.sec.gov>; (ii) at the SEC's public reference room in Washington D.C.; (iii) over the Internet at the Company's web site at <http://www.mbia.com>; and (iv) at no cost, upon request to MBIA Insurance Corporation, 113 King Street, Armonk, New York 10504. The telephone number of MBIA is (914) 273-4545.

As of December 31, 2002, MBIA had admitted assets of \$9.2 billion (audited), total liabilities of \$6.0 billion (audited), and total capital and surplus of \$3.2 billion (audited) determined in accordance with statutory accounting practices prescribed or permitted by insurance regulatory authorities. As of December 31, 2003 MBIA had admitted assets of \$9.9 billion (unaudited), total liabilities of \$6.2 billion (unaudited), and total capital and surplus of \$3.7 billion (unaudited) determined in accordance with statutory accounting practices prescribed or permitted by insurance regulatory authorities.

#### **Financial Strength Ratings of MBIA**

Moody's Investors Service, Inc. rates the financial strength of MBIA "Aaa."

Standard & Poor's, a division of The McGraw-Hill Companies, Inc. rates the financial strength of MBIA "AAA."

Fitch Ratings rates the financial strength of MBIA "AAA."

Each rating of MBIA should be evaluated independently. The ratings reflect the respective rating agency's current assessment of the creditworthiness of MBIA and its ability to pay claims on its policies of insurance. Any further explanation as to the significance of the above ratings may be obtained only from the applicable rating agency.

The above ratings are not recommendations to buy, sell or hold the Bonds, and such ratings may be subject to revision or withdrawal at any time by the rating agencies. Any downward revision or withdrawal of any of the above ratings may have an adverse effect on the market price of the Bonds. MBIA does not guaranty the market price of the Bonds nor does it guaranty that the ratings on the Bonds will not be revised or withdrawn.

#### **THE STATE OF HAWAII**

Certain general information concerning the State of Hawaii is contained in Appendix A to this Official Statement. Selected financial information concerning the State of Hawaii, including information about the State's outstanding indebtedness and its revenue projections, is contained in Part I of Appendix B to this Official Statement. Part II of Appendix B contains the General Purpose Financial Statements and related General Fund schedules excerpted from the Comprehensive Annual Financial Report of the State of Hawaii for the State's fiscal year ended June 30, 2003. The State of Hawaii and other sources considered reliable have furnished the information set forth in Appendices A and B. The Underwriters and their counsel have not independently verified any of such information, nor have they made an independent determination of the financial position of the State. There can be no assumption that the information is indicative of the current financial position or future financial performance of the State.

## PENDING LITIGATION

There is currently no pending litigation seeking to restrain or enjoin the sale, issuance, execution or delivery of the Bonds or in any other manner affecting the validity of the Bonds or the proceedings or authority pursuant to which they are to be sold and issued.

### Office of Hawaiian Affairs and Ceded Lands

In 1898 the former Republic of Hawaii transferred certain lands to the United States. Upon Hawaii's admission to the Union in 1959, the United States reconveyed title to those lands (collectively, the "Ceded Lands") to the State of Hawaii (the "State") to be held as a public trust for five purposes: (1) public education; (2) betterment of the conditions of native Hawaiians; (3) development of farm and home ownership; (4) making public improvements; and (5) provision of land for public use. In 1978, the State Constitution was amended expressly to provide that the Ceded Lands were to be held as a public trust for native Hawaiians and the general public, and to establish the Office of Hawaiian Affairs ("OHA") to administer and manage the proceeds and income derived from a pro rata portion of the Ceded Lands to better the conditions of native Hawaiians.

In 1979, the State legislature (the "Legislature") adopted HRS Chapter 10 ("Chapter 10"), which, as amended in 1980, specified, among other things, that OHA expend 20% of all funds derived by the State from the Ceded Lands for the betterment of native Hawaiians.

In 1987, in *Trustees of the Office of Hawaiian Affairs v. Yamasaki*, 69 Haw. 154 (1987) ("*Yamasaki*"), the Hawaii Supreme Court concluded that Chapter 10 was insufficiently clear regarding the amount of monies OHA was entitled to receive from the public trust lands.

In 1990, in response to *Yamasaki*, the Legislature adopted Act 304, Session Laws of Hawaii 1990, which (i) defined "public land trust" and "revenue," (ii) reiterated that 20% of the now defined "revenue" derived from the "public land trust" was to be expended by OHA for the betterment of native Hawaiians, and (iii) established a process for OHA and the Director of Finance of the State jointly to determine the amount of monies which the State would pay OHA to retroactively settle all of OHA's claims for the period June 16, 1980 through June 30, 1991. Since fiscal year 1992 and until the first quarter of fiscal year 2002, the State, through its departments and agencies, paid 20% of "revenues" to OHA on a quarterly basis.

In 1993, the Legislature enacted Act 35, Session Laws of Hawaii 1993, appropriating \$136.5 million to pay the amount determined to be OHA's claims, with interest, for the period June 16, 1980 through June 30, 1991.

On January 14, 1994, OHA and its Board of Trustees (the "Plaintiffs") filed suit against the State (*OHA, et al. v. State of Hawaii, et al.*, Civil No. 94-0205-01 (1st Cir.) ("*OHA P*")), claiming that the amount paid to OHA was inadequate and alleging that the State had failed to properly account for and fully pay the pro rata share of proceeds and income derived from the public land trust. Among other things, the Plaintiffs sought an accounting of all proceeds and income, funds and revenue derived from the public land trust since 1978, and restitution or damages amounting to 20% of the proceeds and income derived from the public land trust, as well as interest thereon. In its answer to OHA's complaint, the State denied all of the Plaintiffs' substantive allegations, and asserted its sovereign immunity from suit and other jurisdictional and claim-barring defenses.

The Plaintiffs thereafter filed four motions for partial summary judgment as to the State's liability to pay OHA 20% of monies it receives from (i) the Department of Transportation Airports Division's in-bound duty free airport concession (including receipts from the concessionaire's off-airport sales operations), (ii) the State-owned and operated Hilo Hospital, (iii) the State's public rental housing projects and affordable housing developments, and (iv) interest income, including investment earnings (collectively, the "Sources"). In response, the State filed a motion to dismiss on the basis of sovereign immunity and opposed Plaintiffs' four motions on the merits and raised several affirmative defenses.

On October 24, 1996, the circuit court filed an order denying the State's motion to dismiss and rejecting its affirmative defenses. Also on October 24, 1996, the circuit court filed an order granting Plaintiffs' four motions for

partial summary judgment with respect to the State's liability to pay OHA 20% of the monies it receives from each of the Sources, and deferred establishing amounts owed from those Sources for further proceedings or trial. The State's motion for leave to file an interlocutory appeal from both the order denying its motion to dismiss and the order granting Plaintiffs' four partial summary judgments was granted and all proceedings in the suit were stayed pending the Hawaii Supreme Court's disposition of the State's appeal.

On September 12, 2001, the Hawaii Supreme Court concluded *OHA I* by holding in *OHA v. State of Hawaii*, 96 Haw. 388 (2001) that Act 304 was effectively repealed by its own terms, and that there was no judicially manageable standard, i.e., a legal standard, by which to determine whether OHA was entitled to the revenues it sought from the Sources because the repeal of Act 304 revived the law which the court in *Yamasaki* had previously concluded was insufficiently clear to establish how much OHA was entitled to receive from the Ceded Lands. The Supreme Court dismissed *OHA I* for lack of justiciability, that is, that the case was not appropriate for review by the Court, noting that it was up to the Legislature to enact legislation to give effect to the right of native Hawaiians to benefit from the Ceded Lands under the State Constitution. Immediately thereafter, agencies ceased paying OHA any receipts from the Ceded Lands.

The Legislature took no action during the 2002 and 2003 legislative sessions to establish a new mechanism for establishing how much OHA was entitled to receive from the Ceded Lands. On January 10, 2003, and pending legislative action to establish such a mechanism, the Governor issued Executive Order No. 03-03 directing state agencies to resume transferring 20% of receipts from leases, licenses and permits indisputably paid for the use of improved or unimproved parcels of Ceded Lands to OHA, if federal or state law did not preclude all or any portion of the receipt from being used to better the conditions of native Hawaiians, and the transfer of all or any portion of the receipt to OHA would not cause the agency to renege on a preexisting pledge, rate covenant, or other preexisting obligation to holders of revenue bonds or other indebtedness of the State or the agency. During the 2003 legislative session, the Legislature appropriated moneys from the various funds into which the Ceded Lands receipts had been deposited after the decision in *OHA I* was issued and agencies ceased making payments to OHA, and directed the agencies to pay them to OHA.

OHA continues to pursue its claims for a portion of the revenues from the Sources and other Ceded Lands that it made in *OHA I*. On July 21, 2003, OHA filed a new lawsuit, *OHA et al. v. State of Hawaii, et al.*, Civil No. 03-1-1505-07 ("*OHA II*"). There follows additional background information pertinent to *OHA II*. In September 1996, the Office of the Inspector General of the U.S. Department of Transportation ("DOT") issued a report (the "IG Report") concluding that from 1992 to 1995, the Hawaii Department of Transportation's payment to OHA of \$28.2 million was a "diversion of airport revenues in violation of [applicable federal law] as OHA provided no airport services in return. The Attorney General of Hawaii disagreed with the IG Report's conclusion, stating in November 1996 that the payments to OHA were simply an operating cost of the airports, and thus not a diversion of airport revenues in violation of federal law. In April 1997, the Acting Administrator of the FAA concurred in writing (the "FAA Memorandum") with the IG Report and opposed the Hawaii Attorney General's position. In support of its appeal of the circuit court's *OHA I* decision to the Hawaii Supreme Court, but differing with the original position of the Attorney General, the State noted in its May 1997 amended opening brief that "unless the federal government's position [set forth in the IG Report] changes, Act 304 prohibits the State from paying OHA airport-related revenues." In its June 1997 reply brief, the State stated that the "DOT Inspector General's determination shows that the federal government is on its way to finding such payments illegal and requiring the State to reimburse past payments of airport-related revenues to OHA." In October 1997, PL 105-66, 1997 HR 2169 (the "Forgiveness Act") was enacted into federal law. The Forgiveness Act essentially provides that in exchange for there being no further payments of airport revenues for claims related to Ceded Lands, any such payments received prior to April 1, 1996 need not be repaid. The Hawaii Attorney General submitted the Forgiveness Act to the Hawaii Supreme Court in December 1997, "for the Court's use" in conjunction with the *OHA I* appeal, whereupon the Court requested the parties to submit supplemental briefs to address whether the Forgiveness Act affected the Court's interpretation of Act 304. The State, in its March 1998 supplemental brief, stated, inter alia, that paying OHA a pro rata share of airport monies violated federal law, and that there was no live, ripe controversy regarding those payments because the Forgiveness Act relieved the State and OHA of any obligation to return improper past payments.

Despite the adverse *OHA I* decision, the Plaintiffs in *OHA II* have now sued the State of Hawaii for alleged breaches of fiduciary duties as purported trustee of the Ceded Lands public trust, alleged violations of Act 304, Chapter 10, and Article XII, Sections 4, 5 and 6 of the Hawaii Constitution, alleged violations of the Contract Clause

of the U.S. Constitution, and alleged misrepresentation and non-disclosure, by the following alleged acts (but not limited to these acts): (1) failing to oppose the positions set forth in the FAA Memorandum; (2) resolving its dispute with the FAA by obtaining a forgiveness of the prior \$28.2 million payment in exchange for a promise not to make future airport revenue payments to OHA and not to appeal the positions set forth in the FAA Memorandum; (3) breaching the trust duty of impartiality by not opposing the positions set forth in the FAA Memorandum in order to use them as a sword in *OHA I*, (4) failing to timely advise OHA that the State was not going to continue to oppose the positions set forth in the FAA Memorandum or IG Report, and that it was planning to settle with the federal government, in order to provide OHA with a fair opportunity to take measures to step into the State's position to oppose the FAA; and (5) failing to obtain instructions from the Court on how to proceed given the State's conflict between defending the State against OHA in *OHA I*, and having a duty to oppose the positions set forth in the FAA Memorandum.

OHA further alleges that these alleged "breaches, errors and omissions" were substantial factors that resulted in the passing of the Forgiveness Act and the issuance of the Hawaii Supreme Court's opinion in *OHA I*. Plaintiffs claim that, accordingly, the State is liable to OHA for damages including, but not limited to: (1) the damages alleged by OHA in *OHA I*, and (2) amounts payable under Act 304 that have not been paid, including but not limited to, airport landing fees. Plaintiffs also seek declaratory and injunctive relief ordering the State to reinstate Act 304, pay airport-related revenues to OHA from sources other than airport revenues (and enjoining the State and its agents, employees, and officials from opposing any of the above), and seeks appointment of an independent trustee to temporarily replace the State as trustee of the native Hawaiian public trust with respect to matters relating to reinstatement of Act 304 and the payment of airport-related revenues to OHA from sources other than airport revenues. The State of Hawaii filed a motion to dismiss OHA's complaint in *OHA II* which the court granted in an order filed on December 26, 2003. Once other outstanding orders relating to discovery are filed, and a final judgment is entered, an appeal from the order and judgment dismissing the case is likely to be filed by OHA.

The State intends to vigorously defend against all of OHA's claims. It is currently unable to predict with reasonable certainty the magnitude of its potential liability for such claims, if any. The Attorney General is of the view that the claims asserted by OHA in *OHA II* are meritless. Resolution of all of OHA's claims could have a material adverse effect on the State's financial condition.

In a second lawsuit, OHA and four individuals filed complaints for declaratory and injunctive relief on November 4, 1994, and November 9, 1994 (*OHA v. Housing Finance and Development Corporation et al.*, Civil No. 94-4207-11 (1st Cir.)) to enjoin the State from alienating any Ceded Lands and extinguishing any rights Hawaiians may have in Ceded Lands that may be alienated. Alternatively, OHA sought a declaration that the amounts the Housing Finance and Development Corporation (the "Corporation") and the State paid to OHA for Ceded Lands the Corporation planned to use to develop and sell housing units pursuant to Act 318, 1992 Session Laws of Hawaii, were insufficient. Act 318 established a separate process for valuing the Ceded Lands the Corporation used for its two housing developments at Kealahou and Lahaina, and quantifying the amounts of income and proceeds from the Ceded Lands that the Corporation and State were required to pay to OHA for conveying and using the parcels for the Corporation's two projects.

In December, 2002, following a trial on the issues, the trial court confirmed the State's authority to sell Ceded Lands, denied the declaratory ruling that the sale of Ceded Lands did not directly or indirectly release or limit Hawaiians' claims to those lands which the plaintiffs requested, and ordered that judgment be entered in the State's and Corporation's favor as to Counts I, II, and III of the Amended Complaint. The plaintiffs moved for and were granted leave to file immediate appeals from the court's rulings to the Hawaii Supreme Court. Those appeals are now pending. Trial to determine the sufficiency of the proceeds paid to OHA by the Corporation and the State from the sale of the particular parcels of Ceded Lands at issue has not been scheduled.

In a third lawsuit, OHA filed suit against the Hawaii Housing Authority (the "HHA"), the executive director of the HHA, the board members of the HHA and the Director of Finance on July 27, 1995 (*OHA v. HHA, et al.*, Civil No. 95-2682-07 (1st Cir.)) to secure additional compensation and an itemized accounting of the sums previously paid to OHA for five specifically identified parcels of Ceded Lands which were transferred to the HHA for its use to develop, construct and manage additional affordable public rental housing units under HRS Chapter 201G. On January 11, 2000, all proceedings in this suit were stayed pending the Hawaii Supreme Court's decision in the State's appeal in *OHA I*. OHA disagrees that the repeal and revival of the pre-Yamasaki law by the

Hawaii Supreme Court's September 12, 2001 decision in *OHA I* should also require dismissal of the claims OHA makes in *OHA v. HHA*, and the case remains pending.

#### **Department of Education and Department of Health**

*Felix v. Lingle*, Civ. No. 93-00367 (U.S. Dist. Ct. Hawaii), involves the State's responsibility under federal law to provide mental health services as a related service to children and adolescents who need such services to benefit from special education. After the U.S. District Court granted partial summary judgment as to liability in the Plaintiff's favor, the parties entered into a consent decree which allowed the State to plan and implement a new system of care. Under the consent decree and the supervision of the federal district court, the State has been implementing a plan to improve the provision of such services. Because of the failure of the State to timely complete the implementation plan approved by the Court, the State was held in contempt of court and the consent decree was extended to June 30, 2001 for completion of infrastructure to support the delivery of services and December 31, 2001 for substantial compliance with the consent decree.

The State avoided the Court's imposition of a federal court-appointed receiver by meeting the Court's revised benchmarks and conditions that the State was ordered to satisfy. On November 30, 2001, the Court determined that the State made significant progress in meeting the terms of the consent decree and, therefore, a federal receiver was not necessary. On September 10, 2002, the Court ruled that the State was in substantial compliance with the consent decree as of June 30, 2002. However, the Court ordered the federal court supervision to continue until December 31, 2003.

Due to the scheduling needs of the Court and the parties, stipulations were entered into by the parties extending Court oversight and control over the Revised Consent Decree until April 30, 2004. At a hearing on April 8, 2004, the Court approved the parties' stipulation, which provides for the termination of jurisdiction 30 days after the publication of State's fifth quarterly sustainability report (anticipated to be on or about May 30, 2005).

#### **Department of Hawaiian Home Lands**

In 1991, the Legislature enacted HRS Chapter 674, entitled "Individual Claims Resolution Under the Hawaiian Home Lands Trust," which established a process for individual beneficiaries of the Hawaiian Homes Commission Act of 1920 (the "HHCA") to file claims to recover actual economic damages they believed they suffered from a breach of trust caused by an act or omission of an official of the State between August 21, 1959, when Hawaii became a state, and June 30, 1988. Claims were required to be filed no later than August 31, 1995. There were 4,327 claims filed by 2,753 individuals.

The process was a three-step process which: (1) began with informal proceedings presided over by the Hawaiian Home Lands Trust Individual Claims Review Panel (the "Panel") to provide the Legislature with non-binding findings and advisory opinions for each claim; (2) provided for the Legislature's review and consideration of the Panel's findings and advisory opinions, and appropriations of funds to pay the actual economic damages the Legislature deemed appropriate by October 1, 1999; and (3) allowed claimants to bring de novo civil actions by December 31, 1999 if they were not satisfied with the Panel's findings and advisory opinions, or the Legislature's response to the Panel's recommendations.

Legislation to allow the Panel and the Legislature until September 30, 2000 to act on all claims, and postpone the deadline for unsatisfied claimants to file suit until December 31, 2000, was adopted by the Legislature, but vetoed by the Governor in the 1999 regular session, and the Panel sunsetted on December 31, 1999. As of September 30, 1999, the Panel had not reviewed claims from 1,376 claimants, and all but the claims of two claimants had not been acted upon by the Legislature. In 1997, the Legislature declared its intent to postpone acting upon the Panel's recommendations until all claims had been reviewed and forwarded to it.

On September 30, 1999, three claimants filed a suit for declaratory and injunctive relief in the U.S. District Court for the District of Hawaii to secure an injunction prohibiting the enforcement of the notice and suit filing deadlines specified in HRS Ch. 674. *Kalima et al. v. Cayetano*, Civil No. 99-00671HG/LEK. A motion for

preliminary injunction was heard on November 15, 1999 and denied as moot on September 28, 2000. By stipulation filed on November 13, 2000, the action was dismissed without prejudice.

On December 29, 1999, the same three claimants filed a class action lawsuit in the state circuit court for declaratory and injunctive relief and for general, special and punitive damages for breach of trust or fiduciary duty under HRS Chs. 674 and 673, violation of the due process, equal protection and native rights clauses of the State Constitution, and breach of contract under HRS Ch. 661. *Kalima et al. v. State of Hawaii et al.*, Civil No. 99-4771-12VSM (1st Cir.) ("*Kalima I*"). Five other claimants filed similar individual claims actions for themselves on or before December 31, 1999. *Aguiar v. State of Hawaii, et al.*, Civil No. 99-612 (3rd Cir.); *Silva v. State of Hawaii, et al.*, Civil No. 99-4775-12 (1st Cir.); *Wilhelm v. State of Hawaii, et al.*, Civil No. 99-4774-12 (1st Cir.); *Williamson v. State of Hawaii, et al.*, Civil No. 99-4773-12 (1st Cir.); *Hanohano v. State of Hawaii, et al.*, Civil No. 99-4772-12 (1st Cir.). The plaintiffs in these other actions have stipulated to stay all proceedings in their actions pending the resolution of all questions of law in *Kalima I* that are common to the questions of law presented in their suits. Plaintiff Hanohano has since stipulated to the dismissal of her action without prejudice.

On March 30, 2000, the three named plaintiffs in *Kalima I* filed a second class action lawsuit in the state circuit court for declaratory and injunctive relief, and for damages under HRS Ch. 673, for the Panel's and Legislature's alleged failure to remedy their breach of trust claims under HRS Ch. 674. *Kalima et al. v. State of Hawaii, et al.*, Civil No. 00-1-1041-03 (1st Cir.) ("*Kalima II*"). All proceedings in this action were stayed by stipulation, pending the resolution of those questions of law in *Kalima I* that are common to both *Kalima I* and *Kalima II*.

On August 30, 2000, the circuit court entered an order in *Kalima I* granting plaintiffs' motion for summary judgment and declaratory relief as to Count I of the Complaint, and denying the State's motion for judgment on the pleadings. Essentially, the circuit court rejected the sovereign immunity, lack of subject matter jurisdiction, and no-cause of action defenses the State asserted, and ruled that the plaintiffs and those similarly situated to them (by an order filed on August 29, 2000, a class was so certified for purposes of Count I) could pursue their claims for damages and other relief under HRS Chs. 674 and 661.

The circuit court allowed the State to take an interlocutory appeal from the August 30, 2000 order to the Hawaii Supreme Court and entered an order staying all proceedings in *Kalima I* pending the Supreme Court's disposition of the appeal. By an order entered on September 20, 2001, the Supreme Court dismissed that appeal for lack of appellate jurisdiction. Since then, the State has secured a certification of finality for the August 30, 2000 order from the circuit court, and filed another notice of appeal of the order so that the questions of law the circuit court decided can be reviewed by the Supreme Court prior to trial. All briefs have been filed and the parties are awaiting oral argument or a decision from the court in this second appeal. All proceedings in *Kalima I* in the circuit court remain stayed, and no trial date has been set in either *Kalima I* or any of the other individual claims cases.

### **Employees' Retirement System**

In *Kaho'ohanohano, et al. v. State of Hawaii*, Civil No. 02-1-1001-04 (GWBC) (1<sup>st</sup> Cir.), the plaintiffs challenged certain legislation enacted by the State Legislature in 1999 ("Act 100"). Act 100 authorized the State to apply the Employees' Retirement System's ("ERS") actuarial investment earnings in excess of ten percent for fiscal years 1997 and 1998 toward the State and county employees' annual contributions to the pension accumulation of the ERS fund. The plaintiffs asked the court to declare Act 100 unconstitutional, to enjoin the State from taking future actions inconsistent with Article XVI, §2 of the Hawaii Constitution, and to require the State to pay damages to the ERS in the amount of \$346.9 million plus lost earnings and pre- and post-judgment interest, costs, and attorneys' fees.

The Plaintiffs were allowed to amend their complaint to add two state civil service employees as plaintiffs, and their motion to certify a class, consisting of all current and former public employees other than members of the legislature, judges and attorneys in the Department of the Attorney General, was granted. Motions made by the trustees of the ERS to intervene as plaintiffs and by the City and County of Honolulu to intervene as a defendant were granted. The Court made the counties of Hawaii, Maui, and Kauai intervenor defendants.

Plaintiffs filed two motions for partial summary judgment (as to liability only), and the State filed a motion to dismiss and a motion for summary judgment against the claims of the Plaintiffs as well as the ERS' trustees. The State's motion to dismiss was denied in an order filed on May 16, 2003. An order granting summary judgment in favor of the State and against all of the claims of the Plaintiffs and ERS trustees, and denying the Plaintiffs' two motions, and a final judgment were entered on June 24, 2003. The county intervenor defendants filed a motion to alter or amend the order and judgment on June 27, 2003. By court rule, the motion was deemed denied on September 25, 2003, and notices of appeal from the June 24, 2003 order and judgment were filed by Plaintiffs and the ERS trustees on October 27, 2003. The State cross-appealed the order denying its motion to dismiss on November 7, 2003. On December 10, 2003, the circuit court entered an order granting the county intervenor defendants motion to alter or amend the June 24, 2003 order and judgment, and filed an amended summary judgment order and an amended final judgment. The Plaintiffs and the ERS trustees filed notices of appeal from the amended order and amended judgment on December 23, 2003. On December 30, 2003, the State again filed a cross-appeal from the May 16, 2003 Order denying its motion to dismiss. Briefing has begun in both sets of appeals and cross-appeals.

A description of the ERS and Act 100 is provided under "**EMPLOYEE RELATIONS: STATE EMPLOYEES' RETIREMENT SYSTEM—State Employees' Retirement System**" in Appendix A.

#### **Other**

The State has also been named as a defendant in numerous other lawsuits and claims arising in the normal course of operations.

#### **TAX MATTERS**

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel, based upon an analysis of existing laws, regulations, rulings, and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code"), and the Bonds and the income therefrom are exempt from all taxation by the State or any county or other political subdivision thereof, except inheritance, transfer, estate and certain franchise taxes. Bond Counsel is of the further opinion that interest on the Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although Bond Counsel observes that such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. A complete copy of the proposed form of opinion of Bond Counsel is set forth in Appendix F hereto.

To the extent the issue price of any maturity of the Bonds is less than the amount to be paid at maturity of such Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Bonds), the difference constitutes "original issue discount," the accrual of which, to the extent properly allocable to each beneficial owner thereof, is treated as interest on the Bonds which is excluded from gross income for federal income tax purposes and State of Hawaii tax purposes. For this purpose, the issue price of a particular maturity of the Bonds is the first price at which a substantial amount of such maturity of the Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Bonds accrues daily over the term to maturity of such Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Bonds. Beneficial owners of the Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Bonds with original issue discount, including the treatment of beneficial owners who do not purchase such Bonds in the original offering to the public at the first price at which a substantial amount of such Bonds is sold to the public.

Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) ("Premium Bonds") will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes.

However, the amount of tax-exempt interest received, and a beneficial owner's basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such purchaser. Beneficial owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Bonds. The State has made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Bond Counsel's attention after the date of issuance of the Bonds may adversely affect the value of, or the tax status of interest on, the Bonds. Further, no assurance can be given that pending or future legislation or amendments to the Code, if enacted into law, or any proposed legislation or amendments to the Code, will not adversely affect the value of, or the tax status of interest on, the Bonds. Prospective Bondholders are urged to consult their own tax advisors with respect to proposals to restructure the federal income tax.

Certain requirements and procedures contained or referred to in the Bond Insurance Certificate, the Tax Certificate of the State relating to the Bonds, and other relevant documents may be changed and certain actions (including, without limitation, defeasance of the Bonds) may be taken or omitted under the circumstances and subject to the terms and conditions set forth in such documents. Bond Counsel expresses no opinion as to any Bond or the interest thereon if any such change occurs or action is taken or omitted upon the advice or approval of bond counsel other than Orrick, Herrington & Sutcliffe LLP.

Although Bond Counsel is of the opinion that interest on the Bonds is excluded from gross income for federal income tax purposes and that the Bonds and the income therefrom are exempt from taxation by the State or any political subdivision thereof, except inheritance, transfer, estate and certain franchise taxes, the ownership or disposition of, or the accrual or receipt of interest on, the Bonds may otherwise affect a beneficial owner's federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the beneficial owner or the beneficial owner's other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Future legislation, if enacted into law, or clarification of the Code may cause interest on the Bonds to be subject, directly or indirectly, to federal income taxation, or otherwise prevent beneficial owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such future legislation or clarification of the Code may also affect the market price for, or marketability of, the Bonds. Prospective purchasers of the Bonds should consult their own tax advisers regarding any pending or proposed federal tax legislation, as to which Bond Counsel expresses no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service ("IRS") or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the State, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The State covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Bonds ends with the issuance of the Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the State or the beneficial owners regarding the tax-exempt status of the Bonds in the event of an audit examination by the IRS. Under current procedures, parties other than the State and their appointed counsel, including the beneficial owners, would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the State legitimately disagrees, may not be practicable. Any action of the IRS, including but not limited to selection of

the Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the Bonds, and may cause the State or the beneficial owners to incur significant expense.

### **APPROVAL OF LEGAL PROCEEDINGS**

Certain legal matters incident to the authorization, issuance and sale of the Bonds are subject to the approval of Orrick Herrington & Sutcliffe LLP, Bond Counsel to the State. Copies of the approving opinion of Bond Counsel will be available at the time of delivery of the Bonds. The form of opinion Bond Counsel proposes to render is set forth in Appendix F hereto. Bond Counsel undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement. Certain legal matters will be passed upon for the Underwriters by their counsel, Watanabe Ing Kawashima & Komeiji LLP.

### **RATINGS**

Fitch Ratings, Moody's Investors Service and Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., are expected to rate the Bonds "AAA", "Aaa" and "AAA", respectively, with the understanding that upon delivery of the Bonds, the financial guaranty insurance policy insuring payment of the principal of and interest on the Bonds will be issued by MBIA Insurance Corporation. Such ratings reflect only the respective views of such rating agencies, and any explanation of the significance of such ratings should be obtained from the rating agency furnishing the same. There is no assurance that any of such ratings will be retained for any given period of time or that the same will not be revised downward, suspended or withdrawn entirely by the rating agency furnishing the same if, in its judgment, circumstances so warrant. The State undertakes no responsibility to oppose any such downward revision, suspension or withdrawal. Any such downward revision, suspension or withdrawal of such ratings, or any of them, may have an adverse effect on the market price of the Bonds.

### **UNDERWRITING**

The Underwriters listed on the cover have agreed to purchase the Bonds at an aggregate purchase price equal to the principal amount of the Bonds, plus a net original issue premium of \$11,047,530.55, less an aggregate underwriting fee of \$801,621.50. The Underwriters will be obligated to purchase all of the Bonds if any are purchased.

The Underwriters reserve the right to join with dealers and other underwriters in offering the Bonds to the public. The Bonds may be offered and sold to certain dealers (including dealers depositing such Bonds into investment trusts) at prices lower than the public offering prices appearing on the inside cover, and the public offering prices may be changed from time to time.

### **CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS IN THIS OFFICIAL STATEMENT**

Certain statements included or incorporated by reference in this Official Statement constitute "forward-looking statements." Such statements are generally identifiable by the terminology used such as "plan," "expect," "estimate," "budget" or similar words.

The achievement of certain results or other expectations contained in such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performances or achievements described to be materially different from any future results, performances or achievements expressed or implied by such forward looking statements. The State does not plan to issue any updates or revisions to those forward looking statements if and when changes to its expectations, or events, conditions or circumstances on which such statements are based, occur, unless such updates or revisions are made in the course of fulfilling its continuing disclosure obligation.

## **CONTINUING DISCLOSURE**

The State will enter into a Continuing Disclosure Certificate (the "Disclosure Certificate") in the form set forth in Appendix E hereto, for the benefit of the holders and Beneficial Owners of the Bonds to provide certain financial information and operating data relating to the State to certain information repositories annually and to provide notice to the Municipal Securities Rulemaking Board of the occurrence of certain enumerated events, if material, pursuant to the requirements of Section (b)(5)(i) of Securities and Exchange Commission Rule 15c2-12 (17 C.F.R. § 240.15c2-12) (the "Rule"). See **"APPENDIX E—FORM OF CONTINUING DISCLOSURE CERTIFICATE."**

The State has not failed to comply with any of its previous continuing disclosure certificates under the Rule. A failure by the State to comply with the Disclosure Certificate will not constitute an event of default of the Bonds, although any Bondholder or any Beneficial Owner may bring action to compel the State to comply with its obligations under the Disclosure Certificate. Any such failure must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

## **FINANCIAL STATEMENTS**

The General Purpose Financial Statements and additional information as of and for the year ended June 30, 2003 included as Part II of Appendix B, have been audited by KPMG LLP, independent auditors, as stated in their report appearing therein, which is based in part on the reports of other auditors. The State has neither requested nor obtained the consent of KPMG LLP to include their report, and such firm has performed no procedures subsequent to rendering their report. There can be no assurance that the information is indicative of the current financial position or future financial performance of the State.

## **MISCELLANEOUS**

To the extent any statements made in this Official Statement involve matters of opinion or of estimates, whether or not so expressly stated, they are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized. Neither this Official Statement, nor any statement that may have been made verbally or in writing, is to be construed as a contract with the holders of any of the Bonds. The Department of Budget and Finance, State of Hawaii has prepared this Official Statement and has duly authorized the delivery hereof.

## **APPENDIX A**

### **GENERAL INFORMATION ABOUT THE STATE OF HAWAII**

**(This Page Intentionally Left Blank)**

## APPENDIX A

### GENERAL INFORMATION ABOUT THE STATE OF HAWAII

*The statistical information presented by this Appendix A is the most current information available to the State. Because such information becomes available at different times, the dates of such information, as presented herein, are not the same.*

#### INTRODUCTION

##### General

The State was admitted into the Union on August 21, 1959, as the fiftieth state. It is an archipelago of eight major islands, seven of which are inhabited, plus 124 named islets, totaling 6,425 square miles in land area, located in the Pacific Ocean in the Northern Hemisphere, mostly below the Tropic of Cancer, about 2,400 statute miles from San Francisco. The State is slightly larger than the combined area of the States of Connecticut and Rhode Island and ranks forty-seventh of the fifty states in land area, being also larger in area than the State of Delaware. The island of Hawaii is the largest island, with 4,028 square miles in area. The other inhabited islands, in order of size, are Maui, Oahu, Kauai, Molokai, Lanai and Niihau. According to the U.S. Census, the total population of the State was 422,770 in 1940, 499,794 in 1950, 632,772 in 1960, 769,913 in 1970, 964,691 in 1980, 1,115,274 in 1990, and 1,211,537 in 2000, making the State the forty-second most populous state in the Union as of 2000. The City and County of Honolulu consists of the island of Oahu (plus some minor islets) with a land area of 599.8 square miles. The capital of the State and the principal port are located on Oahu. According to the 2000 U.S. Census, about 72.3% of the population of the State lives on Oahu. Hawaii's population exhibits greater ethnic diversity than other states because it is descended from immigrants from the Far East as well as from Europe and the mainland United States. Based on the 2000 U.S. Census, approximately 41.6% of the State's population is of Asian descent and about 24.3% of the State's population is Caucasian. Native Hawaiians and other Pacific Islanders constitute 9.4% of the population. The balance consists of other races, such as African Americans and American Indians.

##### State Government

The Constitution of the State provides for three separate branches of government: the legislative branch, the executive branch and the judicial branch. The legislative power is vested in a bicameral Legislature consisting of a Senate of twenty-five members elected for four-year terms and a House of Representatives of fifty-one members elected for two-year terms. The Legislature convenes annually. The executive power is vested in a Governor elected for a four-year term. In the event of the absence of the Governor from the State, or his or her inability to exercise and discharge the powers and duties of his or her office, the Lieutenant Governor, also elected for a four-year term, serves as the chief executive. Under the Constitution, the judicial power is vested in a Supreme Court, one intermediate appellate court, circuit courts, district courts, and such other courts as the Legislature may from time to time establish. Pursuant to statute, the Legislature has established four circuit courts, four district courts and an intermediate appellate court. The executive and administrative offices are limited to not more than twenty principal departments under the supervision of the Governor. The executive functions have in fact been grouped into eighteen departments. The heads of the departments are appointed by the Governor, with the advice and consent of the Senate, and hold office for a term to expire with the term of the Governor. The Department of Budget and Finance is one of the principal departments permitted by the Constitution of the State, with the head of said department being designated as the Director of Finance. Under the general direction of the Governor, the Department of Budget and Finance administers the State's proposed six-year program and financial plan, the State budget, and financial management programs of the State.

##### The Counties and Their Relationship to the State

There are four counties in the State: the City and County of Honolulu, the County of Maui, the County of Hawaii and the County of Kauai (and one quasi-county, Kalawao). Each of the counties has a separate charter for its government, each of which provides for an elected mayor and an elected council. The mayor is the chief executive and the council is the legislative body. *There are no independent or separate cities or other*

*municipalities, school districts or townships.* The State government of Hawaii has total responsibility for many functions that are performed by or shared by local governments in most other parts of the United States. For example, the State pays all costs in connection with the public school system, libraries, public welfare, and judiciary. The greatest expenditures by the State in past years have been in the areas of education and public welfare. The counties' major areas of responsibility and expenditure are in police and fire protection, waste disposal, water and sewer facilities, and secondary streets and highways.

## **DEBT STRUCTURE**

### **Types of Bonds Authorized by the Constitution**

The Constitution of the State empowers the Legislature to authorize the issuance of four types of bonds (defined by the Constitution as bonds, notes and other instruments of indebtedness): general obligation bonds (defined by the Constitution as all bonds for the payment of the principal and interest for which the full faith and credit of the State or a political subdivision are pledged and, unless otherwise indicated, including reimbursable general obligation bonds hereinafter defined); bonds issued under special improvement statutes; revenue bonds (defined by the Constitution as all bonds payable from revenues, or user taxes, or any combination of both, of a public undertaking, improvement, system or loan program and any loan made thereunder and secured as may be provided by law); and special purpose revenue bonds (defined by the Constitution as all bonds payable from rental or other payments made to an issuer by a person pursuant to contract and secured as may be provided by law). Under the Constitution, special purpose revenue bonds shall only be authorized or issued to finance facilities of or for, or to loan the proceeds of such bonds to assist, manufacturing, processing or industrial enterprises, certain not-for-profit private schools, utilities serving the general public, health care facilities provided to the general public by not-for-profit corporations, early childhood education and care facilities provided to the general public by not-for-profit corporations, or low and moderate income government housing programs. All bonds of the State other than special purpose revenue bonds must be authorized by a majority vote of the members to which each house of the Legislature is entitled. Special purpose revenue bonds of the State must be authorized by two-thirds vote of the members to which each house of the Legislature is entitled.

### **Outstanding Indebtedness and Debt Limit**

The Constitution provides that determinations of the total outstanding indebtedness of the State and the exclusions therefrom shall be made annually and certified by law or as prescribed by law. General obligation bonds may be issued by the State, provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year, whichever is higher, on such bonds and on all outstanding general obligation bonds in the current or any future fiscal year, whichever is higher, to exceed a sum equal to 18.5% of the average of the General Fund revenues of the State in the three fiscal years immediately preceding such issuance. For the purposes of such determination, General Fund revenues of the State do not include moneys received as grants from the federal government and receipts in reimbursement of any reimbursable general obligation bonds which are excluded in computing the total indebtedness of the State.

In order to carry out the provisions contained in the Constitution, the Legislature enacted Part IV of Chapter 39, HRS ("Part IV"), to require the Director of Finance to prepare statements of the total outstanding indebtedness of the State and the exclusions therefrom and of the debt limit of the State evidencing the power of the State to issue general obligation bonds and, prior to the issuance of any general obligation bonds, to find that the issuance of such bonds will not cause the debt limit of the State to be exceeded. Part IV provides that such statements shall be prepared as of July 1 of each year and submitted to the Legislature no later than December 1 of such year. The July 1, 2003 statement is the most recent such statement prepared and submitted to the Legislature. See "INFORMATION ABOUT INDEBTEDNESS" in Part I of Appendix B for a tabular summary of the statement of total outstanding indebtedness of the State and exclusions therefrom as of July 1, 2003, including general obligation bonded indebtedness, revenue bonded indebtedness, special assessment bonded indebtedness and special purpose revenue bonded indebtedness, and the permitted exclusions from the general obligation bonded indebtedness. See "APPENDIX D—GENERAL OBLIGATION FUNDED DEBT OF THE STATE OF HAWAII."

The summary statement of debt limit of the State evidencing the power of the State to incur indebtedness sets forth the General Fund revenues of the State, exclusive of federal grants, for the fiscal years ended June 30, 2001, 2002 and 2003 and the net General Fund revenues after required exclusions, the average of the said three fiscal years, and the limit of total principal and interest which may be payable in any fiscal year. See **"SUMMARY STATEMENT OF THE DEBT LIMIT OF THE STATE OF HAWAII"** in Part I of Appendix B. The greatest amount of principal and interest payable in any fiscal year on the outstanding general obligation indebtedness as of March 1, 2004, and on the Bonds, after exclusions therefrom permitted by the Constitution, is \$534,494,170 in the fiscal year ending June 30, 2009. A summary of debt service on all general obligation bonded indebtedness of the State is set forth in the under **"SUMMARY OF DEBT SERVICE"** in Part I of Appendix B; however, the debt service excluded in that table includes all general obligation bonds for which reimbursement is made regardless of whether such bonds may be excluded under the Constitution.

As calculated from the State Comptroller's Bond Fund report as of February 29, 2004 and adjusted for authorizations to fund appropriations for fiscal years 2004 and 2005, the amount of authorized but unissued general obligation bonds is \$1,009,387,722. To fund its capital improvement program, the State is currently authorized to issue \$225 million (the Bonds) during fiscal year 2004, \$450 million during fiscal year 2005 and \$200 million during fiscal year 2006 and 2007.

### **Exclusions**

The Constitution contains nine general provisions excluding certain types of bonds (including certain general obligation bonds) when determining the power of the State to issue general obligation bonds or the funded debt of any political subdivision. Six of these exclusions are described below. As stated above, the limitation on indebtedness of the State under the Constitution applies only to the power to issue general obligation bonds, and the limitation is measured by the debt service on general obligation bonds against the three year average of General Fund revenues. The three exclusions relating to revenue bonds, special purpose revenue bonds, and bonds issued under special improvement statutes for which the only security is the properties benefited or assessments thereon are chiefly of concern to counties when computing the funded debt of such counties. Accordingly, those provisions will not be discussed in this Official Statement. However, the complete provisions of Sections 12 and 13 of Article VII of the Constitution relating to the incurring of indebtedness by the State and its political subdivisions are set forth in Appendix C to this Official Statement.

One of the nine exclusionary provisions excludes bonds that have matured, or that mature in the then current fiscal year, or that have been irrevocably called for redemption and the redemption date has occurred or will occur in the then current fiscal year, or for the full payment of which moneys or securities have been irrevocably set aside.

Another of the exclusionary provisions excludes reimbursable general obligation bonds (defined in the Constitution as general obligation bonds issued for a public undertaking, improvement or system from which revenues, or user taxes, or a combination of both, may be derived for the payment of the principal and interest as reimbursement to the General Fund and for which reimbursement is required by law, and, in the case of general obligation bonds issued by the State for a political subdivision, general obligation bonds for which the payment of the principal and interest as reimbursement to the General Fund is required by law to be made from the revenues of the political subdivision) issued for a public undertaking, improvement or system, but only to the extent that reimbursements to the General Fund are made from net revenues, or net user tax receipts, or both, derived from the particular undertaking, improvement or system for the immediately preceding fiscal year, with the result that the amount of reimbursable general obligation debt excluded will vary from year to year. A "user tax" is defined by the Constitution as a tax on goods or services or on the consumption thereof, the receipts of which are substantially derived from the consumption, use or sale of goods and services in the utilization of the functions or services furnished by a public undertaking, improvement or system. Thus, for example, the aviation fuel tax is a user tax insofar as the airports system of the State is concerned, since the tax is substantially derived from the sale of a good (aviation fuel) in the utilization of the functions of the airports, but the aviation fuel tax would not be a user tax so far as schools or a stadium is concerned, since the tax is not derived from the consumption or use or sale of goods in using schools or a stadium.

Two other exclusionary provisions exclude (a) reimbursable general obligation bonds of the State issued for any political subdivision, but only if reimbursement by the political subdivision to the State for the payment of the principal and interest is required by law and (b) general obligation bonds issued for assessable public improvements to the extent reimbursements to the General Fund for the principal and interest on such bonds are in fact made from assessment collections available therefore.

One other exclusionary provision excludes bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor, but only to the extent the principal amount of such bonds does not exceed 7% of the principal amount of outstanding general obligation bonds not otherwise excluded by the exclusionary provisions of the Constitution and subject to the condition that the State shall establish a reserve in an amount in a reasonable proportion to outstanding loans guaranteed by the State. This exclusion is intended to permit the exclusion of such items as general obligation guarantees of loans under State loan programs to the extent the principal amount of such items does not exceed 7% of the outstanding principal amount of general obligation bonds not otherwise excluded. At such time as the principal amount of such items exceeds 7% of the outstanding principal amount of general obligation bonds not otherwise excluded, the potential debt service on all such items in excess of 7% of the outstanding principal amount of general obligation bonds not otherwise excluded would be included in determining the power of the State to incur indebtedness.

A final exclusionary provision excludes bonds issued by or on behalf of the State or a political subdivision to meet appropriations for any fiscal period in anticipation of the collection of revenues for such period or to meet casual deficits or failures of revenue, if required to be paid within one year, and bonds issued by or on behalf of the State to suppress insurrection, to repel invasion, to defend the State in war or to meet emergencies caused by disaster or act of God.

#### **Other Constitutional and Statutory Provisions**

General obligation bonds of the State must be authorized pursuant to the Constitution by a majority vote of the members to which each house of the Legislature is entitled. The Legislature from time to time enacts laws specifying the amount of such bonds (without fixing any particular details of such bonds) that may be issued and defining the purposes for which the bonds are to be issued.

The Constitution requires that general obligation bonds of the State with a term exceeding two years shall be in serial form maturing in substantially equal installments of principal, or maturing in substantially equal installments of both principal and interest, the first installment of principal to mature not later than five years from the date of the issue of such series and the last installment to mature not later than twenty-five years from the date of such issue, except that the last installment on general obligation bonds sold to the federal government, on reimbursable general obligation bonds and on bonds constituting instruments of indebtedness under which the State or a political subdivision incurs a contingent liability as a guarantor shall mature not later than thirty-five years from the date of such issue.

Part I of Chapter 39, HRS, as amended, is the general law for the issuance of general obligation bonds of the State. Such part sets forth limitations on general obligation bonds, such as interest rates and maturity dates, and also sets forth the provisions for the sale and form of such bonds. Such part provides that the Director of Finance, with the approval of the Governor, may issue from time to time general obligation bonds of the State in accordance with acts of the Legislature authorizing the issuance of such bonds and defining the purposes for which such bonds are to be issued.

The Governor determines when the projects authorized by the acts authorizing bonds shall commence. General obligation bonds are sold from time to time pursuant to the authorization of such acts and Part I of Chapter 39, HRS, as amended, in order to finance the projects. The Governor then allots the proceeds of the bonds so issued to the purposes specified in the acts authorizing bonds.

Section 11 of Article VII of the Constitution provides that all appropriations for which the source is general obligation bond funds or the General Fund must be for specified periods which may not exceed three years, except for appropriations from the State educational facilities improvement special fund. Any appropriation or any portion of an appropriation which is unencumbered at the close of the fiscal period for which the appropriation is made will

lapse, provided that no appropriation or portion thereof for which the source is general obligation bond funds shall lapse if the Legislature determines that such appropriation is necessary to qualify for federal aid financing and reimbursement. A general obligation bond authorization, to the extent such authorization is dependent on a specific appropriation, must be reduced in an amount equal to the amount of appropriation lapsed by operation of law or Section 11 of Article VII of the Constitution.

Set forth in Appendix C to this Official Statement are the provisions of Sections 11, 12 and 13 of Article VII of the Constitution applicable to the incurring of indebtedness by the State and its political subdivisions.

### **Financing Agreements (Including Leases)**

Chapter 37D, HRS, provides for financing agreements (including leases and installment sale agreements) for the improvement, use or acquisition of real or personal property which is or will be owned or operated by the State or any State agency and specifies that any such financing agreement shall not be an obligation for which the full faith and credit of the State or any state agency is pledged, and that no moneys other than amounts appropriated by the Legislature or otherwise held in trust for such purposes shall be required to be applied to the payment thereof. The Legislature is not required to appropriate moneys for such purpose, and financing agreements do not constitute "bonds" within the meaning of Sections 12 or 13 of Article VII of the Constitution. Chapter 37D does provide that the Governor's Executive Budget shall include requests to the Legislature for appropriation of moneys to pay amounts due each fiscal period under financing agreements.

### **Reimbursement to State General Fund for Debt Service**

As indicated above, all general obligation bonds of the State are payable as to principal and interest from the General Fund of the State. Acts of the Legislature authorizing the issuance of general obligation bonds for certain purposes frequently (but not always) require that the General Fund be reimbursed for the payment from such fund of the debt service on such bonds, such reimbursement to be made from any income or revenues or user taxes derived from the carrying out of such purposes. Such income or revenues or user taxes are not pledged to the payment of such bonds. There are now outstanding general obligation bonds (including general obligation refunding bonds) issued for highway, harbor and airport facilities, for land development, for economic development projects, for university revenue projects, and for State parking facilities, where the General Fund of the State is required to be reimbursed for all debt service, and for the housing program, where the General Fund is required to be reimbursed for interest only. Reimbursement is made from the income or revenues or user taxes derived from or with respect to such highways, harbor and airport facilities, land development, economic development projects, university projects, parking facilities and housing programs. Of the bonds referred to in this paragraph: (a) reimbursement to the General Fund of general obligation bonds issued for highways is made exclusively from the tax on motor fuel and does not include any revenues such as toll revenue; and (b) reimbursement to the General Fund of general obligation bonds issued for airports is made from the aviation fuel tax as well as from airports system revenues. See **"TAX STRUCTURE; GENERAL AND SPECIAL FUNDS; FEDERAL MONEYS; BUDGET SYSTEM; EXPENDITURE CONTROL—Special Fund"** for a description of such taxes. Reimbursement to the General Fund of all the other general obligation bonds referred to in this paragraph is made from non-tax revenues, such as from wharfage and dockage charges, pier rentals and other charges for harbor facilities; from land sales or rentals; and from dormitory and dining hall revenues and income from other ancillary facilities.

Some of the bonds referred to in the immediately preceding paragraph do not constitute "reimbursable general obligation bonds" excludable from the debt limit because they are not issued for the type of public undertaking, improvement or system to which the constitutional provisions for such exclusion pertain. See **"DEBT STRUCTURE—Exclusions."** See **"GENERAL OBLIGATION BONDS OUTSTANDING"** in Part I of Appendix B for a tabular summary of reimbursable and non-reimbursable general obligation bonds.

## **TAX STRUCTURE; GENERAL AND SPECIAL FUNDS; FEDERAL MONEYS; BUDGET SYSTEM; EXPENDITURE CONTROL**

### **Introduction**

The State Constitution requires the establishment of a tax review commission to be appointed as provided by law every five years. The purpose of such commission is to submit to the Legislature an evaluation of the State's tax structure and to recommend revenue and tax policy, after which such commission is dissolved. The Constitution does not require action by the Legislature with respect to the recommendations as submitted. The Legislature has the option of accepting or rejecting all or portions of the commission's findings. The third tax review commission convened on September 26, 1995, and issued its report in final form on December 16, 1996. As a result of a proposed Constitutional amendment to have the tax review commission appointed every ten years, a commission was not appointed in 2000. The proposed amendment failed to pass and a commission was appointed in 2001, and issued its final report in December 2002. The findings and recommendations of the commission are merely recommendations and the Legislature is not required to adopt the findings. The next commission is scheduled to be appointed in 2005.

The taxes described below account for substantially all of the tax revenues of the State and are subject in all cases to subsequent legislation. The Department of Taxation, headed by the Director of Taxation, is charged with the responsibility of administering and enforcing the tax revenue laws and the collection of all taxes and other payments payable thereunder. All tax revenues of the State are credited to one or the other of the two operating funds maintained by the State, designated respectively as the General Fund and the Special Fund. The revenues and expenditures for the last five fiscal years of these two funds are set forth hereinafter.

The State Constitution does not prohibit or limit the power of taxation and reserves all taxing power to the State, except to the extent delegated by the Legislature to the political subdivisions of the State and except all the functions, powers and duties related to real property taxation, which shall be exercised exclusively by the counties. The State cannot predict the impact, if any, of proposed changes in the federal individual and corporate income tax laws on the tax revenues of the State.

### **General Fund**

The General Fund is used to account for resources not specifically set aside for special purposes. Any activity not financed through another fund is financed through the General Fund. The appropriations acts adopted by the Legislature provide the basic framework in which the resources and obligations of the General Fund are accounted. The operating appropriations and the related General Fund accounting process complement each other as basic control functions in the general administration of the government.

The Constitution provides that whenever the General Fund balance at the close of each of two successive fiscal years exceeds 5% of General Fund revenues for each of the two fiscal years, the Legislature in the next regular session shall provide for a tax refund or tax credit to the taxpayers of the State, as provided by law. The fiscal year 2002 fund balances did not exceed 5% of the General Fund revenues; accordingly, the 2003 Legislature did not provide for a tax refund or tax credit. The fiscal year 2003 fund balances also did not exceed 5% of the general fund revenues; accordingly, the 2004 Legislature will not need to provide for a tax refund or tax credit.

As part of the annual financial planning and executive budgeting process, the Department of Budget and Finance makes projections of the General Fund revenues and expenditures for each fiscal year and revises such projections from time to time during the fiscal year. See **"REVENUE PROJECTIONS; CERTAIN TAX COLLECTIONS—General Fund Financial Plan"** in Part I of Appendix B for further information.

### **Taxes and Other Amounts Deposited in General Fund**

The proceeds of the taxes described below are deposited in the General Fund. See **"REVENUE PROJECTIONS; CERTAIN TAX COLLECTIONS—Actual Tax Collections and Distributions"** in Part I of Appendix B.

Individual and corporate income taxes, general excise and use taxes, public service company taxes, estate and certain transfer taxes, a franchise tax on financial corporations, liquor and tobacco taxes, and certain insurance premium taxes, which for fiscal year 2002 represented approximately 89% of all tax revenues of the State, are deposited to the General Fund. The individual and corporate income tax rates for married or unmarried individuals, including Head of Household as well as estates and trusts, range from 1.4% to 8.25% of taxable income. Tax rates for corporations range from 4.4% to 6.4%. The general excise (gross income) tax is a business privilege tax measured by the application of rates against values of products, gross proceeds of sales or gross income. The use tax is an excise tax levied on tangible personal property, contracting, or services imported or purchased from an unlicensed seller for resale or use in the State. The tax is based upon the purchase price or value of the tangible personal property, contracting, or services purchased or imported, whichever is applicable. The Public Service Company tax is a tax measured by the gross income from public utility business of public utilities. The estate and transfer tax is a tax on the transfer of a taxable estate and a generation skipping transfer equal to the federal credit for state death taxes allowed by the Internal Revenue Code Section 2011 and a federal credit for state taxes allowed by Section 2604. The franchise tax is a tax measured by the taxable income of banks and other financial corporations. There is an excise tax on those who sell or use tobacco products and a gallonage tax imposed on dealers who sell or use liquor.

Other amounts deposited to the General Fund are derived from non-tax sources, including investment earnings, rents, fines, licenses and permits, grants, charges for administrative services and other sources. In fiscal year 2002, these non-tax revenues comprised approximately 11% of total deposits to the General Fund.

In addition, transient accommodations, conveyance and fuel taxes are allocated among various funds and to the counties. The transient accommodations tax of 7.25% is levied on the furnishing of a room, apartment, suite or the like customarily occupied by the transient for less than 180 consecutive days for each letting by a hotel, apartment, motel, horizontal property regime or cooperative apartment, rooming house or other place in which lodgings are regularly furnished to transients for consideration, including the fair market rental value of time share vacation units.

### **Special Fund**

The Special Fund, which for accounting purposes is actually composed of several separate accounts, is used to account for revenues designated for particular purposes. The Special Fund is often of the same nature as the General Fund, the distinguishing characteristic being that the accounts in the Special Fund have legislative or other limitations imposed upon their use. The Special Fund is not a source of payment for the Bonds. The Special Fund is used primarily and extensively with regard to highway construction and maintenance, harbor and airport operations, hospital operations, housing and homestead programs, and certain programs in the area of education. The types of revenues credited to the various accounts in the Special Fund are user tax receipts (fuel taxes), revenues from public undertakings, improvements or systems (airports, harbors and university revenue-producing undertakings, among others), and various business, occupation and non-business licenses, fees and permits. There is a tax on authorized insurance companies (underwriters) based on premiums received in Hawaii and a conveyance tax on all documents transferring ownership or interest in real property, both of which support the Hawaii Hurricane Relief Fund.

The proceeds of the taxes described below are deposited in the Special Fund. See **"REVENUE PROJECTIONS; CERTAIN TAX COLLECTIONS—Actual Tax Collections and Distributions"** in Part I of Appendix B.

For fiscal year 2003, fuel taxes, rental motor vehicle and tour vehicle surcharge taxes, motor vehicle taxes and unemployment insurance, representing almost 8.3% of total tax revenues of the State, are deposited into the Special Fund. Distributors are required to pay taxes on aviation fuel, diesel oil, alternative fuels for operation of an internal combustion engine and on liquid fuels other than the foregoing, e.g., on gasoline used to operate motor vehicles upon the public highways. There is a rental motor vehicle surcharge tax on a rented or leased motor vehicle. The tax is levied on the lessor. There is also a tour vehicle surcharge tax for each tour vehicle in the 25-passenger seat and over category and for each tour vehicle in the 8- to 25-passenger seat category. The tax is levied on the tour vehicle operator. The State has a vehicle tax for vehicles up to and including 4,000 pounds net weight. The unemployment insurance tax is a tax on wages paid by employing units with one or more employees

with certain exemptions. The unemployment tax rate is determined according to a multi-contribution schedule system. There is an additional employment and training fund assessment on taxable wages paid to an employee. The percentage rate for this additional tax is .01%.

### Federal Grants

State departments, agencies, and institutions annually receive federal grants. These amounts account for about 15% of the total State budget for each year, but are not a source of payment for the Bonds. Approximately 49% of the federal grants are awarded to human resources programs in public health, vocational rehabilitation, income maintenance, services to the blind, and other social or health services. Approximately 25% of such federal funds are used to support programs in the public schools, community colleges, and the university system. Transportation and highway safety activities received about 7% of all federal funds, primarily for interstate highway construction. Employment programs, including unemployment compensation benefit payments, account for about 5% of such federal receipts. Other programs account for the balance of such receipts. The following table details the annual federal grants for the indicated fiscal years to the State's departments, agencies and institutions.

<u>Fiscal Year Ended June 30</u>	<u>Grant Amount (\$ in millions)</u>
1999	1,181.2
2000	1,142.3
2001	1,213.4
2002	1,382.2
2003	1,590.8

### Budget System

Pursuant to the Executive Budget Act of 1970, the Planning, Programming and Budgeting System of the State was adopted. The purpose of this act is to integrate the planning, programming and budgeting processes to improve decisions on the allocation of resources. The act established a comprehensive system for State programs and their related costs over a time frame of six years. The operating and capital improvement requirements are evaluated together to insure compatibility and mutual support. Systematic evaluations and analyses are conducted to ascertain the attainment of program objectives and alternative means or methods of improving current State services. The act provides that the Director of Finance and the Governor may modify or withhold planned expenditures if such expenditures would be in excess of authorized levels of service or in the event that State receipts and surpluses would be insufficient to meet authorized expenditure levels.

The Legislature convenes annually in regular session on the third Wednesday in January. Regular sessions are limited to a period of 60 days, and special sessions are limited to a period of 30 days. Any session may be extended by no more than 15 days. At least 30 days before the Legislature convenes in regular session in an odd-numbered year, the Governor shall submit to the Legislature the Governor's proposed State budget of the executive branch for the ensuing fiscal biennium. The budgets of the judicial branch and the legislative branch are submitted by their respective leaders to the Legislature for its consideration. In such regular session, no appropriation bill, except bills recommended by the Governor for immediate passage, or to cover the expenses of the Legislature, shall be passed on final reading until the bill authorizing the operating expenditures for the executive branch for the ensuing fiscal biennium, to be known as the general appropriations bill, shall have been transmitted to the Governor.

In each regular session in an even-numbered year, the Governor may submit to the Legislature a bill to amend any appropriation for operating expenditures of the current fiscal biennium, to be known as the supplemental appropriations bill. In such session to which the Governor submits to the Legislature a supplemental appropriations bill, no other appropriations bill, except bills recommended by the Governor for immediate passage, or to cover the expenses of the Legislature, shall be passed on final reading until the supplemental appropriations bill shall have been transmitted to the Governor. To become law, a bill must pass three readings in each house on separate days.

Each bill passed by the Legislature shall be certified by the presiding officers and clerks of both houses and thereupon be presented to the Governor. If the Governor approves and signs the bill, it becomes law. If the Governor does not approve a bill, the Governor may return it, with the Governor's objections, to the Legislature. Except for items appropriated to be expended by the judicial and legislative branches, the Governor may veto any specific item or items in any bill that appropriates money for specific purposes by striking out or reducing the same; but the Governor shall veto other bills only as a whole.

The Governor has ten days to consider bills presented to the Governor ten or more days before the adjournment of the Legislature *sine die*, and if any such bill is neither signed nor returned by the Governor within that time, it shall become law in like manner as if the Governor had signed it.

The Governor has forty-five days, after the adjournment of the Legislature *sine die*, to consider bills presented to the Governor less than ten days before such adjournment, or presented after adjournment, and any such bill shall become law on the forty-fifth day unless the Governor by proclamation shall have given ten days' notice to the Legislature that the Governor plans to return such bill with the Governor's objections on that day. The Legislature may convene on or before the forty-fifth day in special session, without call, for the sole purpose of acting upon any such bill returned by the Governor. In case the Legislature shall fail to so convene, such bill shall not become law. Any such bill may be amended to meet the Governor's objections and, if so amended and passed, only one reading being required in each house for such passage, it shall be presented again to the Governor, but shall become law only if the Governor shall sign it within ten days after presentation.

### **Emergency and Budget Reserve Fund**

Chapter 328L, HRS, relating to the Hawaii Tobacco Settlement Special Fund, which established a special fund for moneys received from the settlement between the State of Hawaii and various tobacco companies, also established the Emergency and Budget Reserve ("EBR") Fund, a special fund for emergency and "rainy day" purposes. 24½% (a reduction from 40%, effective on July 1, 2002) of the moneys received from the tobacco settlement would go to the EBR Fund. All interest earned from moneys in the EBR Fund is credited to the General Fund. Appropriations from the EBR Fund require a two-thirds majority vote of each house of the legislature. The EBR fund balance was \$53.1 million as of June 30, 2003. Projected fund balances are \$54.3 million at the end of fiscal year 2004 and \$78.7 million at the end of fiscal year 2007.

The annual proceeds from the tobacco settlement were \$36.1 million for fiscal year 2001, \$45.4 million for fiscal year 2002, and \$43.7 million for fiscal year 2003. PricewaterhouseCoopers LLP, independent auditors for the Tobacco Master Settlement Agreement, has estimated that the State will receive annual proceeds from the tobacco settlement as follows: \$38.9 million for fiscal year 2004 and \$42 to \$63 million a year for fiscal years 2005 to 2027. Under the Tobacco Master Settlement Agreement, the State's proceeds are estimated to total \$1.5 billion. The amount of future annual proceeds is not guaranteed and is subject to adjustment.

Of the tobacco settlement moneys received by the State each fiscal year, \$350,000 is deposited in the Tobacco Enforcement Special Fund to enforce the provisions of the Tobacco Master Settlement Agreement.

In addition to allocating 24½% of the tobacco settlement moneys to the EBR Fund, Chapter 328L allocates 35% of the tobacco settlement funds to the Department of Health for health promotion and disease prevention programs (including up to 10% for the Department of Human Services to provide health insurance for needy children); and allocates 28% to the university revenue-undertakings fund to be applied to finance the University of Hawaii health and wellness center. The remaining 12½% is allocated to the Hawaii Tobacco Prevention and Control Trust Fund to reduce cigarette smoking and tobacco use. The allocations contained in Chapter 328L are subject to change by the Legislature at any time.

Act 178, Session Laws of Hawaii 2003, changed the distribution of funds in excess of the amount required by the University of Hawaii. Eighty percent of the excess will be transferred to the EBR Fund and 20% of the excess will be transferred to the Hawaii Tobacco Prevention and Control Trust Fund.

## Expenditure Control

*Expenditure Ceiling.* The Constitution provides that, notwithstanding any other provision to the contrary, the Legislature shall establish a General Fund expenditure ceiling which shall limit the rate of growth of General Fund appropriations, excluding federal funds received by the General Fund, to the estimated rate of growth of the State's economy as provided by law and that no appropriations in excess of such ceiling shall be authorized during any legislative session unless the Legislature shall, by a two-thirds vote of the members to which each house of the Legislature is entitled, set forth the dollar amount and the rate by which the ceiling will be exceeded and the reasons therefor. Pursuant to such Constitutional provision, Part V of Chapter 37, HRS, provides, in general, that appropriations from the General Fund for each year of the biennium or each supplementary budget fiscal year shall not exceed the expenditure ceiling for that fiscal year. The expenditure ceiling is determined by adjusting the immediate prior fiscal year expenditure ceiling by the applicable "state growth." State growth means the estimated growth of the State's economy and is established by averaging the annual percentage change in total State personal income for the three calendar years immediately preceding the fiscal year for which appropriations from the General Fund are to be made. The Governor is required to submit to the Legislature a plan of proposed aggregate appropriations for the State which includes the executive budget, proposed grants to private entities, any specific appropriation measures to be proposed by the executive branch and estimates of the aggregate proposed appropriations of the judicial and legislative branches of government. In any year in which this plan of proposed general fund appropriations exceeds the estimated expenditure ceiling, the Governor must declare the dollar amount, the rate by which the expenditure ceiling would be exceeded and the reasons for proposing appropriations in excess of the ceiling amount.

Appropriations for recent fiscal years have not exceeded the expenditure ceiling, and the currently approved appropriations for fiscal years 2004 and 2005 are also below the expenditure ceiling.

The Constitution provides that no public money shall be expended except as appropriated by law. It also requires that provision for the control of the rate of expenditures of appropriated State moneys, and for the reduction of such expenditures under prescribed conditions, shall be made by law and that General Fund expenditures for any fiscal year shall not exceed the State's current General Fund revenues and unencumbered cash balances, except when the Governor publicly declares the public health, safety or welfare is threatened, as provided by law.

*Operating Expenditures.* Maximum limits for operating expenditures are established for each fiscal year by legislative appropriations. Pursuant to Part II, Chapter 37, HRS, moneys can be withheld by the Governor or the Director of Finance to ensure the solvency of each fund. Expenditure plans consisting of quarterly requirements of all State programs are prepared at the beginning of each fiscal year by the respective departments of State government. After the expenditure plans are evaluated, allotments are made to each department as prescribed by Chapter 37, HRS. Allotment transfers between different appropriation items within individual departments can be made after approval is obtained from the Governor, or if delegated, the Director of Finance. Unencumbered allotment balances at the end of each quarter shall revert to the related appropriation account, except for the Department of Education and the University of Hawaii. Requests to amend allotments must be approved by the Director of Finance. If federal funds allocable to a particular item are greater than had been estimated, the general funds are reduced proportionately as allowable, except for the Department of Education. Although the State has a biennial budget, appropriations are made for individual fiscal years and may not be expended interchangeably, except for appropriations to the Department of Education's instruction program which by statutory authority may be retained up to one year into the next fiscal biennium. The Office of the Governor approves all consultant contracts as to scope, justification, need, and cost. Department heads have been delegated authority to review and approve certain consultant contracts such as medical services. In order to realize savings from bulk acquisition, central purchasing is used for certain office and medical supplies, equipment, and motor vehicles. The Department of Accounting and General Services performs pre-audits on each financial transaction before any payment can be made, except for the University of Hawaii and the Department of Education, which have statutory authority to pre-audit payments made by themselves. Financial audits of individual programs and organizations are conducted on a periodic basis by the Department of Accounting and General Services. Internal audits are done on a continuous basis by each department. Management audits are accomplished on an as-needed basis by the Department of Budget and Finance. In addition, the State Auditor performs financial and management audits on a selective basis.

*Capital Improvement Expenditure.* Annual capital improvement expenditure plans are also prepared to control and monitor allotments and expenditures. Prior to the initiation of a project, it is reviewed for adherence to the State's General Plan and other economic considerations, and as to its justification. The Governor must approve the release of funds before any action can be taken. Competitive bidding is enforced to ensure that the lowest possible costs are obtained. Change orders during construction must be substantiated and approved by the expending agency. The need for additional capital improvement funds for each project must be approved by the Governor and must be funded from available balances of other capital improvement project appropriations. An assessment of the quality of construction material being used is performed on a continuous basis. Individual guarantees and warranties are inventoried and monitored as to the adequacy of stipulated performances.

In order to avoid any conflicts that may be created by the capital improvement program, the State has developed an overall State Plan and statewide planning system, which identifies both long and short-range goals, general implementation directions and coordination of statewide planning. The county general plans are part of this State Plan. Additional reviews and assessments are conducted to identify and resolve any environmental concerns and to preserve historical and archaeological sites, and coastal areas.

### **State Educational Facilities Improvement Special Fund**

The State has established a State Educational Facilities Improvement Special Fund (SEFISF). The amounts in the SEFISF are to be used solely for capital improvements and facilities under the jurisdiction of the State Department of Education, except public libraries. The fund is capitalized by annual appropriations of at least \$45 million in general obligation bonds or by annual transfers of at least \$45 million from the General Excise Tax if no general obligation bond appropriations are authorized.

Act 259, Session Laws of Hawaii 2001, as amended by Act 3, Third Special Session Laws of Hawaii 2001, and Act 177, Session Laws of Hawaii 2002, provided for expenditures of \$82.5 million and \$88.4 million for fiscal years 2002 and 2003, respectively, from the SEFISF.

Act 200, Session Laws of Hawaii 2003, provides for expenditures of \$73.0 million and \$46.3 million for fiscal years 2004 and 2005, respectively, from the SEFISF.

## **EMPLOYEE RELATIONS; STATE EMPLOYEES' RETIREMENT SYSTEM**

### **Employee Relations**

The Constitution grants public employees in the State the right to organize for the purpose of collective bargaining. Chapter 89, HRS, provides for 13 recognized bargaining units for all public employees throughout the State including State and county employees. Each bargaining unit designates an employee organization as the exclusive representative of all employees of such unit, which organization negotiates with the public employer. In the case of bargaining units for nonsupervisory blue collar positions, supervisory blue collar positions, nonsupervisory white collar positions, supervisory white collar positions, registered professional nurses, institutional health and correctional workers and professional and scientific employees, the Governor of the State shall have six votes, and the mayors of each of the counties, the Chief Justice of the State Judiciary and the Hawaii Health Systems Corporation Board shall each have one vote. In the case of bargaining units for police officers and fire fighters, the Governor shall have four votes and the mayors shall each have one vote. In the case of bargaining units for teachers and educational officers, the Governor shall have three votes, the State Board of Education shall have two votes and the state superintendent of education shall have one vote. In the case of bargaining units for University of Hawaii faculty and University of Hawaii administrative professional and technical staff, the Governor shall have three votes, the University of Hawaii Board of Regents shall have two votes and the University of Hawaii president shall have one vote. Decisions by the employer representatives shall be on the basis of simple majority, except when a bargaining unit includes county employees from more than one county. In such case, the simple majority shall include at least one county.

By statute, if an impasse in any negotiation is declared, the parties may attempt to resolve the impasse through mediation, fact finding, and, if mutually agreeable to the parties, final and binding arbitration. Although the

statute characterizes arbitration as "final and binding," it also provides that all cost items are subject to appropriations by the appropriate legislative bodies. If final and binding arbitration is not agreed upon, either party may take other lawful action to end the dispute, which, in the case of blue-collar workers, public school teachers and university professors, could include an employee strike. In the case of the remaining ten bargaining units, including fire fighters and police officers, a strike is prohibited by law, and negotiation impasses are subject to mandatory final and binding arbitration, subject to appropriation of cost items, as described above. Certain employees are not party to a formal labor contract, including elected and appointed officials and certain contractual hires.

Negotiations for the period from July 1, 2003 to June 30, 2005 remain in progress. Arbitrated decisions have been reached for ten bargaining units: Unit 2, Blue Collar Supervisors, has an arbitrated agreement, expiring June 30, 2005, providing for a 7.96% increase in FY 2005; Unit 3, White Collar Workers, has an arbitrated agreement, expiring June 30, 2005, providing for a 7.92% increase in FY 2005; Unit 4, White Collar Supervisors, has an arbitrated agreement, expiring June 30, 2005, providing for a 7.81% increase in FY 2005; Unit 6, Educational Officers, has an arbitrated agreement, expiring June 30, 2005, providing for a 9.24% increase in FY 2005; Unit 8, University of Hawaii Administrative Professional Technical Staff, has an arbitrated agreement, expiring June 30, 2005, providing for a 9.23% increase in FY 2005; Unit 9, Registered Professional Nurses, has an arbitrated agreement, expiring June 30, 2005, providing for a 10.55% increase over two years; Unit 10, Institutional Health and Correctional Workers, has a two-year arbitrated decision expiring June 30, 2005, providing for a 10.53% increase; Unit 11, Firefighters, has a two year arbitrated decision expiring June 30, 2005, providing for a 10.13% increase; Unit 12, Police Officers, has a four-year arbitrated decision expiring June 30, 2007, providing a 22.35% increase; and Unit 13, Professional and Scientific Employees, has an arbitrated agreement, expiring June 30, 2005, providing for a 7.31% increase in FY 2005. A negotiated settlement has been reached with Unit 7, University of Hawaii Faculty, for a six-year contract expiring June 30, 2009, providing for a 34.8% increase over six years. Extensions to the 1999 2003 contracts for the remaining two bargaining units have been executed and agreements have been reached on the employer's contribution for health benefits administered by the new Hawaii Employer Union Health Benefits Trust Fund; however, wages are still subject to negotiations. All bargaining units with contract extensions remain at an impasse on the issue of wages and may resort to appropriate remedies upon conclusion of the extension or during the life of the extension under certain conditions. Unit 1, Blue Collar Workers, has agreed to a two year extension; both parties agree to negotiate wages in the event bargaining units 2, 3, 4 or 13 have reached a wage settlement for this two year period. Unit 5, Teachers, has agreed to a one year extension until June 30, 2004.

The 2001 Hawaii State Legislature passed Act 90, which authorized privatization of government services. Act 90 eliminated legal ambiguities regarding the ability to privatize services. Although there are no major specific privatization plans, Act 90 provided an important tool to increase productivity. In addition, Act 90 permits, as an option, a managed process of public-private competition for government services and eliminates the binding arbitration process for Hawaii Government Employees Association bargaining units (white collar, clerical, nurses). Act 189, Session Laws of Hawaii 2002, reinstated binding arbitration for registered professional nurses.

Act 88, Session Laws of Hawaii 2001, Relating to Public Employees Health Benefits (partially codified as Chapter 87A, HRS), established the Hawaii Employer-Union Health Benefits Trust Fund ("Trust Fund"). The Trust Fund provides health and other benefit plans for public employees, retirees and their dependents. Public employer contributions to fund the health and other benefit plans of public employees and their dependents will be determined under Chapter 89C, HRS, or by way of applicable public sector collective bargaining agreements. Except for reimbursement of voluntary medical insurance coverage under Medicare, public employer contributions to fund the health and other benefit plans of retirees are not to exceed certain monthly contribution levels specified in Chapter 87A, HRS. The Trust Fund replaced the Hawaii Public Employees Health Fund ("HPEHF"), effective July 1, 2003. Among the stated purposes of Act 88 were the establishment of a single health benefit program meant to be more flexible and cost-effective than the HPEHF, and passage of cost containment measures meant to address the rising costs of providing health and other benefits to public employees, retirees and their dependents.

### **State Employees' Retirement System**

The Employees' Retirement System of the State of Hawaii (the "System") began operation on January 1, 1926. The System is a cost-sharing, multiple-employer defined benefit pension plan. The System covers all regular employees of the State and each of its counties, including judges and elected officials. On March 31, 2003, the

System's membership was comprised of approximately 62,292 active employees, 4,150 inactive vested members and 31,389 pensioners and beneficiaries. The total assets of the System on a market value basis amounted to approximately \$7.9 billion as of June 30, 2002, and \$7.7 billion as of June 30, 2003. Actuarial certification of current assets as of June 30, 2003 was \$9.1 billion (See "State Employees Retirement System" in Appendix B hereto). The June 30, 2004 actuarial certification of assets is not available.

The statutory provisions of Chapter 88, HRS, govern the operation of the System. Responsibility for the general administration of the System is vested in a Board of Trustees, with certain areas of administrative control being vested in the Department of Budget and Finance. The Board of Trustees consists of eight members: the Director of Finance of the State, ex officio; four members of the System (two general employees, one teacher, and one retirant) who are elected by the members and retirants of the System; and three citizens of the State (one of whom shall be an officer of a bank authorized to do business in the State, or a person of similar experience) who are appointed by the Governor and may not be employees of the State or any county.

The System is funded on an actuarial reserve basis. Actuarial valuations are prepared annually by the consulting actuary to the Board of Trustees to determine the employer contribution requirement. In recent years, the total actuarially determined employer contribution was reduced by some or all of the investment earnings in excess of the investment yield rate applied in actuarial valuations to determine the net employer appropriations to be made to the System. Act 327, Session Laws of Hawaii 1997, amended Section 88-107, HRS, so that, beginning with the June 30, 1997 valuation, the System retains all of its excess earnings for the purpose of reducing the unfunded actuarial accrued liability. However, Act 100, Session Laws of Hawaii 1999, reinstated the excess earnings credit for the June 30, 1997 and June 30, 1998 valuations. For those two valuations, the investment earning in excess of a 10% actuarial return is to be applied as a reduction to the employer contributions. In accordance with the statutory funding provisions (Section 88-122 of Chapter 88, HRS, as amended by Act 147 Session Laws of Hawaii 2001), the total actuarially determined employer contribution to the pension accumulation fund is comprised of the normal cost plus the level annual payment required to amortize the unfunded actuarial accrued liability over a period of 29 years from July 1, 2000. The contribution requirement is determined in the aggregate for all employers in the System and then allocated to individual employers based on the payroll distribution of covered employees as of the March preceding the valuation date. The actuarially determined employer contribution derived from a valuation is paid during the third fiscal year following the valuation date, e.g., the contribution requirement derived from the June 30, 1998 valuation was paid into the System during the 2000-2001 fiscal year. The actuarial cost method used to calculate employer contributions was changed by Act 327 from the frozen initial liability actuarial cost method to the entry age normal actuarial cost method effective with the June 30, 1995 actuarial valuation. Employer contributions are determined separately for two groups of covered employees: (1) police officers, firefighters, and corrections officers; and (2) all other employees who are members of the Retirement System.

Legislation enacted in 1984 created a noncontributory retirement plan for certain members of the System who are also covered under Social Security. The noncontributory plan covers most employees hired after June 30, 1984 and employees hired before that date who elected to join the plan. Police officers, firefighters, other enforcement officials, certain elected and appointed officials and other employees not covered by Social Security are excluded from the noncontributory plan.

As of March 31, 2003, the noncontributory plan covered approximately 52,309 active employees or 84% of all active members of the System. The number and percentage of noncontributory plan members will increase in the future because most new employees are required to be members of the noncontributory plan.

In 1998 legislation was passed (Act 151, Session Laws of Hawaii 1998) modifying the administration of the System, including its actuarial valuation methods and actuarial assumptions. As of June 30, 2003, the System had \$2.878 billion unfunded actuarial accrued liability, which included \$69 million liability for early retirement incentive program costs. Since the System is a cost-sharing, multiple-employer public retirement system, the unfunded actuarial accrued liability is not allocated to the State and the Counties. The State's early retirement incentive program obligation at June 30, 2003 valuation was approximately \$54 million of the \$69 million for the System.

See "STATE EMPLOYEES' RETIREMENT SYSTEM" in Part I of Appendix B for summary of the actuarial certification, employer contribution rate and unfunded accrued liabilities information about the Retirement System, including employees of the State and each of its counties.

## GENERAL ECONOMIC INFORMATION

### General

Certain of the following material pertaining to economic factors in the State under the captions "State of the Economy" through and including "Table 10" has been excerpted from the March 2004 Quarterly Statistical and Economic Report ("QSER") prepared by the State of Hawaii Department of Business, Economic Development & Tourism ("DBEDT") and may be found at <http://www.hawaii.gov/dbedt/qsr/603/index.html>. Unless otherwise stated, the following information is historical; estimated figures are used only when the definitive figures are unavailable. Unless otherwise specifically stated, all references to years and quarters in the following information are to calendar years and calendar quarters, respectively. The text refers to certain enumerated tables found under "GENERAL ECONOMIC INFORMATION." Following descriptions of the various components of the State's economy and DBEDT's outlook for the economy, there is a brief description of the impact of these components on the State's fiscal position. See "APPENDIX B—FINANCIAL INFORMATION ABOUT THE STATE OF HAWAII."

DBEDT's current forecast for real Gross State Product ("GSP") (the value of all goods and services produced and consumed within the State adjusted for inflation) growth in 2004 is 5.0%. In real terms (adjusting for inflation), DBEDT estimates that 2004 GSP growth over 2003 will be 2.6%."

### State of the Economy

Despite a concrete strike which hampered construction in February and March, Hawaii's economic condition continues to show underlying strength. Investment in construction and real estate was providing strong support for growth and, once the strike is resolved, that sector is expected to provide even more stimulus to the economy, as the industry struggles to catch up. The Mainland U.S. visitor markets made up the difference for the ongoing weakness in international arrivals. Jobs and personal income are growing at healthy rates. This positive view of Hawaii's underlying economic strength is also supported by increasingly optimistic projections for the U.S. and Japanese economies.

The number of wage and salary jobs was up 9,000 or 1.6% for the fourth quarter of 2003 compared to the fourth quarter of 2002. At an average of over 583,000 jobs, there were more jobs in Hawaii in the last quarter of 2003 than in recent history. Jobs were up most notably in Food Services, Health Care, and Construction, each with an increase of at least 1,500 jobs.

Nominal personal income rose 4.8% in the second quarter of 2003 compared to the second quarter of 2002, the period for which the most recent data are available. Other labor income showed the highest rate of increase (10.0%) followed by Proprietors' income (8.4%), Wages and salaries (4.9%), and Transfer payments (6.1%). Dividends, interest, and rent declined 0.5%. Almost all sectors saw year-to-year quarterly increases in earnings with the exception of Manufacturing and Information.

Tax revenues distributed to the State general fund increased 3.9% for the fourth quarter of 2003 compared to the fourth quarter of 2002. Revenues from the general excise and use tax increased by 6.8%, while net individual income tax increased by 9.3%, and net corporate income taxes decreased 62.0%. Transient Accommodations Tax (TAT) revenues increased 3.3%.

The number of visitors arriving by air increased 0.4% comparing the fourth quarter of 2003 to the same quarter in 2002. Domestic arrivals were up 3.2% while international arrivals were off 5.0%. Hotel occupancy rates increased from 67.1% in the fourth quarter of 2002 to 71.3% in the fourth quarter of 2003.

Indicators of Hawaii's construction industry activity were down from some earlier peaks for the fourth quarter of 2003, but levels were still relatively high and there are positive signs for the future, once the current labor dispute is settled. The contracting tax base decreased by 2.4% in the fourth quarter and private building authorizations were down 8.5%. Government contracts awarded increased 17.6% and jobs in the construction industry were up 5.5%.

Hawaii bankruptcy filings, which decreased 11.8% in the fourth quarter of 2003, reflected the eighth consecutive quarter of decline for bankruptcy filings in Hawaii.

### **Outlook for the Economy**

The quarterly forecast for Hawaii's economy continues to anticipate solid growth for tourism, personal income, and wage and salary employment for 2004. Honolulu consumer prices, however, are expected to be higher in 2004 than earlier forecasted. In addition, some recent sluggishness in recovery of the Japan visitor market resulted in slightly lower expectation for other economic measures in 2004 and beyond.

In February, a strike of the two major concrete producers in Hawaii postponed most construction around the state. However, it is expected that most of this construction can be made up now that the dispute has been resolved. The current forecast reflects that expectation.

In recent quarters, Hawaii's employment and personal income growth rates were higher than those for the U.S. economy as a whole. The combined effects of the partial recovery of Hawaii's visitor sector, increased federal government spending, and ongoing construction investment are widely held to be responsible for Hawaii's current economic health. Going forward, however, it is expected that Hawaii's future economic growth will be more moderate.

The level of Hawaii's economic growth also depends on the condition of the mainland U.S. and Japan economies. The March 2004 *Blue Chip Economic Consensus Forecast* expects real GDP growth in 2004 of 4.7% for the U.S. and 2.8% for Japan. Growth in 2005 is expected to be 3.8% for the U.S. and 2.3% for Japan. The expectation for consumer price inflation nationally is expected to be a slightly higher, 1.8% in 2004 and 1.9% for 2005. Japan has been showing impressive growth recently, although uncertainty related to the massive, non-performing debt held by Japanese banks is still a cloud over Japan's future economic growth.

Based on current conditions, visitor days in 2004 are expected to increase 4.0%, down from the 5.1% expectation of the previous forecast. Visitor expenditures are now forecast to increase 6.5% (vs. 7.5% in December) and visitor arrivals are expected to increase 5.2% (vs. 6.0% in December). In 2005, visitor arrivals, visitor days, and visitor expenditures are predicted to increase 3.5%, 2.8%, and 5.1%, respectively, followed by moderate increases in 2005 and 2006.

The U.S. Bureau of Economic Analysis's estimate of Hawaii's nominal (current dollar) personal income growth was 4.8% for the third quarter of 2003 over the same period of 2002. A projection closer to this level for 2004 is now felt to be more realistic than the 5.5% growth rate previously forecast. The decreased real personal income growth rate for 2004 is the product of reduced expectations for nominal growth and recent increases in the Honolulu CPI.

Likewise, the 2004 forecast for total wage and salary jobs growth has been reduced from 2.0% to 1.5% due to the less optimistic visitor forecast and the recognition that the 2003 hiring pace was unusually rapid. Job growth in 2005 is now projected to be 1.3%.

The forecast of Hawaii's inflation rate for 2004 has been increased slightly in response to the 2.9% Honolulu CPI rate reported for the second half of 2003. The housing and transportation price pressures felt in the second half of 2003 are projected to continue into 2004.

## Labor Force and Jobs

During the fourth quarter of 2003, total wage and salary jobs increased by 1.6% or 9,000 jobs from the fourth quarter of 2002, for an all-time high total for jobs in Hawaii. For the year 2003, the annual average number of wage and salary jobs was 574,000, up 1.8% over the 2002 annual average.

Most private sector industries showed positive job growth both for the fourth quarter of 2003 and for 2003 as a whole. The six private sector industries that reported increases of more than a thousand jobs between the fourth quarters of 2002 and 2003 were Food Service and Drinking Places (1,800 jobs or 3.5%), Natural Resources, Mining and Construction (1,500 jobs or 5.5%), Health Care and Social Assistance (1,500 jobs or 2.9%), Retail Trade (1,250 jobs or 1.9%), Professional and Business Services (1,100 jobs or 1.6%), and Educational Services (1,100 jobs or 8.7%).

Private sector jobs that declined during the fourth quarter of 2003 were Information (1,350 jobs or -11.9%), Transportation, Warehousing and Utilities (50 jobs or -0.2%), and Agriculture (200 jobs).

Based on the annual average jobs for the year 2003, the sector that gained the most jobs was Professional and Business Services with 2,350 followed by Natural Resources, Mining and Construction with 1,900 more jobs than the average for 2002.

Overall, in the government sectors, the number of jobs increased 0.2% for the fourth quarter of 2003. Federal government jobs rose 0.5% over the fourth quarter 2002 level, while State government jobs increased by 0.2% and local government jobs decreased by 0.3%. For all of 2003, Federal government jobs were up 3.3%, State jobs were up 0.6%, and Local Government jobs declined 1.2%.

Hawaii's civilian employment stood at 599,650 in the fourth quarter of 2003. This figure is a recent re-estimate by the Department of Labor and Industrial Relations and is not comparable with the estimate for the fourth quarter of 2002 which has not yet been "re-benchmarked." The same is true for the re-estimated total labor force of 626,550.

Table 3

### CIVILIAN LABOR FORCE AND EMPLOYMENT (in thousands of persons)

Year	Civilian Labor Force	% Change Civilian Labor Force	Civilian Employment	% Change Civilian Employment	Civilian Unemployment Rate

## Income and Prices

Personal income continued to grow at a positive rate during the third quarter of 2003 (the period for which the latest data are available from the Bureau of Economic Analysis) measured over the third quarter of 2002.

Nominal personal income, not adjusted for inflation, rose \$1.8 billion, or 4.8% in the third quarter of 2003 compared to the third quarter of 2002. The wage and salary component grew by about \$1.0 billion, or 4.9% in the third quarter of 2003. Wages and salaries accounted for about 56% of personal income.

Other labor income, consisting of employer payments to retirement plans, private group health insurance plans, private workers' compensation plans, and other such benefits, increased by \$342 million, or 10.0% in the third quarter of 2003 compared to the same period in 2002.

Proprietors' income, the income most closely related to entrepreneurial activity, grew by \$250 million, or 8.4% in the third quarter of 2003 compared to the third quarter of 2002.

Dividends, interest, and rent declined \$39 million, or -0.5% in the third quarter of 2003. Transfer payments, consisting largely of retirement and medical payments, grew by \$289 million, or 6.1% for the quarter. Personal contributions to social insurance, payments subtracted from personal income, increased \$84 million, or 5.4%.

Earnings increased across almost all private sector industries between the third quarter of 2002 and the third quarter of 2003. In dollar terms, the largest increases came in Health Care and Social Assistance followed by Professional and Technical Services, Accommodation and Food Services, and Retail Trade. Earnings increased by 6.9% in the public sector, largely due to the 8.4% or \$574 million increase in the State and Local Government component.

Hawaii's inflation rate increased faster than expected in the second half of 2003 after several years of unusually low inflation. In that half, the Honolulu Consumer Price Index rose by 2.9% compared to the same period in 2002. This was higher than the 2.0% inflation experienced on the Mainland during the period. The magnitude of the increase was driven by the Housing component and the Transportation component, which increased 3.2% and 4.5%, respectively. The average annual CPI was up 2.3% both for the U.S. and Hawaii in 2003.

### Tourism

During the fourth quarter of 2003, both the total number of visitor arrivals and the average daily visitor census were up from the fourth quarter of 2002. Hotel occupancy rates also improved for the quarter. Visitor arrivals from the U.S. Mainland increased while arrivals from Japan decreased, reflecting the effects of unsettled international conditions that continue to motivate many Mainland U.S. and Japanese travelers to vacation in their own countries.

The total number of visitors arriving by air was up 0.4% in the fourth quarter of 2003 from the fourth quarter of 2002. This is an increase of 6,000 visitors compared with the fourth quarter of 2002.

The overall quarterly increase in arrivals resulted from a substantial increase in domestic arrivals that more than offset a decrease in international arrivals. Arrivals on domestic flights were up 3.2%, while the number of travelers on international flights decreased by 5.0%, comparing the fourth quarter of 2003 to the fourth quarter of 2002.

Comparing the different major market areas, the U.S. West market produced 19,000 more visitors, or 3.3% more than the fourth quarter 2002 to the fourth quarter 2003. Arrivals from the U.S. East also made a positive contribution to growth, increasing 5.0%, or 17,700 visitors. The Japan market declined again, sending 3.9%, or 15,900 fewer visitors.

The total average daily visitor census was up 1,360 visitors per day or a 2.0% increase in the fourth quarter of 2003. This total increase was produced by an 4.0% increase in domestic visitors' daily census, those arriving on flights from U.S. Mainland airports, moderated by an 8.6% decrease for the international visitors' daily census. The average daily census reflects both arrivals and length of stay.

Hotel occupancy rates rose 4.2% from 67.1% in the fourth quarter of 2002 to 71.3% in the fourth quarter of 2003.

### Construction

Some indicators of Hawaii's construction industry activity did not reach the high levels achieved in 2003 in the fourth quarter this year, but levels are still relatively high and there are positive expectations for the future, once the concrete strike is settled. Both contracting tax base and private building authorizations declined in the fourth quarter of 2003 compared with the same quarter in 2002, but government contracts awarded are up and real estate sales and prices are still increasing.

The contracting tax base, which measures construction activity subject to the General Excise Tax (GET), decreased 2.4% from the fourth quarter of 2002 to the fourth quarter of 2003. GET was paid on \$1,095.1 million worth of construction in the fourth quarter of 2003. The contracting tax base was up 6.1% from 2002 to 2003.

Total private building authorizations were down 8.5% for the fourth quarter of 2003 from a year earlier. Single-family unit authorizations were up 17.6%, but multi-family units authorized were down 79.5%. Honolulu's total private authorizations were down by 23.9% from the fourth quarter of 2002, Hawaii County authorizations increased 26.2%, Kauai County residential permits were down 12.7%, and Maui permits were down 2.3%.

Government contracts awarded were up 17.6% from the fourth quarter of 2002 to the fourth quarter of 2003. State Government Capital Improvement Project expenditures (CIP) were down 7.4% in the fourth quarter from the fourth quarter of 2002. Most of the CIP expenditure was from General Obligation bond funds, but large shares were also from Special Funds and Federal Funds.

Median sale price for both single family and condominium resales in Honolulu continued to increase in the fourth quarter of 2003 over the fourth quarter of 2002. The single-family median value was up 14.0% to \$399,000 and the median Honolulu condominium price was up 13.8% to \$181,000. The number of single-family units resold increased by 8.6% while the number of condominium unit resales was up 21.8%.

Wage and salary jobs in the construction industry increased statewide in the fourth quarter compared to 2002. Construction jobs were up 5.5% from the fourth quarter of 2002 to the fourth quarter of 2003. (The Natural Resources, Mining and Construction jobs category published by the Department of Labor and Industrial Relations is currently 99% construction jobs and 1% mining jobs.) Construction jobs grew in three of the four counties. City and County of Honolulu construction jobs increased 6.4%, Hawaii County increased 10.1%, and Kauai County construction jobs were up 3.8%. Maui County construction jobs declined 6.3%.

The Honolulu Construction Cost Index for Single Family Residences rose by 1.9% in the fourth quarter of 2003, over the fourth quarter of 2002, while the comparable index for high-rise buildings rose by 2.3%.

## **Federal Government Expenditures in Hawaii**

Total expenditures by the federal government in Hawaii for the fiscal years 1992 to 2002 were \$6.6 billion, \$7.3 billion, \$7.6 billion, \$7.5 billion, \$8.0 billion, \$8.2 billion, \$8.4 billion, \$8.6 billion, \$9.0 billion, \$9.7 billion and \$10.5 billion respectively. Federal government outlays for both defense and nondefense activities are among the largest expenditures in the State.

In fiscal year 2002, the federal government paid wages and salaries of \$2.7 billion to active and inactive military and civilian employees. The Federal government employed 30,700 civilian and 34,608 active-duty military personnel in 2002.

Defense expenditures fluctuated between \$2.9 billion in 1992 and \$4.0 billion in fiscal year 2002. Military spending in Hawaii remains a relatively stable and important source of outside income. Overall, federal spending in Hawaii is roughly 12.5% of Gross State Product (GSP), with much of that being defense-related. At \$8,414 per capita, federal spending in Hawaii in fiscal year 2002 ranked sixth highest among the states after Alaska, Virginia, North Dakota, New Mexico, and Maryland. Hawaii maintained its ranking as second in per capita federal defense expenditures in fiscal year 2002. This was the seventh year in a row that the federal government spent more than a billion dollars in procurement in Hawaii with more than \$1.6 billion in fiscal year 2002. As a result of the strategic location of Hawaii in the Pacific, the overall Hawaii federal defense sector increased from \$3,728 million in fiscal year 2001 to \$3,964 million in fiscal year 2002. This was an increase of 6.3% compared to an 8.8% increase at the national level. The latest data from the U.S. Department of Commerce indicate that the total earnings of civilian personnel in the third quarter of 2003 were 8.8% higher than a year earlier. Total U.S. Department of Defense jobs increased by 0.3% in federal fiscal year 2003 compared to 2002.

As of November 12, 2003 Congress appropriated more than \$339.2 million for 22 military construction projects in Hawaii. When combined with the \$433.1 million in defense-related spending for Hawaii in the Department of Defense Appropriations Bill that was signed into law on September 30, 2003, the total defense-related spending for the state will be more than \$772.3 million in fiscal year 2004. On November 26, 2003, Hawaii-related initiatives of more than \$485 million in the fiscal year 2004 Omnibus Appropriations Bill were agreed upon by the House and Senate negotiators. On January 23, 2004, President Bush signed the Omnibus Appropriations Bill into law.

## **Banks and Other Financial Institutions**

As of June 30, 2003, total assets of all State-chartered financial institutions, including banks, savings and loan associations and industrial loan companies were reported at \$23.2 billion, a .35% increase from 2002. The four State-chartered banks accounted for \$22.7 billion of such assets.

## **Transportation**

Because the State's population resides on seven islands, the State is dependent on fast, efficient, low-cost transportation, both interstate and intrastate.

*Sea Transportation.* The State is dependent on regular shipping service for overseas lifeline support. While nearly all visitors to the State arrive by air, surface transportation provides the State with bulk of both its imported goods and delivery of exported local products. Overseas and interisland cargo shipments for the fiscal years 2001, 2002 and 2003 amounted to 17.2 million short tons, 16.9 million short tons, and 16.2 million short tons, respectively.

The interisland cruise ship industry continues to grow. The number of cruise visitor arrivals has increased from 92,250 in 1996 to 229,400 in 2003, a cumulative increase of nearly 150%; and this number is projected to rise again in 2004 to over 297,000. Since December 2001, Norwegian Cruise Lines has operated passenger cruises that have included a required stopover in the Republic of Kirabati to comply with federal restrictions on foreign flagged vessels. In 2003, Norwegian obtained an exemption from federal maritime law to operate three foreign built ships under the U.S. flag in Hawaii. Two of these ships were partially constructed under project America, a loan

guarantee provided by the Maritime Administration for American Classic Voyages to build two cruise vessels in a U.S. shipyard for use in Hawaii. Norwegian purchased the partially built vessels from the bankruptcy of American Classic Voyages. One of these ships, the *Pride of America*, is currently under construction and anticipated to be in Hawaii in late 2004 or early 2005. The third ship, *Pride of Aloha*, is an existing foreign built vessel, and is anticipated to commence service in July, 2004. The State's Harbors Division has several projects under design to improve certain terminal facilities statewide to accommodate the increased activity.

The Harbor System is comprised of ten harbors, which are operated and maintained by the Department as a single integrated system for financial and management purposes. The harbors are: (1) Honolulu Harbor, Kalaeloa Barbers Point Harbor and Kewalo Basin on the island of Oahu, comprising the Oahu District; (2) Hilo Harbor and Kawaihae Harbor on the island of Hawaii, comprising the Hawaii District; (3) Nawiliwili Harbor and Port Allen Harbor on the island of Kauai, comprising the Kauai District; (4) Kahului Harbor on the island of Maui, Kaunakakai Harbor on the island of Molokai, and Kaunapali Harbor on the island of Lanai, comprising the Maui District.

The State uses nine harbors, with the exception of Kewalo Basin, to facilitate the movement of goods from the mainland, foreign and interisland ports. The number of commercial vessels entering all ports was 8,376 in fiscal year 2001, 9,063 in fiscal year 2002, and 9,134 in fiscal year 2003.

Honolulu Harbor is the hub of the State's Statewide System of Harbors, where it serves as a major distribution point of overseas cargo to the neighbor islands and a primary consolidation center for export of overseas cargo. Overseas and interisland cargo tonnage handled through the Honolulu Harbor was 8.4 million short tons in fiscal year 2001, 8.2 million short tons in fiscal year 2002, and 8.0 million short tons in fiscal year 2003. The State manages, maintains and operates the statewide harbors system to provide for the efficient movement of cargo and passengers.

*Air Transportation.* The State operates and maintains fifteen airports on six islands within the State. The principal airport, which provides facilities for overseas flights (i.e., other than inter-island flights within the State) is Honolulu International Airport (HNL) on the island of Oahu. HNL is located approximately five miles by highway from the center of the downtown area of Honolulu. It has four runways, two of which (12,000 feet and 12,300 feet) are among the nation's longest. Approximately 60 aircraft can be handled at one time at the terminal complex, including 36 wide-bodied aircraft. With 29 overseas gate positions, 18 inter-island and commuter positions and public parking stalls for 4,579 vehicles, HNL is the most important in the State airports system. The airfield at Barber Point Naval Air Station became Kalaeloa Airport, a general aviation reliever airport for HNL, in July 1999.

Kahului Airport on the island of Maui, Hilo International Airport (renamed from General Lyman Field) at Hilo, and Kona International Airport at Keahole both on the island of Hawaii and Lihue Airport on the island of Kauai, also service direct flights to and from the continental United States.

According to data from the Airports Council International, HNL is the 43rd busiest air terminal in the world, ranking 23rd in the United States in total passengers serviced in 2002. In 2003, HNL recorded 301,919 aircraft operations. For the year 2003 there was a 6.6% reduction in passengers at HNL to 18,447,109 and an 8.0% reduction to 29,615,811 statewide.

The two major inter-island carriers, Aloha Airlines and Hawaiian Airlines, have canceled their intent to merge. Both airlines applied for anti-trust exemption to limit inter-island flights by cooperation, which was approved by the U.S. Department of Transportation for the period up to October 2003.

In calendar year 2003, statewide air cargo and mail totaled 555,386 tons, a 4.4% decrease from calendar year 2002. HNL handled 426,802 tons of cargo and mail in and out in calendar year 2003, a decrease of 6.6% from calendar year 2002. Although of high unit value, air cargo still remains relatively insignificant compared with surface shipping.

Since January 2003, a number of major airlines have announced the addition of new routes to Hawaii. Aloha Airlines added five new routes. They added service from Orange County to Kona, from Burbank to Maui, from Oakland to Lihue (four times per week), from Oakland to Kona (three times per week) and from Honolulu to

Pago Pago and Rarotonga (two times per week). American Airlines added a daily flight from Chicago to Kahului, a second daily flight from Chicago to Honolulu, a second flight from Los Angeles to Kona (three times per week) and a second flight from Los Angeles to Lihue (four times per week). Continental Airlines added daily service from Houston to Kahului and Delta Airlines added daily flights from Cincinnati and Atlanta respectively to Honolulu. Hawaiian Airlines increased frequency to Kahului from Portland (three times per week) and San Diego (four times per week). Hawaiian also added a daily flight from Las Vegas to Honolulu and it announced new international service from Sydney to Honolulu to commence in May 2004. Northwest Airlines added a daily flight from Seattle to Kahului.

Charter carriers also added service to Hawaii in 2003. Hawaiian Vacations added two new routes to Kahului from Boise and Spokane, once a week. Pleasant/ATA added two weekly flights to Lihue from Los Angeles and San Francisco. Suntrips added a weekly flight from Oakland to Lihue. The total net domestic air seats added to Hawaii in 2003 is estimated at over 332,000.

While domestic service to Hawaii increased overall during the period, international service from Japan declined. Additionally, inter-island flights were reduced due to the ongoing financial difficulties of Aloha Airlines and Hawaiian Airlines, which latter filed for Chapter 11 bankruptcy on March 21, 2003.

*Land Transportation.* In the State, three levels of government have authority to construct and maintain public highways, streets and roads. These levels of government are the State, the counties and various federal agencies. The State is served by approximately 4,455 linear miles of public highways, streets and roads administered by the Department of Transportation and the counties. An additional 138 miles of public highways, streets and roads open to the public in national parks and military reservations are the responsibility of various federal agencies, including the United States National Park Service and the military services.

The State Highway System, which is administered by the Department of Transportation, consists of 937 linear miles of roadways. The most important component of the State Highway System is the 55 miles of interstate system on Oahu, which includes Interstates H-1, H-2, H-3 and H-201.

The following table shows the motor vehicle registrations in the State for the years 1999 to 2003, inclusive.

**Table 11**

**MOTOR VEHICLE REGISTRATION**

<u>YEAR</u>	<u>VEHICLES</u>
1999	929,474
2000	964,738
2001	992,563
2002	1,013,594
2003	1,057,623

**Education**

The State operates a statewide public school system for elementary, intermediate, and high schools and colleges and universities. In the 2002-2003 school year, system enrollment decreased slightly from the 2001-2002 school year to a total of 182,798 in 283 public schools. The public education system at all levels (elementary, intermediate, high school, colleges and universities) is financed at the State level rather than the local level. This includes both capital outlays and costs of operation. Public school enrollment has been decreasing from the 1999-2000 and 2000-2001 school years due to a net increase in out-migration and declining birth rates. Within the total student count, the number of students in regular education has decreased, while the number of charter school students has increased.

In the fall of 2002, 48,173 students attended State colleges and universities, 18,706 of them on the Manoa Campus of the University of Hawaii. The University of Hawaii offers bachelors, masters, and doctorate degrees, as

well as a certificate in teaching. The system of community colleges, within the University of Hawaii system, offers associate in arts and associate in science degrees and certificates, including certificates of achievement.

In September 2002, the University of Hawaii broke ground on the \$300 million John A. Burns Health and Wellness Center (the "Project") in the Kakaako district of Honolulu. The first phase of the Project is anchored by a new university medical center. A second phase will include a cancer research facility to be relocated from downtown Honolulu. The State expects that the Project will help to attract private investment in the biotechnology industry and to revitalize further the Kakaako area, which lies between downtown Honolulu and Waikiki. The State supports the Project directly through the dedication of a share of its annual tobacco settlement receipts. These receipts are used by the University of Hawaii to offset the debt service cost on \$150 million of University Bonds that were sold in 2002 to finance a portion of the Project. Completion of the first phase of the project is expected in June 2005.

### **State Housing Programs**

Since 1970, the State has undertaken a program to alleviate the shortage of housing in the State under a comprehensive housing law. The law recognizes that all phases of housing are related to one another and consequently attempts to cover all such phases, from construction through permanent financing, and also attempts to solve or mitigate the housing problem by using both the public and private sectors. To this end the State has undertaken, among other things, facilitating the development of real property and the construction of dwelling units thereon in partnerships with qualified developers and contractors. The State's participation in such partnerships has consisted of construction financing (interim financing), including land acquisition. Other state efforts include construction and permanent financing for developers of residential housing; development by the State itself of single and multifamily residential housing units on land owned by the State or on land purchased or to be purchased for such purpose or on land to be leased from others; and loans to qualified residents of the State who are qualified purchasers of affordable dwelling units.

The State also administers federal and state housing assistance programs for low-income families. Included are the management of low-rent public housing units, the administration of the Section 8 tenant-based housing assistance program and other federal and State programs intended to provide very low to low-income residents with safe, decent and sanitary housing.

The State housing programs are carried out by the Housing and Community Development Corporation of Hawaii (the "HCDCH"). The HCDCH is empowered to raise funds through the issuance of revenue bonds and to use such funds for housing purposes. The bonds are special obligations of the HCDCH and do not impact the debt limit of the State, nor do the bonds constitute general obligations of the State.

## APPENDIX B

### FINANCIAL INFORMATION ABOUT THE STATE OF HAWAII

#### PART I

#### SELECTED FINANCIAL INFORMATION

The statistical information presented by this Part I of Appendix B is the most current such information available to the State. Because such information becomes available at different times, the dates of such information, as presented herein, are not the same.

#### INFORMATION ABOUT INDEBTEDNESS

The following table sets forth the State's total indebtedness, including reimbursable general obligation bonds excludable for the purposes of calculating the constitutional debt limit.

#### SUMMARY OF TOTAL INDEBTEDNESS OF THE STATE OF HAWAII

##### GENERAL OBLIGATION BOND INDEBTEDNESS As of July 1, 2003

General obligation bonds outstanding .....		\$3,647,088,181
Less excludable reimbursable general obligation bonds <sup>1)</sup>		
Highways .....	\$106,235,110	
Airports .....	75,402	
Harbors .....	149,772	
University of Hawaii .....	13,404,585	
Parking facilities .....	1,737,766	
Hawaiian Home Lands .....	1,535,789	
Subtotal excludable reimbursable general obligation bonds .....	\$123,138,424	
Less all general obligation bonds maturing in the current year .....	\$116,492,786	\$ 239,631,210
Net general obligation bonds outstanding .....		<u>\$3,407,456,971</u>

##### REVENUE BOND INDEBTEDNESS <sup>2)</sup> As of July 1, 2003

Revenue bonds outstanding:		
Airports:		
Airports system .....	\$ 790,000,000	
Airports special facility .....	40,845,000	\$ 830,865,000
Housing		
Single family mortgage purchase .....	509,780,000	
Multifamily .....	160,004,285	669,784,285
Harbors:		
Revenue .....	201,540,000	
Special facilities revenue bond .....	16,500,000	218,040,000
Highway:		
Revenue .....		265,580,000
Hawaiian home lands .....		11,100,000
University revenue projects .....		184,080,000
Total revenue bonds outstanding .....		<u>\$ 2,179,449,285</u>

## SPECIAL ASSESSMENT BONDS <sup>3)</sup>

As of July 1, 2003

Special Assessment Bonds outstanding:	
Improvement district bonds .....	\$ <u>4,170,000</u>

## SPECIAL PURPOSE REVENUE BOND INDEBTEDNESS <sup>4)</sup>

As of July 1, 2003

Special Purpose Revenue Bonds outstanding:	
Health care facilities .....	\$ 637,790,000
Utilities serving the general public .....	747,693,000
Industrial enterprises.....	21,437,500
Processing enterprises.....	<u>7,800,000</u>
Total special purpose revenue bonds outstanding.....	<u>\$ 1,414,720,500</u>

- 1) See "**DEBT STRUCTURE—Exclusions**" and "**DEBT STRUCTURE—Reimbursement to State General Fund for Debt Service**" in Appendix A for exclusions and sources of reimbursement.
- 2) All revenue indebtedness is payable solely from the revenues derived from rates, rentals, fees and charges except for the revenue bonds issued for the airports system, which are payable from both the revenues of the airports system derived from rates, rentals, fees and charges and from the aviation fuel tax, and except for a portion of the revenue bonds issued for the University of Hawaii, which is payable from both the revenues of the University derived from tuition, fees and charges and from tobacco settlement funds.
- 3) All special assessment indebtedness is payable solely from receipts derived from assessments against the real property specially benefited from the sale of the bonds.
- 4) All special purpose revenue indebtedness is payable solely from receipts derived from payments by special purpose entities or persons under contract or from any security for such contract or special purpose revenue bonds.

The following table presents a summary of the calculation of the State's constitutional debt limit as of July 1, 2003.

### SUMMARY STATEMENT OF THE DEBT LIMIT OF THE STATE OF HAWAII

NET GENERAL FUND REVENUES FOR THE STATE OF HAWAII FOR THE PRECEDING THREE FISCAL YEARS	2000-2001	2001-2002	2002-2003
Total General Fund revenues exclusive of Grants from the federal government.....	\$ 3,441,577,680	\$ 3,440,963,462	\$ 3,788,864,069
Less:			
Receipts in reimbursement of any indebtedness that is exclude in computing the total outstanding indebtedness of the			
State Agencies .....	29,212,144	28,619,094	22,811,877
Net General Fund revenues.....	<u>\$ 3,256,883,851</u>	<u>\$ 3,412,365,536</u>	<u>\$ 3,766,052,192</u>
Sum of net General Fund revenues for preceding three fiscal years..	\$10,590,762,096		
Average of preceding three fiscal years.....	\$ 3,530,254,032		
18½% of average net General Fund revenues of the three preceding years ended June 30, 2001, 2002, and 2003 .....	\$ 653,096,996 <sup>(1)</sup>		

(1) The greatest amount of principal and interest payable in any fiscal year on outstanding general obligation indebtedness as of March 1, 2004, and on the Bonds, after exclusions permitted by the Constitution, is \$501,924,438 in the fiscal year ending June 30, 2009.

### GENERAL OBLIGATION BONDS OUTSTANDING AS OF MARCH 1, 2004

	Principal Amount	Balance	% of Total
Reimbursable General Obligation Bonds <sup>(1)</sup>			
From State Special Funds for			
Highways.....	\$ 98,896,961

Total for Special Funds.....	407,498,498		
Total Reimbursable General Obligation Bonds .....		\$ 407,498,498	11.21%
Non-Reimbursable General Obligation Bonds			
From State General Funds for various purposes .....	\$3,229,064,683		
Total Non-reimbursable General Obligation Bonds .....		\$3,229,064,683	88.79%
Total General Obligation Bonds Issued and Outstanding .....		\$3,636,563,181	100.00%

(1) See discussion above concerning sources of reimbursement, including taxes. The figures in this table should not be taken as an indication that in all instances the reimbursement to the General Fund will in fact be made or that such reimbursement will be made in whole.

(2) Not excludable for debt limit purposes.

# SUMMARY OF DEBT SERVICE AS OF MARCH 1, 2004

The following table sets forth a summary of the debt service payable on all outstanding general obligation bonded indebtedness of the State of Hawaii as of March 1, 2004 and on the Bonds. Further detail concerning the State's various outstanding general obligation indebtedness is set forth in Appendix D hereto.

Fiscal Year Ending June 30	Total Principal Outstanding as of March 1, 2004	Total Principal Payable	Total Interest Payable	Total Debt Service Payable	Less Amounts Reimbursable to General Fund (1)	Net Debt Service Payable	Total Principal Payable	Debt Service on Series DD (2)	
								Total Interest Payable	Total Debt Service Payable
2005	3,741,373,182	136,445,000	193,501,159	329,946,159	44,384,983	285,561,176	--	10,629,214.13	10,629,214.13

2024	19,970,000	19,970,000	516,031	20,486,031	--	--	19,780,000	1,029,247.50	20,809,247.50

(1) These figures show debt service on outstanding general obligation bonds of the State issued for certain activities, improvements and systems of the State where the payment of such debt service from the General Fund is required by statute to be reimbursed to the General Fund from the respective income, revenues or user taxes pertaining to the particular activity, undertaking, improvement or system and regardless of whether excludable under the provisions of the Constitution when determining the power of the State to incur indebtedness. Consequently, the amount of reimbursement to the General Fund in the table above is greater than the excludable reimbursement under the Constitution. For example, of the \$44,384,983 amount reimbursable to the General Fund in the Fiscal Year ending June 30, 2005, only \$17,817,020 is an excludable reimbursement for purposes of the debt limit calculation under the Constitution. See Debt Structure - Reimbursement to the State General Fund for Debt Service in Appendix A for the sources of reimbursement, including taxes.

(2) As of the date of delivery thereof.

### Certificates of Participation

In November 1998, the State executed a Lease Purchase Agreement related to the issuance of \$54,850,000 in certificates of participation (COPS), the proceeds of which were used to purchase a state office building in Kapolei, and in December 2000, the State executed a second Lease Purchase Agreement for the issuance of \$23,140,000 in COPS, the proceeds of which were used to purchase the No. 1 Capitol District State Office Building in Honolulu. Both buildings are located on the island of Oahu. The COPS are secured by rental payments payable from lawfully available funds of the State, including the State's general fund. The rental payments do not constitute an obligation for which the State has levied any form of taxation. The COPS do not constitute an indebtedness of the State or any political subdivision thereof within the meaning of the Constitution or any statute of the State. The State does not anticipate that it will issue COPS during the current fiscal year, and would require legislative authorization to do so.

## INVESTMENT OF STATE FUNDS

### Cash Management Program Policy

The investment policies of the State's cash management program are: (a) Safety: To safeguard State funds by securing cash, personnel and facilities and requiring full collateralization of State deposits; (b) Liquidity: To ensure the availability of funds to meet State expenditures by the timely forecasting of cash requirements and the selection of securities that can be promptly converted into cash with a minimum risk in principal; and (c) Yield: To maximize interest earnings on State investments by investing funds in excess of immediate needs to the maximum extent possible.

### Securities in Which State Funds May Be Invested

The General Fund, the various Special Funds and other funds are held in the State Treasury. The moneys held in the State Treasury, which in the judgment of the Director of Finance are in excess of the amounts necessary to meet the immediate requirements of the State, are invested in securities prescribed in Section 36-21, HRS. The securities in which State funds may be invested include the following: (a) U.S. Treasury obligations, including Treasury bills, notes and bonds; (b) obligations for which the full faith and credit of the United States are pledged for the payment of principal and interest; (c) time certificates of deposit in federally insured financial institutions; (d) interest bearing accounts with federally insured financial institutions; (e) repurchase agreements with federally insured banks and savings and loan associations; (f) student loan resource securities with a triple A rating; (g) commercial paper with at least an A1/P1 rating; (h) bankers' acceptances with at least an A1/P1 rating; and

(i) money market mutual funds which invest solely in U.S. Treasury obligations or obligations for which the full faith and credit of the United States are pledged for the payment of principal and interest. Section 36-21, HRS, prohibits the State from investing in securities which require the State to make any swap, counter or other payments other than the original purchase price plus accrued interest.

In the investment of State funds, it is the policy of the State to give due regard to depositories doing business within the State. This policy takes into account the beneficial effects to the State of using local depositories. Deposits are allocated among local financial institutions based upon the yield offered on investments and their ability to fully collateralize such investments.

As of February 29, 2004, 31% of the State's investment portfolio consisted of repurchase agreements with banks, 6% consisted of time certificates with banks, 7% consisted of student loan resource securities with a triple A rating, and 56% consisted of Federal Agency Securities.

### **Safety of Public Funds**

All State funds deposited with financial institutions are deemed, under State law, to be deposited in the State Treasury. Except for that portion of any deposit which is insured by an agency of the federal government, e.g., the Federal Deposit Insurance Corporation (FDIC), all deposits of State funds must be fully collateralized by the depository with securities deposited with the Director of Finance as provided in Section 38-3, HRS. Pursuant to the authority granted the Director of Finance under Section 38-3, the valuation policy for securities pledged as collateral for the protection of State deposits is 90% of the outstanding balance of mortgage-backed pass-through certificates, i.e., Collateralized Mortgage Obligations backed by Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA), and Federal Home Loan Mortgage Corporation (FHLMC) securities, 100% of letters of credit issued by the Federal Home Loan Bank, and 95% of par or face value of all other securities accepted by the State for protection of State deposits.

With respect to the types of securities pledged as collateral, Section 38-3, generally requires such securities to be investment grade financial instruments with a high degree of liquidity or marketability. Accordingly, the State will not accept, as collateral, derivative products or other securities that move inversely to the general level of interest rates. Collateralized mortgage obligations that do not pass the federal Financial Institutions Examination Council test for high-risk securities are also unacceptable as collateral for State deposits.

The collateral pledged by depositories is monitored by the Director of Finance on a computerized system, which determines the adequacy of the amount of collateral pledged by depositories on a daily basis. Approximately 70% of the securities used to collateralize repurchase agreements are marked to market regularly.

The State utilizes a uniform repurchase agreement in all such transactions. Such form requires sellers to mark purchased securities to market on a monthly basis, or more frequently at the State's request. Such form further requires sellers to increase the collateral securities in the State's account to maintain market value of the purchased securities in an amount equal to or greater than the original purchase price.

### **Investment Yield**

Cash positions of State moneys in depositories are reviewed at the beginning of each work day. A determination is made as to the amount of moneys needed to meet payment of State obligations, e.g., payroll, debt service, vendor and contract payments. Any amounts in excess of those requirements are then committed to investment to maximize interest income to the State. Interest earned on moneys in the State Treasury which are requested to be invested by a special fund agency are credited to the special fund agency. All investments of the State are made by the Director of Finance. The length or term of an investment is determined by the cash flow requirements of the particular program and the general direction of interest rates.

As of January 31, 2004, the State earned \$9.4 million on its General Fund investments. This amount represents an average return on investment for the General Fund of 2.56%.

## SELECTED FINANCIAL STATEMENTS

The following is the balance sheet of the General Fund ending each June 30 from 1998 to 2002. Following thereafter is the statement of revenues and expenditures of the General Fund for each such fiscal year including the statement of revenues and expenditures for the fiscal year ended June 30, 2002. See also the schedules relating to the General Fund accompanying the General Purpose Financial Statements from the State's Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2003 in Part II of Appendix B.

The data set forth in the balance sheets and other financial statements have been prepared by the Comptroller of the State. The General Fund is presented and reported using the modified accrual basis of accounting. Under such basis, revenues are recorded when collected in cash except for (a) revenues susceptible to accrual, i.e., measurable and available and (b) revenues received prior to the period of benefit. Revenues for which receivables have been recorded (and other noncash assets generally) are fully reserved until such time as they are converted to cash.

Expenditures are recorded at the time vouchers for payment are filed with the Comptroller. At the end of a fiscal year, existing liabilities for which payment is due are vouchered and recorded as expenditures as of the end of the fiscal year. Other liabilities for which payment is not due, and obligations in the form of open purchase orders, are recorded as encumbrances at the end of a fiscal year and are not recorded as expenditures until the encumbrances are subsequently liquidated.

General fixed assets purchased or constructed are recorded initially as expenditures and are subsequently reflected at cost in the General Fixed Assets Account Group. Depreciation on general fixed assets is not recorded in the general accounting records.

- 1) From July 1, 1994 through December 31, 1998, 4.166% of the Transient Accommodations Tax (TAT) revenues was distributed to the general fund. Act 156, SLH 1998 redirected the TAT to other recipients: 44.8% to the counties, 17.3% to the Convention Center and 37.9% to the Tourism Special Fund. On June 30, 2000, the Convention Center Capital and Operations Special Fund ceased to exist, leaving the 17.3% Convention Center share to be distributed to the general fund. On July 1, 2002, Act 253, SLH 2002 redirected these deposits to a convention center special fund; Tourism Special Fund deposits to other tourism-related special funds; provided that any TAT collected or the Tourism Special Fund and the tourism-related special funds in excess of \$63.292 million for the fiscal year shall be deposited into the general fund.
- 2) For fiscal year 2001-2002, social security, pension contribution, capital outlay, and miscellaneous expenditures and transfers to component units were reclassified to other functions.
- 3) For fiscal year 2001-2002 and 2002-2003, Other Revenues and Transfers to specific funds were combined in Other Financing Sources (Uses) Section.

## **REVENUE PROJECTIONS; CERTAIN TAX COLLECTIONS**

### **Introduction**

The Constitution requires that there be established by law a Council on Revenues to prepare revenue estimates of the State government and to report such estimates to the Governor and the Legislature. The revenue estimates serve as the basis for the Governor's budget preparation and the Legislature's appropriation of funds and enactment of revenue measures. If the Council's latest revenue estimates are not used by the Governor or the Legislature for budget preparation or appropriations, respectively, then the party not using the latest estimates must publicly state the reasons for using a differing revenue estimate. Act 278, Session Laws of Hawaii 1980, provided for the establishment of such a council consisting of seven members, with three members appointed by the Governor and two members each appointed by the President of the Senate and the Speaker of the House. The Council reports its estimates and revisions each June 1, September 10, January 10, and March 15. The Council also revises its estimates when it determines that such revisions are necessary or upon request of the Governor or the Legislature. The Council's estimates are used by the Department of Budget and Finance in formulating the State Multi-Year Program and Financial Plan, the Executive Budget, and the Executive Supplemental Budget for submission to the Legislature.

In September of 2003, the Council revised its forecasted general fund tax revenue growth rate for fiscal year 2004 from 7.7% to 6.2%. Although the projected growth rate decreased from the May estimate for fiscal year 2004, collection amounts increased due to higher than projected fiscal year 2003 actual collections (4.4% growth versus 1.8% projected growth, including \$16.5 million in protested fiscal year 2003 franchise tax payments transferred to the litigation claims fund in fiscal year 2004). The Council increased its projected growth rate for fiscal year 2005 based on rapid growth in the construction industry and moderate growth in the visitor industry. Growth rates for fiscal years 2006 onward were left unchanged.

In December 2003, the Council reduced its forecasted general fund tax revenue growth rate for fiscal year 2004 from 6.2% to 5.2%. The Council still believed the primary factors driving Hawaii's economy such as visitor arrivals, construction activity, and consumer spending appeared to be growing very rapidly, but revenues were impacted by technical factors such as weekend effects and variations in tax payment and refund patterns. The impact of recent tax laws changes, especially business incentive tax credits remained unclear.

In January 2004, the Council retained its general fund growth rate forecast.

### **General Fund Financial Plan**

Set forth below are the actual budgetary General Fund resources, expenditures, and balances for the fiscal year ended June 30, 2003, and estimates for the fiscal years ending June 30, 2004 and June 30, 2005.

**GENERAL FUND FINANCIAL PLAN 2003-2005**  
(Millions of Dollars)

	Actual 2003	Estimated 2004	Estimated 2005

Ending Balance <sup>5)</sup> .....	117.2	84.6	100.9

1) Reflects actual fiscal year 2003 tax revenue collections as reported by the Department of Accounting and General Services.

2) Includes transfer of \$4.9 million in fiscal year 2004 from special funds and \$2.0 million in additional federal reimbursements; fiscal year 2005 includes \$10.5 million in additional federal reimbursements..

	FY2004	FY2005
3) Includes the following major items:		
Collective bargaining (agreements with Units 1 and 5 still pending).....	38.4	100.0
Hawaii Health System Corporation (emergency appropriation).....	14.0	---
Federal fiscal relief— Enhanced Medicaid FMAP.....	(22.1)	---
Restrictions/reductions.....	---	(50.0)

4) Not included as an item in the financial statements under "FINANCIAL STATEMENTS" in Part I of this Appendix B nor in the projections of the Council on Revenues.

5) Fund balances do not include any Emergency and Budget Reserve Fund balances. See Appendix A "Emergency and Budget Reserve Fund."

Note: Totals may not add due to rounding.

Source: Department of Budget and Finance, March 2004.

In the general fund financial plan, fiscal year revenues are recognized based on receipt while fiscal year expenditures are recognized when appropriations are expended in that year or encumbered. At the end of the fiscal year, encumbrances are not lapsed but are considered to be expenditures. Additionally, the Department of Education, by law, is allowed to carry over up to five percent of its unencumbered appropriations to the following fiscal year. For example, \$19.0 million carried over from fiscal year 2003 to fiscal year 2004 by the Department of Education did not lapse and was considered to be expended in fiscal year 2003.

#### General Fund Tax Revenues

Receipts of taxes constitute the largest portion of General Fund revenues for the fiscal year ending June 30, 2003, and represent about 84% of the total General Fund revenues. Set forth below are the actual General Fund tax revenues for the fiscal year ended June 30, 2003 and estimated tax revenues for the fiscal years ending June 30, 2004 and June 30, 2005, based on the Council on Revenues' March 2004 projection.

## Actual Collections and Distributions

Set forth below is an unaudited statement of State tax collections and distributions for the first eight months of the 2003-2004 fiscal year as reported by the State Director of Taxation. The collections from all sources for the first eight months of the 2004 fiscal year totaled \$2,632.6 million, representing a 4.3% increase from collections for the same eight months of the previous fiscal year. Cumulative general fund accruals for the first eight months of the 2004 fiscal year amounted to \$2,230.0 million, for an increase of 3.0% when compared with the same period the prior fiscal year.

Counties Total.....	100,355,940	96,847,317
Total.....	<u>2,632,568,807</u>	<u>2,523,876,846</u>

\* Refers to distributions received by the Counties from the specified taxes.

Source: State Department of Taxation: Tax Research and Planning.

Preliminary figures for March 2004 indicate that total tax revenue deposited into the General Fund increased by 17.4% over the same month in 2003, and the cumulative General Fund revenue increased from a 3.0% growth rate in February 2004 to a 5.5% growth rate in March, resulting in cumulative General Fund deposits of \$2.5 billion for the first nine months of fiscal year 2004. For the full fiscal year, the Council on Revenues projects an increase of 5.2%.

### STATE EMPLOYEES' RETIREMENT SYSTEM

A description of the State's Retirement System for employees of the State and the counties is provided under "**EMPLOYEE RELATIONS; STATE EMPLOYEES' RETIREMENT SYSTEM—State Employees' Retirement System**" in Appendix A. The following statistical information addresses the entire Retirement System, including both State and county employees. The System issues a Comprehensive Annual Financial Report that may be obtained by writing to the Employees' Retirement System of the State of Hawaii, 201 Merchant Street, Suite 1400, Honolulu, Hawaii 96813.

#### Employer Contribution Rate

The schedule which follows shows the total actuarially determined employer contribution rate for all employees based on the last five annual actuarial valuations.

Actuarial Valuation as of June 30	Total Calculated Employer Contribution Rate for All Employees (% of total payroll)
1999	7.66 <sup>1</sup>
2000	9.22 <sup>1</sup>
2001	8.91 <sup>2</sup>
2002	11.38 <sup>3</sup>
2003	14.55

<sup>1</sup> Reflects Acts 216 of 2000, 100 of 1999, 151 of 1998 and 327 of 1997 which amended Sections 88-107 & 88-122, HRS.

<sup>2</sup> Reflects Act 104 of 2001 which amended Section 88-122, HRS.

<sup>3</sup> Reflects Act 147 of 2002 which amended Section 88-122, HRS.

As seen above, the calculated total employer contribution rates as a percentage of total payroll have fluctuated during the last five actuarial valuations. The increase in 2000 includes the net effects of changing the salary assumption and weaker investment results for FY2001. The increase in 2002 is due to a 3.7% increase in active membership and the recognition of investment losses. The 2003 increase is due to the recognition of investment losses caused by the poor investment climate over the past several years.

### Summary of Actuarial Certification Statement

The summary of the actuarial certification of the Employees' Retirement System as of June 30, 2002 and 2003 is set forth below:

### EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF HAWAII Summary of Actuarial Certification as of June 30, 2002\* and 2003 (Includes all counties)

ASSETS	2002	2003
Total current assets .....	\$ 9,415,160,500	\$ 9,073,960,400
Present value of future employee contributions.....	386,619,200	375,238,800
Present value of future employer normal cost contributions.....	1,127,670,200	1,145,588,800
Unfunded actuarial accrued liability .....	1,724,847,000	2,808,682,500
Present value of future employer Early Incentive Retirement Program contribution .....	70,218,400	69,414,500
TOTAL ASSETS.....	<u>\$12,724,515,300</u>	<u>\$13,472,885,000</u>
LIABILITIES		
Present value of benefits to current pensioners and beneficiaries.....	\$ 5,499,395,300	\$ 5,912,256,700
Present value of future benefits to active employees and inactive members.....	7,225,120,000	7,560,628,300
TOTAL LIABILITIES .....	<u>\$12,724,515,300</u>	<u>\$13,472,885,000</u>

\* Reflects Act 147 of 2002 which amended Section 88-122, HRS.

Source: Gabriel, Roeder, Smith & Company.

As of June 30, 2003, the unfunded actuarial accrued liability (under the entry age normal actuarial cost method) of the Retirement System amounted to approximately \$2.878 billion, including \$69 million due to the Early Incentive Retirement Program. The Retirement System's funded ratios-assets divided by the actuarial accrued liability decreased during fiscal year 2003 as shown below:

### Funded Ratios

June 30, 2002

## Independent Auditors' Report

Comptroller  
State of Hawaii:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Hawaii as of and for the year ended June 30, 2003, which collectively comprise the State of Hawaii's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Hawaii's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Department of Transportation – Airports and Harbors Divisions, which are major enterprise funds, which represent 89% and 62%, respectively, of the assets and revenues of the business-type activities, and the University of Hawaii, the Housing and Community Development Corporation of Hawaii, and the Hawaii Health Systems Corporation, which represent 94% and 99%, respectively, of the assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the Department of Transportation – Airports and Harbors Divisions, the University of Hawaii, the Housing and Community Development Corporation of Hawaii, and the Hawaii Health Systems Corporation, are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Hawaii as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

KPMG LLP, KPMG LLP, a U.S. limited liability partnership, is  
a member of KPMG International, a Swiss association.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 31, 2003 on our consideration of the State of Hawaii's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis on pages 14 through 28 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Hawaii's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison of the special revenue funds, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison for the special revenue funds have been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

KPMG LLP

## Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

June 30, 2003

(Amounts in thousands)

Total Fund Balance – Governmental Funds		\$	1,646,596
Amounts reported for governmental activities in the statement of net assets are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:			
Land and land improvements	\$	2,326,843	
Infrastructure		7,522,895	
Construction in progress		784,391	
Buildings, improvements, and equipment		2,655,824	
Accumulated depreciation		(4,156,811)	
			9,133,142
Accrued interest and other payables are not recognized in governmental funds.			(137,300)
Other long-term assets are not available to pay for current-period expenditures and are deferred, or not recognized, in governmental funds, such as deferred tax revenue.			21,100
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:			
General obligation bonds payable		(3,634,738)	
Accrued vacation payable		(155,869)	
Revenue bonds payable		(288,470)	
Reserve for losses and loss adjustment costs		(102,100)	
Claims and judgments payable		(251,500)	
Capital lease obligations		(67,505)	
			(4,500,182)
Net Assets of Governmental Activities		\$	<u>6,163,356</u>

See accompanying notes to basic financial statements.

For the Fiscal Year Ended June 30, 2003

(Amounts in thousands)

Total Net Change in Fund Balances (Deficit) – Governmental Funds		\$	(304,270)
Amounts reported for governmental activities in the statement of activities are different because:			
Capital outlays are reported as expenditures in governmental funds; however, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:			
Capital outlay	\$	252,633	
Depreciation expense		(345,740)	
Excess of capital outlay over depreciation expense			(93,107)
Bond proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the statement of net assets. In the current period, this is the amount of proceeds received from general obligation and revenue bonds issued.			(367,562)
Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year, these amounts consist of:			
Bond principal retirement		310,350	
Capital lease payments		2,895	
Claims and judgment payments		30,000	
Total long-term debt repayment			343,245
Revenue timing differences result in greater revenue in the government-wide financial statements.			3,500
Accrued interest and other payables are not recognized in governmental funds.			(69,100)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds:			
Loss on sale of capital assets		(43,882)	
Change in claims and judgments payable		(15,900)	
Change in accrued vacation payable		(4,386)	
Change in reserve for losses and loss adjustment costs		(3,700)	
			(67,868)
Change in Net Assets of Governmental Activities	\$		<u>(555,162)</u>

See accompanying notes to basic financial statements.

## Notes to Basic Financial Statements

June 30, 2003

---

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the State of Hawaii (the State) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the State's accounting policies are described below.

#### A. Reporting Entity

The State has defined its reporting entity in accordance with GASB Statement No. 14, *The Financial Reporting Entity*. The accompanying basic financial statements present the financial activity of the State (Primary Government) and its Component Units, entities for which the Primary Government is considered to be financially accountable. Discretely presented Component Units are legally separate organizations for which the Primary Government is financially accountable or for which the nature and significance of their relationship to the Primary Government are such that exclusion would cause the State's reporting entity to be misleading or incomplete.

##### *Primary Government*

The following branches and departments are included in the State's reporting entity because of the significance of their operational or financial relationships with the State.

##### **Executive:**

- Accounting and General Services
- Agriculture
- Attorney General
- Budget and Finance
- Business, Economic Development and Tourism
- Commerce and Consumer Affairs
- Defense
- Education
- Hawaiian Home Lands
- Health
- Human Resources Development
- Human Services
- Labor and Industrial Relations
- Land and Natural Resources
- Public Safety
- Taxation
- Transportation

##### **Judicial**

##### **Legislative**

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### ***Discretely Presented Component Units***

The Component Units column in the basic financial statements includes the financial data of the State's discretely presented Component Units. They are reported in a separate column to emphasize that they are legally separate from the State. The governing bodies of these discretely presented Component Units are appointed by the Governor. The discretely presented Component Units are as follows:

#### **University of Hawaii**

The State's public institutions of higher education provide instruction and conduct research in, and disseminate knowledge of agriculture, economics, history, languages, literature, mathematics, mechanical arts, natural sciences, philosophy, political and social sciences, physics, and such other branches of advanced learning as the Board of Regents of the University of Hawaii (UH), may prescribe, and the federal government require.

Hawaii Revised Statutes (HRS) Chapter 304 governs the activities of the UH. The activities of the UH are under the general management of the Board of Regents consisting of 11 members who are appointed and may be removed by the Governor.

#### **Housing and Community Development Corporation of Hawaii**

The Housing and Community Development Corporation of Hawaii (HCDCH) was established as a corporate body to be placed within the Department of Business, Economic Development and Tourism for administrative purposes. The HCDCH's housing programs include performing housing finance, housing development, and residential leasehold functions; and clearing, replanning, and reconstructing areas in response to the State Legislature's determination that there exists a critical shortage of safe and sanitary, affordable housing units for lower income residents. The State has the ability to influence the budget and programs of the HCDCH.

HRS Chapter 201G states that the HCDCH shall be a public body and a body corporate and politic. The statute provides that the HCDCH shall be headed by a Board of Directors comprised of nine members. The nine members consist of the following:

- Six public members appointed by the Governor (two appointed at large, and the remaining four appointed from each of the counties of Honolulu, Hawaii, Kauai, and Maui);
- The Director of Business, Economic Development and Tourism;
- The Director of Human Services; and
- The Representative of the Governor's Office.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

### Hawaii Health Systems Corporation

The Hawaii Health Systems Corporation (HHSC) was established as a corporate body to be placed within the Department of Health for administrative purposes. The HHSC, consisting of the state hospitals, was created to provide quality health care for all of the people in the State, including those served by small rural facilities, by freeing the facilities from unwarranted bureaucratic oversight.

Act 262, Session Laws of Hawaii (SLH) of 1996, states that the HHSC shall be a public body corporate and politic and an instrumentality and agency of the State. The HHSC commenced operations on July 1, 1996. The statute provides that the HHSC shall be governed by a Board of Directors. The Board consists of the following 13 members:

- Ten members appointed by the Governor:
  - One member from each of the counties of Honolulu, Kauai, and Maui;
  - Two members from the county of Hawaii;
  - One member from either the county of Kauai, or the county of Maui (district of Hana or island of Lanai); and
  - Four at-large members;
- The chairperson of the executive public health facility management advisory committee, as an Ex Officio voting member;
- A physician appointed by the executive public health facility management advisory committee; and
- The Director of Health, as an Ex Officio voting member.

The State provides significant operating subsidies to the HHSC. Accordingly, a financial benefit/burden relationship exists between the State and the HHSC.

Negotiations between the HHSC and the State relating to the allocation of assets, liabilities, and fund balances between the Department of Health and the HHSC pursuant to Act 262 were ongoing as of June 30, 2003. Accordingly, the assets, liabilities, and net assets of the HHSC reflected in the accompanying basic financial statements at June 30, 2003 may be significantly different from those included in the final settlement.

The HHSC is comprised of the following state hospitals:

Hale Ho'ola Hamakua fka Honokaa Hospital  
Hilo Medical Center  
Ka'u Hospital  
Kauai Veterans Memorial Hospital  
Kohala Hospital  
Kona Community Hospital

Kula Hospital  
Lanai Community Hospital  
Leahi Hospital  
Samuel Mahelona Memorial Hospital  
Maluhia (A Long-Term Care Health Center)  
Maui Memorial Medical Center

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### Hawaii Hurricane Relief Fund

The Hawaii Hurricane Relief Fund (HHRF) was organized pursuant to, and operates in accordance with, HRS Chapter 431P. The HHRF, which began its operations on July 1, 1993, was established as a public body and a body corporate and politic to be placed within the Department of Commerce and Consumer Affairs for administrative purposes. The HHRF was primarily organized to provide hurricane property insurance policies in Hawaii in the event the private insurance market does not make such policies readily available to consumers in Hawaii.

Due to the increase in the availability of hurricane property insurance coverage from the private sector, the HHRF ceased writing hurricane property insurance policies effective December 1, 2000.

In conjunction with the HHRF's cessation of providing hurricane property insurance coverage, servicing carriers are exempted from the 3.75% assessment of their gross direct written premiums for property and casualty insurance in Hawaii, once they begin to offer their own policies. All remaining carriers are exempted effective September 30, 2001. Further, the collection of the special mortgage recording fees from mortgagors has also been suspended as of July 1, 2001.

Although the HHRF no longer functions in its capacity to provide hurricane property insurance coverage subsequent to November 2001, it has been determined at this time that the HHRF should not be dissolved in the event it may need to re-enter the insurance market.

The HHRF is administered and operated by a Board of Directors. The Board consists of the following seven members:

- The Insurance Commissioner, as an Ex Officio voting member, appointed by the Governor; and
- Six members appointed by the Governor with the advice and consent of the Senate:
  - Two members appointed by the Governor;
  - Two members appointed by the Governor from a list of nominations submitted by the President of the Senate; and
  - Two members appointed by the Governor from a list of nominations submitted by the Speaker of the House of Representatives.

Information for obtaining financial statements for the discretely presented Component Units may be obtained from the Department of Accounting and General Services.

The Employees' Retirement System of the State of Hawaii (ERS), which is administered on behalf of public employees for both the state and county governments, and the Office of Hawaiian Affairs (OHA), which exists for the betterment of the conditions of native Hawaiians, are excluded from the State's reporting entity because those agencies, based on the fiscal independence and/or separate legal entity status criteria of GASB Statement No. 14, are not accountable to the State.

Notes to Basic Financial Statements

June 30, 2003

---

**B. Government-Wide and Fund Financial Statements**

The government-wide financial statements (the statement of net assets and the statement of activities) report information of all of the nonfiduciary activities of the Primary Government and its Component Units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the Primary Government is reported separately from the legally separate Component Units for which the Primary Government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use, or directly benefit from goods or services provided by a given function, segment, or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as program revenues. The State does not allocate general government (indirect) expenses to other functions.

Net assets are restricted when constraints placed on them are either externally imposed or are imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net assets. When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for Governmental Funds, Proprietary Funds, Fiduciary Funds, and major Component Units. However, the Fiduciary Funds are not included in the government-wide financial statements. Major individual Governmental Funds and major individual Proprietary Funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation**

**Government-Wide Financial Statements** – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

**Governmental Fund Financial Statements** – The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the State considers revenues other than federal grants and assistance awards to be available if they are collected within 60 days of the end of the current fiscal year. Revenues susceptible to accrual include taxpayer-assessed tax

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

revenues. Taxpayer-assessed tax revenues primarily consist of income and general excise taxes. Other revenues which are not considered susceptible to accrual, and therefore, are not accrued include fines, forfeitures and penalties, licenses, permits, and franchises.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as revenue when available and entitlement occurs which is generally within 12 months of the end of the current fiscal year. All other federal reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures or expenses are incurred and funds are available.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Encumbrances are recorded obligations in the form of purchase orders or contracts. The State records encumbrances at the time purchase orders or contracts are awarded and executed. Encumbrances outstanding at fiscal year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

**Proprietary Funds, Fiduciary Funds, and Component Units Financial Statements** – The financial statements of the Proprietary Funds, Fiduciary Funds, and Component Units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described above.

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the State has elected not to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB.

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### **D. Fund Accounting**

The financial activities of the State are recorded in individual funds, each of which is deemed to be a separate accounting entity. The State uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

The financial activities of the State that are reported in the accompanying fund financial statements have been classified into the following major and nonmajor Governmental and Proprietary Funds. In addition, a description of the Fiduciary Funds and Component Units are as follows:

### ***Governmental Fund Types***

The State reports the following major Governmental Funds:

#### **General Fund**

This fund is the State's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

#### **Capital Projects Fund**

This fund accounts for substantially all of the financial resources obtained and used for the acquisition or construction of the State's capital assets and facilities. Such resources are derived principally from proceeds of general obligation bond issues, federal grants, and transfers from the Special Revenue Funds.

The nonmajor Governmental Funds are comprised of the following:

#### **Special Revenue Funds**

These funds account for the financial resources obtained from specific revenue sources and used for restricted purposes.

#### **Debt Service Fund**

This fund accounts for the financial resources obtained and used for the payment of principal and interest on general long-term bond obligations.

### ***Proprietary Fund Type – Enterprise Funds***

The major Enterprise Funds are comprised of the following:

#### **Department of Transportation – Airports Division (Airports)**

Airports operates the State's airports and air navigation facilities and is responsible for general supervision of aeronautics within the State.

#### **Department of Transportation – Harbors Division (Harbors)**

Harbors maintains and operates the State's commercial harbors system.

#### **Unemployment Compensation Fund**

This fund accounts for the unemployment compensation benefits to qualified recipients.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

The nonmajor Enterprise Fund is comprised of the Health Fund. This fund accounts for the Hawaii Public Employees Health Fund, which includes medical, dental, and life insurance coverage.

### *Fiduciary Fund Types*

#### **Private-Purpose Trust Fund**

Act 14, Special SLH of 1995, was approved by the Governor on June 29, 1995 and obligates the State to make 20 annual deposits of \$30,000,000, or their discounted value equivalent, into the Hawaiian Home Lands Trust Fund beginning in the fiscal year ended June 30, 1996. The primary purpose of Act 14 is to resolve controversies and claims related to the Hawaiian Home Lands trust which arose between August 31, 1959 and July 1, 1988. Act 14 also established in the State Treasury a trust fund known as the Hawaiian Home Lands Trust Fund.

#### **Agency Funds**

These funds account for assets held by the State in an agency capacity.

### *Component Units*

Component Units are comprised of (1) the UH, which is comprised of the State's public institutions of higher education; (2) the HCDCH which provides dwelling units for low and moderate income residents of the State; (3) the HHSC which was established to provide quality health care for all of the people of the State; and (4) the HHRF which funds, assesses, and provides, when necessary, hurricane property insurance to residents of the State.

### **E. Cash and Short-Term Investments**

Cash and short-term investments include all cash, repurchase agreements, and U.S. government securities with original maturities of three months or less, and all time certificates of deposit.

For purposes of the statement of cash flows, the State has defined cash equivalents to be all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased.

### **F. Receivables and Payables**

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as interfund receivables/interfund payables. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable Governmental Funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All tax and other receivables are shown net of an allowance for uncollectible accounts and estimated refunds due.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

### **G. Investments**

Investments in U.S. government securities, corporate debt, and equity securities are carried at fair value. Investments in time certificates of deposit and repurchase agreements are carried at cost.

### **H. Inventories**

Inventories of developments in progress and units available for sale are stated at the lower of cost or estimated net realizable value, with cost being determined by the specific-identification method. All estimated carrying costs to the anticipated date of disposition are considered in the determination of estimated net realizable value. Units available for sale include constructed units, developed lots, and repurchased units available for sale. Developments in progress include construction in progress and land held for future development.

Materials and supplies inventories are stated at the lower of cost or market, with cost being determined principally using the first-in, first-out method.

Inventories in the Governmental Funds are recorded as expenditures when consumed rather than when purchased.

### **I. Restricted Assets**

Revenue bond indentures authorize the State's trustees to invest monies in time certificates of deposit, money market funds, and investment securities, including U.S. government or agency obligations, certain municipal bonds, and repurchase agreements. Uninsured time certificates of deposit are required to be collateralized by investment securities of an equal or greater market value. The underlying securities for repurchase agreements are required to be U.S. government or agency obligations of an equal or greater market value held by the State's agent in the State's name.

### **J. Capital Assets**

Capital assets, which include land and land improvements, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), buildings, improvements, and equipment, are reported in the applicable governmental and business-type activities columns, as well as the Component Units column, in the government-wide financial statements. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair market value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed to the extent the State's capitalization thresholds are met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

The State's capitalization thresholds are \$5,000 for equipment, and \$100,000 for land and land improvements, infrastructure, and buildings and improvements. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation, as applicable, are removed from the respective accounts and any resulting gain or loss is recognized in the statement of activities.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

Capital assets of the Primary Government, as well as the Component Units, are depreciated or amortized using the straight-line method over the following estimated useful lives:

Infrastructure	12 to 50 years
Buildings and improvements	15 to 30 years
Equipment	5 to 7 years

Works of art and historical treasures held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are not capitalized. These items are protected, kept encumbered, conserved, and preserved by the State. It is the State's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

### **K. Compensated Absences**

It is the State's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since sick leave is not convertible to pay upon termination of employment. All vacation pay is accrued when incurred in the government-wide, Proprietary Fund, and Component Unit financial statements. A liability for these amounts is reported in the Governmental Funds only if they have matured, for example, as a result of employee resignations and retirements.

### **L. Long-Term Obligations**

In the government-wide financial statements, and Proprietary Fund Types in the fund financial statements, as well as in the Component Unit financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, Proprietary Fund Type, or Component Unit statement of net assets. Initial-issue bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective-interest method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the life of the refunding debt or the remaining life of the refunded debt. Bonds payable are reported net of the unamortized portion of applicable premium, discount, or deferred amount on refunding. Bond issuance costs, including underwriters' discount, are reported as deferred bond issuance costs. Amortization of bond premiums or discounts, issuance costs, and deferred amounts on refunding is included in interest expense.

In the fund financial statements, Governmental Funds recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

### **M. Net Assets and Fund Equity**

In the government-wide financial statements and Proprietary Fund and Component Unit financial statements, net assets are reported in three categories: net assets invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. Restricted net assets represent net assets restricted by parties outside of the State (such as creditors, grantors, and contributors), or imposed by law through enabling legislation, and include unspent proceeds of bonds issued to acquire or construct capital assets.

In the fund financial statements, Governmental Funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Portions of fund balances are reserved in the fund financial statements for the following:

- Continuing appropriations which are comprised of encumbrances and unencumbered allotment balances. Encumbrances represent outstanding commitments which generally are liquidated in the subsequent fiscal year. Unencumbered allotment balances represent amounts that have been released and made available for encumbrance or expenditure and are legally segregated for a specific future use.
- Notes and loans receivable, advances, and investments which are not currently available for expenditure at the Governmental Funds' balance sheet date.
- Federal aid highway projects encumbrances.
- Private-Purpose Trust Fund balances which are restricted to the purpose of the accounts.

Portions of the unreserved fund balances are designated for future capital and operating expenditures. Those designated fund balances represent appropriations which have not been allotted and are established to reflect tentative plans for the future use of financial resources.

### **N. Nonexchange Transactions**

In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, which establishes accounting and financial reporting standards for nonexchange transactions involving financial or capital resources, the Enterprise Funds and Component Units recognize contributed capital as nonoperating revenues.

### **O. Medicare and Medicaid Reimbursements**

Revenues from services reimbursed under Medicare and Medicaid programs are recorded at the estimated reimbursable amounts. Final determination of the amounts earned is subject to review by the fiscal intermediary or a peer review organization. The State has the opinion that adequate provision has been made for any adjustments that may result from such reviews.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

### **P. Risk Management**

The State is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; and workers' compensation. The State generally retains the first \$250,000 per occurrence of property losses and the first \$3 million with respect to general liability claims. Losses in excess of those retention amounts are insured with commercial insurance carriers. The limit per occurrence for property losses is \$25 million (including named hurricane, earthquake and flood subject to exclusions) and the annual aggregate for general liability losses per occurrence is \$7 million. The State also has an insurance policy to cover medical malpractice risk in the amount of \$20 million per occurrence with no annual aggregate limit. The State is generally self-insured for workers' compensation and automobile claims.

The estimated reserve for losses and loss adjustment costs includes the accumulation of estimates for losses and claims reported prior to fiscal year-end, estimates (based on projections of historical developments) of claims incurred but not reported, and estimates of costs for investigating and adjusting all incurred and unadjusted claims. Amounts reported are subject to the impact of future changes in economic and social conditions. The State believes that, given the inherent variability in any such estimates, the reserves are within a reasonable and acceptable range of adequacy. Reserves are continually monitored and reviewed, and as settlements are made and reserves adjusted, the differences are reported in current operations. A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the basic financial statements and the amount of the loss is reasonably estimable.

### **Q. Deferred Compensation Plan**

The State offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all state employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All plan assets are held in a trust fund to protect them from claims of general creditors. The State has no responsibility for loss due to the investment or failure of investment of funds and assets in the plan, but does have the duty of due care that would be required of an ordinary prudent investor. Accordingly, the assets and liabilities of the State's deferred compensation plan are not reported in the accompanying basic financial statements.

### **R. Estimates**

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

June 30, 2003

---

**(2) BUDGETING AND BUDGETARY CONTROL**

The budget of the State is a detailed operating plan identifying estimated costs and results in relation to estimated revenues. The budget includes (1) the programs, services, and activities to be provided during the fiscal year; (2) the estimated revenues available to finance the operating plan; and (3) the estimated spending requirements of the operating plan. The budget represents a process through which policy decisions are made, implemented, and controlled. Revenue estimates are provided to the State Legislature at the time of budget consideration and are revised and updated periodically during the fiscal year. Amounts reflected as budgeted revenues in the statement of revenues, expenditures, and changes in fund balance – budget and actual (budgetary basis) – general fund are those estimates as compiled by the Council on Revenues and the Director of Finance. Budgeted expenditures are derived primarily from the General Appropriations Act of 2001 (Act 259, SLH of 2001), as amended by the Supplemental Appropriations Act of 2002 (Act 177, SLH of 2002), and from other authorizations contained in the State Constitution, the HRS, and other specific appropriations acts in various SLH.

All expenditures of appropriated funds have been made pursuant to the appropriations in the fiscal 2001-2003 biennial budget.

The General Fund and Special Revenue Funds have legally appropriated annual budgets. The Capital Projects Fund's appropriated budgets are for projects that may extend over several fiscal years.

The final legally adopted budget in the accompanying statement of revenues, expenditures, and changes in fund balance – budget and actual (budgetary basis) – general fund represents the original appropriations, transfers, and other legally authorized legislative and executive changes.

The legal level of budgetary control is maintained at the appropriation line item level by department, program, and source of funds as established in the appropriations acts. The Governor is authorized to transfer appropriations between programs within the same department and source of funds; however, transfers of appropriations between departments generally require legislative authorization. Records and reports reflecting the detail level of control are maintained by and are available at the Department of Accounting and General Services. During the fiscal year ended June 30, 2003, there were no expenditures in excess of appropriations in the individual funds.

To the extent not expended or encumbered, the General Fund's appropriations generally lapse at the end of the fiscal year for which the appropriations are made. The State Legislature specifies the lapse dates and any other contingencies which may terminate the authorizations for other appropriations.

Budgets adopted by the State Legislature for the General Fund are presented in the statement of revenues, expenditures, and changes in fund balance – budget and actual (budgetary basis) – general fund. The State's annual budget is prepared on the modified accrual basis of accounting with several differences, principally related to (1) the encumbrance of purchase order and contract obligations and equipment acquired through long-term financing (basis difference) and (2) the accounting for transfers of debt service payments through the General Fund (perspective difference), which represent departures from GAAP.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

A reconciliation of the budgetary to GAAP basis operating results for the fiscal year ended June 30, 2003 follows (amounts expressed in thousands):

	<u>General Fund</u>
Deficiency of revenues and other sources over expenditures and other uses – actual (budgetary basis)	\$ (14,247)
Reserve for encumbrances at fiscal year-end*	155,918
Expenditures for liquidation of prior fiscal year encumbrances	(222,782)
Revenues and expenditures for unbudgeted programs and capital projects accounts, net	(27)
Tax refunds payable	1,300
Accrued liabilities	13,837
Accrued revenues	(9,900)
Net change in fund balance – GAAP basis	<u>\$ (75,901)</u>

\* Amount reflects the encumbrance balances (included in continuing appropriations) for budgeted programs only.

### (3) CASH AND INVESTMENTS

The Director of Finance is responsible for the safekeeping of all monies paid into the State Treasury. The Director of Finance pools and invests any monies of the State which in the Director's judgment are in excess of the amounts necessary for meeting the specific requirements of the State. Investment earnings are allocated to the Primary Government based on its equity interest in the pooled monies. Legally authorized investments include obligations of or guaranteed by the U.S. government, obligations of the State, federally-insured savings and checking accounts, time certificates of deposit and repurchase agreements with federally-insured financial institutions.

#### A. Cash

The State maintains approximately 20 bank accounts for various purposes at locations throughout the State and the nation. Bank deposits are under the custody of the Director of Finance. For financial statement reporting purposes, cash and short-term investments consist of cash, time certificates of deposit, and money market accounts. Cash and short-term investments also include repurchase agreements and U.S. government securities with original maturities of three months or less.

For demand or checking accounts and time certificates of deposit, the State requires that the depository banks pledge collateral based on the daily available bank balances. The use of daily available bank balances to determine collateral requirements results in the available balances being under-collateralized at various times during the fiscal year. All securities pledged as collateral are held either by the State Treasury or by the State's fiscal agents in the name of the State.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

The carrying amount of the State's deposits (cash, time certificates of deposit, and money market accounts) as of June 30, 2003 was \$1,406,122,000 for the Primary Government and \$43,306,000 for the Fiduciary Funds. The difference between deposits and cash and short-term investments as reflected in the basic financial statements for the Primary Government relate to repurchase agreements and U.S. government securities with original maturities of three months or less amounting to \$32,835,000.

Information relating to the bank balance, insurance, and collateral of cash deposits is determined on a statewide basis and not for individual departments or divisions. Total bank balances of deposits amounted to \$1,633,055,229 at June 30, 2003. The portion of such bank balances covered by federal deposit insurance or by collateral held either by the State Treasury or by the State's fiscal agents in the name of the State totaled \$1,307,603,006. The remaining bank balances of \$325,452,223 represent deposits with the U.S. Department of the Treasury for the State's Unemployment Trust Fund, which were uncollateralized and the Special Revenue Funds' and Enterprise Funds' cash in bank which was uninsured and uncollateralized. The Special Revenue Funds' and Enterprise Funds' cash balances were held by fiscal agents in the State's name for the purpose of satisfying outstanding bond obligations.

### **B. Investments**

The State holds investments both for its own benefit and as an agent for other parties. The State's investment of funds not required for immediate payments are predominantly comprised of U.S. government securities.

The following tables present the State's investments at June 30, 2003 (amounts expressed in thousands), and provide information about the custodial credit risks associated with the State's investments. The three categories of custodial credit risk are:

- Category 1: Investments which are insured or registered, or securities held by the State or its agent in the State's name.
- Category 2: Investments which are uninsured and unregistered, with securities held by the counterparty's trust department or agent in the State's name.

# STATE OF HAWAII

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### (5) GENERAL OBLIGATION BONDS PAYABLE

The State issues general obligation bonds primarily to provide for the acquisition and construction of major capital facilities. Although certain general obligation debt is being retired from the resources of the Proprietary Funds and Component Unit – UH and is recorded in those funds, all general obligation bonds are backed solely by the full faith and credit of the State.

All issues except Series BL, issued December 6, 1998; certain maturities of Series BQ, issued November 28, 1989; Series BW, issued March 1, 1992; Series BZ, issued October 1, 1992; Series CA and CB, issued January 1, 1993; Series CH and CI, issued November 1, 1993; Series CM, issued December 1, 1996; Series CO, issued March 1, 1997; Series CQ, issued October 1, 1997; and Series CS, issued April 1, 1998, contain call provisions (call prices range from \$100 to \$103). Stated interest rates range from 2.65% to 8.00%.

In November 2002, the State issued \$300,000,000 of general obligation bonds, Series CZ, dated November 26, 2002, with interest rates ranging from 2.65% to 5.50%. Bonds maturing on and after July 1, 2013 are subject to redemption at the option of the State at any time after July 1, 2012 at 100% of the principal amount to be redeemed plus accrued interest to the redemption date. The bonds were issued for the purpose of financing public improvement projects.

At June 30, 2003, the general obligation bonds consisted of the following (amounts expressed in thousands):

Callable		\$	2,470,920
Noncallable			<u>1,177,448</u>
Total general obligation bonds outstanding			3,648,368

## Notes to Basic Financial Statements

June 30, 2003

A summary of debt service requirements to maturity follows (amounts expressed in thousands):

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal year:			
2004	\$ 178,029	\$ 191,409	\$ 369,438
2005	189,040	180,780	369,820
2006	268,089	189,030	457,119
2007	315,830	177,166	492,996
2008	331,875	163,313	495,188
2009 – 2013	1,314,904	499,005	1,813,909
2014 – 2018	750,470	173,764	924,234
2019 – 2023	300,131	37,484	337,615
	<u>\$ 3,648,368</u>	<u>\$ 1,611,951</u>	<u>\$ 5,260,319</u>

In prior fiscal years, the State defeased general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the refunded bonds. Accordingly, the trust accounts and the refunded bonds are not included in the State's basic financial statements. At June 30, 2003, \$639,054,637 of bonds outstanding is considered defeased.

The State Constitution limits the amount of general obligation bonds which may be issued. As required by law, the Director of Finance has confirmed that the State was within its legal debt limit on the aforementioned issues. The legal debt margin at June 30, 2003 was \$136,344,000.

At June 30, 2003, general obligation bonds authorized but unissued was approximately \$844,094,000.

### (6) REVENUE BONDS PAYABLE

#### A. Governmental Activities

On March 25, 2003, the State issued \$44,940,000 in Highway Revenue Bonds with an average interest rate of 4.33% to advance refund \$45,350,000 of outstanding State of Hawaii Highway Revenue Bonds, Series of 1993, with an average interest rate of 4.42%. The net proceeds of \$47,791,108 (after payment of \$522,231 in underwriting fees, insurance, and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series of 1993 bonds. As a result, the Series of 1993 bonds are considered to be defeased and the liability for those bonds has been removed from the government-wide financial statements.

The State advance refunded the Series of 1993 bonds to reduce its total debt service payments over the next 11 years by \$2,609,892 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$2,222,358.

On October 25, 2001, the Department of Transportation – Highways Division (Highways) issued \$70,000,000 of State of Hawaii Highway Revenue Bonds, Series of 2001. The bonds bear interest at rates ranging from 3.75% to 5.375% and are payable semi-annually on January 1 and July 1 through July 2022.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

On October 31, 2000, Highways issued State of Hawaii Highway Revenue Bonds, Series of 2000, in the principal amount of \$45,360,000. The bonds bear interest at rates ranging from 4.40% to 5.50% and mature in annual installments through fiscal 2021.

The bonds are payable solely from and collateralized by the revenues consisting primarily of highway fuel taxes, vehicle registration fees, vehicle weight taxes, and rental motor vehicle and tour vehicle surcharge taxes.

On January 15, 1999, the Department of Hawaiian Home Lands (DHHL) issued revenue bonds, Refunding Series of 1999, in the principal amount of \$13,370,000. Bond proceeds related to this issue amounted to \$13,334,000. The difference in the principal amount and proceeds relates to bond discount and accrued interest. The bonds bear interest at rates ranging from 3.80% to 4.45% and mature in increasing annual installments through fiscal 2012. The proceeds from the bonds were used to advance refund certain maturities of the Series of 1991 bonds. The bonds are payable from and secured by the DHHL's revenues from available lands.

On July 1, 1998, Highways issued State of Hawaii Highway Revenue Bonds, Series of 1998, in the principal amount of \$94,920,000. Bond proceeds related to this issue amounted to \$97,542,000, of which \$71,921,000 is to be used to finance certain highway improvements and other related projects for the state highways system, and \$25,621,000 was used to refund certain outstanding State of Hawaii Highway Revenue Bonds. The difference in the principal amount and proceeds relates to bond premium and accrued interest. The bonds bear interest at rates ranging from 4.00% to 5.50% and mature in annual installments through fiscal 2019.

On September 1, 1996, Highways issued \$55,000,000 in State of Hawaii Highway Revenue Bonds, Series of 1996. The bonds bear interest at rates ranging from 3.80% to 6.00% and mature in increasing annual installments through fiscal 2014.

On September 1, 1993, Highways issued \$75,000,000 in State of Hawaii Highway Revenue Bonds, Series of 1993. The bonds bear interest at rates ranging from 2.60% to 5.00% and mature in increasing annual installments through fiscal 2013.

The proceeds of the DHHL's revenue bonds, Refunding Series of 1999, and a portion of the proceeds of the State of Hawaii Highway Revenue Bonds, Series of 1998 (see above), were placed in irrevocable trusts and used to purchase securities of the U.S. government to meet the debt service requirements of the refunded bonds.

The liabilities for the refunded bond issues and the related securities and trust accounts are not included in the accompanying basic financial statements as the DHHL and Highways defeased its obligations for payment of those bonds upon completion of those refunding transactions. As of June 30, 2003, \$45,350,000 of bonds outstanding is considered defeased.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

The following is a summary of Highways' and DHHL's revenue bonds issued and outstanding at June 30, 2003 (amounts expressed in thousands):

Series	Date of Issue	Interest Rates	Maturity Dates	Outstanding Amount
Highways:				
1996	September 1, 1996	3.800% – 6.000%	July 1, 2007 – July 1, 2013	\$ 34,635
1998	July 1, 1998	4.000% – 5.500%	July 1, 2003 – July 1, 2018	79,315
2000	October 31, 2000	4.400% – 5.500%	July 1, 2003 – July 1, 2020	47,325
2001	October 25, 2001	3.750% – 5.375%	July 1, 2003 – July 1, 2022	70,000
2003	March 25, 2003	2.000% – 5.250%	July 1, 2004 – July 1, 2013	44,940
DHHL:				
1999	January 15, 1999	3.800% – 4.450%	July 1, 2003 – July 1, 2011	12,255
				<u>\$ 288,470</u>

Debt service requirements to maturity on the DHHL's and Highways' revenue bonds are aggregated below (amounts expressed in thousands):

	Principal	Interest	Total
Fiscal year:			
2004	\$ 11,790	\$ 13,381	\$ 25,171
2005	12,585	13,382	25,967
2006	13,050	12,886	25,936
2007	13,535	12,356	25,891
2008	14,120	11,782	25,902
2009 – 2013	79,180	48,255	127,435
2014 – 2018	94,495	26,530	121,025
2019 – 2023	49,715	4,652	54,367
	<u>\$ 288,470</u>	<u>\$ 143,224</u>	<u>\$ 431,694</u>

### B. Business-Type Activities

Revenue bonds are backed by a pledge of resources derived from users of the related facilities and are not supported by the full faith and credit of the State.

#### *Airports System Revenue Bonds*

The Airports system revenue bonds are payable solely from and collateralized by airport revenues, which include all aviation fuel taxes levied. The Airports system revenue bonds are subject to redemption at the option of the Department of Transportation (DOT) and the State during specific years at prices ranging from \$102 to \$100.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

The following is a summary of Airports system revenue bonds issued and outstanding at June 30, 2003 (amounts expressed in thousands):

Series	Interest Rates	Final Maturity Date (July 1)	Original Amount of Issue	Outstanding Amount
1993, refunding	4.00% - 6.45%	2013	\$ 131,035	\$ 89,900
1994, first refunding	4.15% - 5.60%	2004	63,455	20,725
2000A, refunding	5.50% - 6.00%	2021	26,415	26,415
2000B, refunding	5.00% - 8.00%	2020	261,465	249,275
2001, refunding	4.00% - 5.75%	2021	423,255	423,255
			<u>\$ 905,625</u>	<u>809,570</u>
Add unamortized premium				16,223
Less:				
Unamortized discount				(1,226)
Deferred loss on refunding				(19,992)
Current portion				<u>(19,550)</u>
Noncurrent portion				<u>\$ 785,025</u>

The certificate providing for the issuance of revenue bonds provides for the levying and collection of minimum net revenues to service and provide reserves for maturing debt principal, interest, sinking fund, and replacement and maintenance reserve requirements, and also provides for the maintenance of certain insurance coverages for fire, workers' compensation, and public liability. At June 30, 2003, \$191,048,000 was on credit in the revenue bond debt service sinking fund and reserve accounts.

### *Airports Special Facility Revenue Bonds*

Airports has four special facility lease agreements with Western Airlines, Inc. in 1975 (merged with Delta Airlines, Inc. in 1987), with Continental Airlines, Inc. in July 1990 and November 1997, and with Caterair International Corporation in December 1990. The construction of the related facilities was financed by special facility revenue bonds issued by Airports in the amounts of \$2,300,000, \$16,600,000, \$25,255,000, and \$6,600,000, respectively. Those bonds are payable solely from and collateralized solely by certain rentals and other monies derived from the special facilities and aggregated to \$40,845,000 at June 30, 2003.

The following is a summary of pertinent information on Airports special facility revenue bonds at June 30, 2003:

#### **\$2,300,000 Issue**

The bonds have a stated maturity date of June 1, 2005 and bear interest at 6.50% per annum. The bonds are subject to early redemption at the option of Airports, at \$100.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

### **\$16,600,000 Issue**

On July 15, 2000, Airports issued \$16,600,000 of term special facility bonds (Continental Airlines, Inc.), Refunding Series of 2000, with an interest rate of 7.00%, due June 1, 2020, to, in part, refund \$18,225,000 of its outstanding Series of 1990 bonds (Continental Airlines, Inc.), with interest rates ranging from 9.60% to 9.70%. The bonds are subject to redemption on or after June 1, 2010, at the option of Airports, upon the request of Continental Airlines, Inc. or, if the facilities are destroyed or damaged extensively, at 100% of principal plus interest.

### **\$25,255,000 Issue**

The bonds bear interest at 5.625% and are subject to redemption on or after November 15, 2007, at the option of Airports, upon the request of Continental Airlines, Inc., at prices ranging from \$101 to \$100, depending on the dates of redemption, or at \$100 plus interest if the facilities are destroyed or damaged extensively.

Interest only payments are due semiannually on May 15 and November 15 of each year until the bonds mature on November 15, 2027, at which time the entire principal amount is due.

### **\$6,600,000 Issue**

The bonds bear interest at 10.125% and are subject to redemption on or after December 1, 2000, at the option of Airports, upon the request of Caterair International Corporation, at prices ranging from \$103 to \$100, depending on the dates of redemption, or at \$100 plus interest if the facilities are destroyed or damaged extensively.

The special facility leases are accounted for and recorded as direct financing leases. The remaining lease payments to be paid by the lessees (including debt service requirements on the special facility revenue bonds) are recorded as a restricted asset and the special facility revenue bonds outstanding are recorded as a liability.

### ***Harbors Revenue Bonds***

The Harbors revenue bonds are collateralized by a charge and lien on the gross revenues of the commercial harbors system and upon all improvements and betterments thereto and all funds and securities created in whole or in part from revenues or from the proceeds of any bonds issued. The Harbors revenue bonds are subject to redemption at the option of the DOT and the State during specific years at prices ranging from \$102.50 to \$100.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

The following is a summary of the Harbors revenue bonds as of June 30, 2003 (amounts expressed in thousands):

Year of Issue	Final Redemption Date	Interest Rates	Original Amount of Issue	Principal Due July 1, 2003	Current		Noncurrent
					Installment Payments Due in Anticipation of Principal Payments on July 1, 2004

### Harbors Special Facility Revenue Bonds

In 1980, the State Legislature authorized the issuance of special facility revenue bonds for the construction, acquisition, remodeling, furnishing, and equipping of state-owned special facilities for lease to parties engaged in maritime operations.

Pursuant to this authorization, \$15,700,000 of 8-1/2% special facility revenue bond anticipation notes were issued in 1981 to finance the construction of container terminal facilities on Sand Island for the exclusive use of Matson Terminals, Inc. In 1983, special facility revenue bonds of \$16,750,000 were issued to refund the notes and to provide additional funds for construction. On April 15, 1993, special facility revenue bonds of \$16,500,000 were issued to refund the outstanding Series of 1983 bonds. The bonds, which bear interest at 5.75% per annum, mature on March 1, 2013, subject to optional redemption on or after March 1, 2003, at prices ranging from \$102 to \$100. Payment of the principal and interest on the bonds has been guaranteed by Matson Navigation Company, Inc., parent company of the lessee.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

Debt service requirements to maturity on the business-type activities revenue bonds for fiscal years ending June 30 are aggregated below (amounts expressed in thousands):

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal year:			
2004	\$ 29,790	\$ 61,825	\$ 91,615
2005	45,460	60,122	105,582
2006	51,835	57,480	109,315

	<u>\$ 1,048,905</u>	<u>\$ 686,626</u>	<u>\$ 1,735,531</u>

### C. Revenue Bonds Authorized But Unissued

At June 30, 2003, revenue bonds authorized but unissued was approximately \$2,875,721,000.

### D. Special Purpose Revenue Bonds

HRS Chapter 39A authorizes the State (with legislative approval) to issue special purpose revenue bonds. Proceeds from those bonds are loaned to certain enterprises for projects deemed to be in the public interest. The bonds are not general obligations of the State and are payable solely from monies received by the State under project agreements with the recipients of the bond proceeds. Accordingly, the State has not included those bonds in its basic financial statements. Bonds outstanding at June 30, 2003 amounted to \$1,414,720,500. At June 30, 2003, special purpose revenue bonds of \$864,000,000 were authorized but unissued.

### E. Improvement District Bonds

The Hawaii Community Development Authority is authorized to issue improvement district bonds under HRS Chapter 206E. Proceeds from the bond issues are utilized to finance the redevelopment of districts designated by the State Legislature. The bonds are not general obligations of the State and are payable solely by assessment liens on the real property of the designated district. Accordingly, the State has not included those bonds in its basic financial statements. Bonds outstanding as of June 30, 2003 amounted to \$4,170,000.

## STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

**(8) INTERFUND RECEIVABLES AND PAYABLES**

Interfund receivables and payables consisted of the following at June 30, 2003 (amounts expressed in thousands):

	<u>Due From</u>	<u>Due To</u>
<b>Governmental Funds:</b>		
General Fund:		
Capital Projects Fund	\$ 89,900	\$ —
Nonmajor Governmental Funds	23,700	148
UH	6,000	5,769
HHSC	14,000	—
	<u>133,600</u>	<u>5,917</u>
Capital Projects Fund:		
General Fund	—	89,900
Harbors	1,262	—
	<u>1,262</u>	<u>89,900</u>
Nonmajor Governmental Funds:		
General Fund	148	23,700
<b>Proprietary Funds:</b>		
Harbors:

## Notes to Basic Financial Statements

June 30, 2003

### (9) TRANSFERS

Transfers between funds occur when a fund receiving revenues transfers resources to a fund where the resources are to be expended or when nonrecurring or nonroutine transfers of equity between funds occur. For the fiscal year ended June 30, 2003, transfers by fund were as follows (amounts expressed in thousands):

	<u>Transfers In</u>	<u>Transfers Out</u>
<b>Governmental Funds:</b>		
General Fund:		
Nonmajor Governmental Funds	\$ 149,485	\$ 348,418
Nonmajor Proprietary Fund	—	687
	<u>149,485</u>	<u>349,105</u>
Capital Projects Fund:		
Nonmajor Governmental Funds	69,009	5,800
Fiduciary Funds	—	30,000
	<u>69,009</u>	<u>35,800</u>
Nonmajor Governmental Funds:		
General Fund	348,418	149,485
Capital Projects Fund	5,800	69,009
Fiduciary Funds	170	—
	<u>354,388</u>	<u>218,494</u>
<b>Proprietary Funds:</b>		
Nonmajor Proprietary Fund:		
General Fund	687	—
<b>Fiduciary Funds:</b>		
Private-Purpose Trust Fund:		
Capital Projects Fund	30,000	—
Agency Funds – Custodial:		
Nonmajor Governmental Funds	—	170
	<u>30,000</u>	<u>170</u>
	<u>\$ 603,569</u>	<u>\$ 603,569</u>

The General Fund transferred approximately \$327,300,000 to the Nonmajor Governmental Funds for debt service payments and approximately \$21,100,000 to subsidize various Special Revenue Fund programs. Approximately \$69,000,000 of Highways receipts were transferred from the Nonmajor Governmental Funds to the Capital Projects Fund to finance capital projects. The Capital Projects Fund transferred \$30,000,000 to the Fiduciary Funds to satisfy the obligation established by Act 14, SLH of 1995.

# STATE OF HAWAII

### (10) LEASES

#### A. Lease Commitments

##### *Governmental Activities*

The State leases office facilities and equipment under various operating leases expiring through fiscal 2022. Future minimum lease commitments for noncancelable operating leases as of June 30, 2003 were as follows (amounts expressed in thousands):

Fiscal year:	
2004	\$ 6,566
2005	5,869
2006	4,686
2007	2,993
2008	1,558
2009 – 2013	4,087
2014 – 2018	3,897
2019 – 2023	3,273
2024 – 2028	188
Total future minimum lease payments	<u>\$ 33,117</u>

Rent expenditures for operating leases for the fiscal year ended June 30, 2003 amounted to approximately \$46,000,000.

In November 1998, the State issued \$54,850,000 in Certificates of Participation (COPS) to purchase the Kapolei State Office Building (Kapolei Building). The proceeds of the COPS were remitted to the Kapolei Building's developer. The holders of the COPS are the current owners of the Kapolei Building. Accordingly, the State's rental payments for the use of the Kapolei Building are paid to a trustee, who then remits those amounts to the holders of the COPS. Payments commenced on May 1, 1999 and continue through May 1, 2018, with interest rates ranging from 3.10% to 5.25%. Title to the Kapolei Building will transfer to the State upon the payment of all required rents.

In December 2000, the State issued \$23,140,000 in COPS to purchase the No. 1 Capitol District State Office Building (Capitol District Building). The proceeds of the COPS were remitted to the former owners of the Capitol District Building. Accordingly, the State's rental payments for the use of the Capitol District Building are paid to a trustee, who then remits those amounts to the holders of the COPS. Payments commenced on May 1, 2002 and continue through May 1, 2020, with interest rates ranging from 4.50% to 5.375%. Title to the Capitol District Building will transfer to the State upon the payment of all required rents.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

Future minimum lease payments for these capital leases are as follows (amounts expressed in thousands):

Fiscal year:	
2004	\$ 6,354
2005	6,351
2006	6,357
2007	6,352
2008	6,347
2009 – 2013	31,755
2014 – 2018	31,762
2019 – 2023	3,894
Total future minimum lease payments	99,172
Less amount representing interest	(31,667)
Present value of net minimum lease payments	\$ 67,505

### B. Lease Rentals

#### *Airports – Airport-Airline Lease Agreement*

Airports had an airport-airline lease agreement with certain major airline carriers (signatory airlines) which expired on July 31, 1992. The expired lease agreement provided the lessees with the nonexclusive right to use the Airports system facilities, equipment, improvements, and services, in addition to occupying certain premises and facilities. From August 1, 1992 through June 30, 1993, the signatory airlines continued operations under monthly negotiated agreements with the DOT.

In January 1994, the DOT and the signatory airlines executed a letter agreement to extend the expired airport-airline lease agreement to June 30, 1994. Under the terms of the letter agreement, the signatory airlines would continue to operate under the terms of the expired airport-airline lease agreement, with an adjustment for terms and provisions relating to Airports system rates and charges, which include landing fees, nonexclusive joint-use premise charges for terminal rentals (overseas terminal, new interisland terminal and the international arrivals building), exclusive use premise rentals and Airports system support charges. The letter agreement further stipulated that the aggregate of all such rates and charges, together with aviation fuel taxes (as adjusted for aviation fuel tax credits), payable to the DOT by the signatory airlines would not exceed \$84,175,000. The foregoing rates and charges were adjusted retroactively to July 1, 1993.

In June 1994, the DOT and the signatory airlines executed a lease extension agreement to extend the expired airport-airline lease agreement effective July 1, 1994 to June 30, 1997. Under the terms of the lease extension agreement, the signatory airlines would continue to operate under the terms of the expired airport-airline lease agreement, with an adjustment for terms and provisions relating to Airports system rates and charges. The nature of these charges is similar to those of the expired letter agreement; however, the lease extension agreement does not stipulate a maximum amount for aggregate Airports system charges. Instead, the lease extension agreement's residual rate-setting methodology provides for a final year-end reconciliation containing actual Airports system cost data

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

to determine whether Airports system charges assessed to the signatory airlines were sufficient to recover Airports system costs, including debt service requirements under the certificate providing for the issuance of revenue bonds. Annual settlements based on this final reconciliation are made in accordance with the terms of the lease extension agreement.

The DOT and the signatory airlines have mutually agreed to continue to operate under the terms of the lease extension agreement which provides for an automatic extension on a quarterly basis unless either party provides 60 days written notice to the other party of termination.

### ***Airports – Prepaid Airport Use Charge Fund***

The DOT and the signatory airlines entered into an agreement in August 1995 to extend the prepaid airport use charge fund (PAUCF). During fiscal 2000, the parties agreed to transfer the signatory airlines' net excess payments for fiscal 1999, 1998, 1997, and 1996 into the PAUCF. Net excess payments for fiscal 2000 were transferred to the PAUCF in October 2001. Airports then paid \$460,000 out of the PAUCF to the signatory airlines in fiscal 2003.

### ***Airports – Aviation Fuel Tax***

In May 1996, the Department of Taxation issued a tax information release which stated that effective July 1, 1996, the Hawaii fuel tax will not apply to the sale of bonded aviation/jet fuel to air carriers departing for foreign ports or arriving from foreign ports on stopovers before continuing on to their final destination. The aviation fuel tax amounted to \$2,854,123 for fiscal 2003.

### ***Airports – System Rates and Charges***

Signatory and non-signatory airlines were assessed the following rates and charges:

- Landing fees, net of aviation fuel tax credits, amounted to \$34,579,691 for fiscal 2003 based on a computed rate per 1,000-pound units of approved maximum landing weight for each aircraft used in revenue landings.
- Nonexclusive joint-use premise charges for terminal rentals amounted to \$25,095,942 for fiscal 2003. The State waived the signatory airlines' underpayment of nonexclusive joint-use premise charges of \$3,557,938. Overseas and interisland joint-use premise charges were established to recover Airports system costs allocable to the overseas and interisland terminals joint-use space based on terminal rental rates and are recovered based on a computed rate per revenue passenger landing.
- Exclusive use premise charges amounted to \$27,697,345 for fiscal 2003 and were computed using a fixed rate per square footage. Exclusive use premise charges for terminal rentals amounted to \$15,616,153 for fiscal 2003.
- Airports system support charges amounted to \$896,109 for fiscal 2003. The charges were established to recover residual costs of the Airports system and are based on a computed rate per 1,000-pound units of approved maximum landing weight for each aircraft used in revenue landings.

## Notes to Basic Financial Statements

June 30, 2003

### *Airports – Other Operating Leases*

Airports leases building spaces and improvements to concessionaires, airline carriers, and other airport users. The terms of those leases range from 4 to 15 years for concessionaires and up to 65 years for other airport users. Concessionaire lease rentals are generally based on the greater of a percentage of sales or a basic minimum rent. Percentage rent included in concession fees revenues for the fiscal year ended June 30, 2003 was approximately \$44,219,000.

Concession fees revenues from the DFS Group L.P. (DFS) concession contract accounted for approximately 57% of total concession fees revenues for the fiscal year ended June 30, 2003. The DFS concession contract, effective June 1, 2001, provided for payment of 30% of gross sales attributable to on-airport premises against 20% of the minimum annual guarantee payments aggregating \$300,000,000 over the five-year contract and 22.5% of gross sales attributable to off-airport premises against 80% of the minimum annual guarantee payments aggregating \$300,000,000 over the five-year contract. The DFS retail concession contract, effective March 15, 2001, provides for payment of 20% of gross sales against minimum guarantee payments aggregating \$47,250,000 over the five-year contract.

The DFS concession contracts provide for quarterly advance payments due on March 1, June 1, September 1, and December 1 of each year.

Pursuant to the proclamation by the Governor declaring an economic emergency, Airports, under the approval from the Governor, established the Airport Concession Relief Program (Program). The Program, effective September 11, 2001 through April 30, 2002, granted relief to qualified airport concessionaires in the form of a limited waiver of the minimum annual rent payable under the concession agreements. During such time of the waiver of the minimum annual payments, the concessionaires continued to pay their required percentage rents.

To be eligible to participate in the Program, concessionaires must have met the following four requirements: (1) hold an existing contract on September 11, 2001; (2) prove they suffered significant losses since September 11, evidenced by at least a 15% decline in business volume after consideration of insurance and federal benefits received; (3) agree to submit a weekly report on daily sales, remit percentage rent payment for estimated sales on the first of each month, and submit all reports in accordance with the terms of the concessionaire's contract; and (4) be in good standing on September 11, 2001 and remain in good standing for the time period of the waiver. The total relief granted to qualified concessionaires approximated \$26,100,000.

As of June 30, 2003, DFS, who operates the in-bond (duty free) concession, the Honolulu International Airport retail concession, and the Kona International Airport at Keahole retail concession, was in significant arrears in the rents due to Airports. A significant cause of DFS's financial difficulty stemmed from the downturn in Hawaii's economy as a result of the decrease in international visitor travel. Although the Governor had granted temporary rent relief to Airports' concessionaires throughout fiscal 2002 and 2003, the major concessionaire was unable to bring the rent due to a current basis.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

After a significant amount of negotiation between Airports and DFS, both parties entered into a Withdrawal and Settlement Agreement ("Agreement") effective August 1, 2003. Under the terms of the Agreement, DFS would bring current the amounts due for the in-bond concession and retail concessions, based on compromised amounts. In addition, the current in-bond concession lease would be terminated early and re-bid in September 2003. DFS would be required to submit the minimum amount of the bid set by Airports.

Certain of the claims of Airports and DFS would be preserved and remain fully assertable, subject to the terms of the Agreement, until certain conditions are met.

DFS was the only bidder on the new in-bond concession and was awarded the contract on September 29, 2003.

### ***Harbors – Aloha Tower Complex Development***

The Aloha Tower Development Corporation (ATDC) is a state agency established under HRS Chapter 206J, primarily to redevelop the Aloha Tower complex. The complex encompasses Piers 5 to 23 of Honolulu Harbor. In September 1993, Harbors entered into a lease with the ATDC transferring to the ATDC portions of the Aloha Tower complex. The ATDC is required annually to reimburse Harbors for any losses in revenues during the term of the lease caused by any action of the ATDC or the developer and to provide replacement facilities for maritime activities at no cost to Harbors.

In September 1993, the ATDC subleased lands surrounded by Piers 8 and 9 and a portion of land surrounded by Pier 10 to a developer and entered into a capital improvements, maintenance, operations and securities agreement (Operations Agreement) with the developer and Harbors. Harbors continues to operate the harbor facilities at Piers 8, 9 and 10. The lease between the ATDC and the developer requires the developer to construct, at the developer's cost, various facilities as designated in the developer's proposal and to reimburse Harbors for all losses in revenues and increased expenses which may be incurred by Harbors. The ATDC and the developer have agreed to offset reimbursements due to Harbors for losses in revenues during the construction period, with certain work performed by the developer to repair the structure of Piers 8 through 11, the cost of which would otherwise be incurred by Harbors. The developer is entitled to offset the cost of repairs, not to exceed \$1.1 million, against its obligation to reimburse Harbors for losses in revenues. The first phase of the Aloha Tower complex development has been completed.

The loss in revenues for fiscal 2003 amounted to \$1,726,011, and has been included in Harbors' rental revenues. As of June 30, 2003, the amount due to Harbors was \$6,287,367.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### *Harbors – Leasing Operations*

Harbors leases land, wharf, and building spaces under month-to-month revocable permits and long-term leases. The long-term leases expire during various years through fiscal 2058. Those leases generally call for rental increases every five to ten years based on independent appraisals of the fair rental value of the leased property.

Minimum future rentals to be received under direct financing leases as of June 30, 2003 consisted of the following (amounts expressed in thousands):

	Enterprise Funds		
	Airports	Harbors	Total
Fiscal year:			
2004	\$ 3,510	\$ 949	\$ 4,459
2005	3,601	949	4,550
2006	3,477	949	4,426
2007	3,432	949	4,381
2008	3,391	949	4,340
Thereafter	62,744	20,926	83,670
	<u>\$ 80,155</u>	<u>\$ 25,671</u>	<u>\$ 105,826</u>

The following schedule presents the approximate future minimum lease rentals under noncancelable operating leases of the Enterprise Funds as of June 30, 2003 (amounts expressed in thousands):

	Enterprise Funds		
	Airports	Harbors	Total
Fiscal year:			
2004	\$ 52,349	\$ 8,977	\$ 61,326
2005	62,462	9,020	71,482
2006	56,451	8,662	65,113
2007	12,736	8,105	20,841
2008	12,146	7,845	19,991
	<u>\$ 196,144</u>	<u>\$ 42,609</u>	<u>\$ 238,753</u>

# STATE OF HAWAII

## Notes to Basic Financial Statements

### C. Net Investment in Direct Financing Lease

Certain leases of state-owned special facilities to parties engaged in airline and maritime operations are accounted for as direct financing leases. At June 30, 2003, net direct financing leases consisted of the following (amounts expressed in thousands):

	Enterprise Funds		
	Airports	Harbors	Total
Total minimum lease payments receivable	\$ 80,155	\$ 25,671	\$ 105,826
Estimated unguaranteed residual value	—	3,600	3,600
Less amount representing interest	(42,900)	(10,503)	(53,403)
	37,255	18,768	56,023
Cash with trustee and other	3,863	—	3,863
	<u>\$ 41,118</u>	<u>\$ 18,768</u>	<u>\$ 59,886</u>

## (11) RETIREMENT BENEFITS

### A. Plan Description

All eligible employees of the State and counties are required by HRS Chapter 88 to become members of the ERS, a cost-sharing multiple-employer public employee retirement plan. The ERS provides retirement benefits as well as death and disability benefits. The ERS is governed by a Board of Trustees. All contributions, benefits, and eligibility requirements are established by HRS Chapter 88 and can be amended by legislative action. The ERS issues a comprehensive annual financial report that is available to the public. That report may be obtained by writing to the ERS at 201 Merchant Street, Suite 1400, Honolulu, Hawaii 96813.

Prior to June 30, 1984, the plan consisted of only a contributory option. In 1984, legislation was enacted to add a new noncontributory option for members of the ERS who are also covered under Social Security. Police officers, firefighters, judges, elected officials, and persons employed in positions not covered by Social Security are precluded from the noncontributory option. The noncontributory option provides for reduced benefits and covers most eligible employees hired after June 30, 1984. Employees hired before that date were allowed to continue under the contributory option or to elect the new noncontributory option and receive a refund of employee contributions. All benefits vest after five and ten years of credited service under the contributory and noncontributory options, respectively.

Both options provide a monthly retirement allowance based on the employee's age, years of credited service, and average final compensation (AFC). The AFC is the average salary earned during the five highest paid years of service, including the vacation payment, if the employee became a member prior to January 1, 1971. The AFC for members hired on or after that date is based on the three highest paid years of service, excluding the vacation payment.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

### **B. Funding Policy**

Most covered employees of the contributory option are required to contribute 7.8% of their salary. Police officers, firefighters, investigators of the departments of the County Prosecuting Attorney and the Attorney General, narcotics enforcement investigators, and public safety investigators are required to contribute 12.2% of their salary. The funding method used to calculate the total employer contribution requirement is the Entry Age Normal Actuarial Cost Method. Under this method, employer contributions to the ERS are comprised of normal cost plus level annual payments required to liquidate the unfunded actuarial liability over the remaining period of 27 years from June 30, 2002.

The State's contribution requirements as of June 30, 2003, 2002, and 2001 were approximately \$158,622,000, \$113,984,000, and \$7,690,000, respectively. The State contributed 100% of its required contributions for those years. Changes in salary growth assumptions and investment earnings pursuant to Act 100, SLH of 1999, decreased the June 30, 2002 and 2001 required contributions. Act 233, SLH of 2002, increased the 2003 contribution by providing a one-time lump-sum pensioner bonus to retirees who were 70 years and older with at least 20 years of credited service as of June 30, 2002. Also Act 284, SLH of 2001, provided an increase in the pension benefits effective 2003 to retirees with military service. Covered payroll for the fiscal year ended June 30, 2003 was approximately \$1,972,441,000.

### **C. Post-Retirement Health Care and Life Insurance Benefits**

In addition to providing pension benefits, the State, pursuant to HRS Chapter 87, provides certain health care and life insurance benefits to all qualified employees.

For employees hired before July 1, 1996, the State pays the entire monthly health care premium for employees retiring with ten or more years of credited service, and 50% of the monthly premium for employees retiring with fewer than ten years of credited service.

For employees hired after June 30, 1996, and who retire with fewer than 10 years of service, the State makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the State pays 50% of the retired employees' monthly Medicare or non-Medicare premium. For employees hired after June 30, 1996, and who retire with at least 15 years but fewer than 25 years of service, the State pays 75% of the retired employees' monthly Medicare or non-Medicare premium; for those retiring with over 25 years of service, the State pays the entire health care premium.

There are currently approximately 23,300 state retirees receiving such benefits. Free life insurance coverage for retirees and free dental coverage for dependents under age 19 are also available. Retirees covered by the medical portion of Medicare are eligible to receive reimbursement of the basic medical coverage premium. Contributions are financed on a pay-as-you-go basis. During fiscal 2003, expenditures of \$127,827,000 were recognized for post-retirement health care and life insurance benefits, approximately \$33,630,125 of which is attributable to the Component Units.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

Effective July 1, 2003, the Hawaii Employer-Union Health Benefit Trust Fund (EUTF) replaced the Hawaii Public Employees Health Fund under Act 88, SLH of 2001. The EUTF was established to provide a single delivery system of health benefits for state and county employees, retirees, and their dependents.

### (12) COMMITMENTS AND CONTINGENCIES

#### A. Commitments

##### *General Obligation Bonds*

The State has issued general obligation bonds in which repayments, including interest, are reimbursed from specific revenue sources of the Special Revenue Funds with terms corresponding to that of the related general obligation bonds (see note 5). At June 30, 2003, outstanding commitments to repay general obligation bonds consisted of the following (amounts expressed in thousands):

Special Revenue Funds:		
Economic Development	\$	280,137
Highways		106,235
Natural Resources		9,050
Agriculture		8,592
All Other		7,621
Administrative Support		1,738
	\$	<u>413,373</u>

##### *Accumulated Sick Leave*

Sick leave accumulates at the rate of one and three-quarters working days for each month of service without limit, but may be taken only in the event of illness and is not convertible to pay upon termination of employment. However, a state employee who retires or leaves government service in good standing with 60 days or more of unused sick leave is entitled to additional service credit in the ERS. At June 30, 2003, accumulated sick leave approximately \$1,151,337,000.

##### *Intergovernmental Expenditures*

In accordance with Act 250, SLH of 2002, 45% of revenues generated by the transient accommodations tax are to be distributed to the counties.

##### *Guarantees of Indebtedness*

The State is authorized to guarantee indebtedness of others at a maximum amount of approximately \$191,000,000 for aquacultural loans, Hawaiian Home Lands loans, various projects involving mortgage loans for rental homes made by private nonprofit corporations or governmental corporations, mortgage loans for housing projects, and rental assistance obligations of Component Unit – HCDCH. The State has not paid, nor does it expect to pay, any amounts as a result of such guarantees as of June 30, 2003.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### B. Proprietary Fund Type – Enterprise Funds

#### *Construction and Service Contracts*

At June 30, 2003, the Enterprise Funds had commitments of approximately \$131,340,000 for construction and service contracts.

### C. Contingencies

The State has been named as defendant in numerous lawsuits and claims arising in the normal course of operations. To the extent that the outcome of such litigation has been determined to result in probable financial loss to the State, such loss has been accrued in the basic financial statements. Of the remaining claims, a number of claims may possibly result in adverse judgments against the State. However, such claim amounts cannot be reasonably estimated at this time. The litigation payments relating to the fiscal years ended June 30, 2003, 2002, and 2001 approximated \$14,000,000, \$4,200,000, and \$6,811,000, respectively.

#### *Tobacco Settlement*

In November 1998, the State settled its tobacco lawsuit as part of a nationwide settlement involving 46 other states and various tobacco industry defendants. Under the settlement, those tobacco companies that have joined in the Master Settlement Agreement will pay the State approximately \$1.3 billion over a 25-year period. Through June 30, 2003, the State has received approximately \$43,552,000. The State is to receive proceeds from this settlement in January and April of each year through 2003 and thereafter on April 15 of each year.

#### *Office of Hawaiian Affairs*

In 1898, the Republic of Hawaii transferred certain lands to the United States. Upon Hawaii's admission to the Union in 1959, the United States reconveyed title to those lands (collectively, the ceded lands) back to the State to be held as a public trust for five purposes: (1) public education; (2) betterment of the conditions of native Hawaiians; (3) development of farm and home ownership; (4) making public improvements; and (5) provision of land for public use. In 1978, the State Constitution was amended expressly to provide that the ceded lands were to be held as a public trust for native Hawaiians and the general public, and to establish OHA to administer and manage the proceeds and income derived from a pro rata portion of the ceded lands for native Hawaiians.

In 1979, the State Legislature adopted HRS Chapter 10, which, as amended in 1980, specified, among other things, that OHA expend 20% of all funds derived by the State from the ceded lands for the betterment of the conditions of native Hawaiians.

In 1987, in *Trustees of the Office of Hawaiian Affairs v. Yamasaki*, 69 Haw. 154 (1987), the Hawaii Supreme Court concluded that HRS Chapter 10 was insufficiently clear regarding the amount of monies OHA was entitled to receive from the public trust lands.

In 1990, in response to *Yamasaki*, the State Legislature adopted Act 304, SLH of 1990, which (1) defined "public land trust" and "revenue," (2) specified that 20% of the "revenue" derived from the "public land trust" was to be expended by OHA for the betterment of the conditions of native Hawaiians, and (3) established a process for OHA and the Director of Finance to jointly determine

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

the amount of monies which the State would pay OHA to retroactively settle all of OHA's claims for the period from June 16, 1980 through June 30, 1991. Since fiscal 1992, the State, through its departments and agencies, has been paying 20% of "revenue" to OHA on a quarterly basis.

In 1993, the State Legislature enacted Act 35, SLH of 1993, appropriating \$136.5 million to pay the amount determined to be OHA's claims, with interest, for the period from June 16, 1980 through June 30, 1991.

In January 1994, OHA and its Board of Trustees (the Plaintiffs) filed suit against the State (*OHA, et al. v. State of Hawaii, et al.*, Civil No. 94-0205-01 (First Circuit) ("*OHA I*")), claiming that the amount paid to OHA was inadequate and alleging that the State had failed to properly account for and fully pay the pro rata share of proceeds and income derived from the public land trust. Among other things, the Plaintiffs seek an accounting of all proceeds and income, funds and revenue derived from the public land trust since 1978, and restitution or damages amounting to 20% of the proceeds and income derived from the public land trust, as well as interest thereon. In its answer to OHA's complaint, the State denied all of the Plaintiffs' substantive allegations, and asserted its sovereign immunity from suit and other jurisdictional and claim-barring defenses.

The Plaintiffs thereafter filed four motions for partial summary judgment as to the State's liability to pay OHA 20% of monies it receives from (1) Airports' in-bond duty-free airport concession (including receipts from the concessionaire's off-airport sales operations); (2) the state-owned and operated Hilo Medical Center; (3) the State's public rental housing projects and affordable housing developments; and (4) interest income, including investment earnings (collectively, the Sources). In response, the State filed a motion to dismiss on the basis of sovereign immunity and opposed Plaintiffs' four motions on the merits and raised several affirmative defenses.

On October 24, 1996, the Circuit Court of the First Circuit of the State of Hawaii (First Circuit Court) filed an order denying the State's motion to dismiss and rejecting its affirmative defenses. Also on October 24, 1996, the First Circuit Court filed an order granting the Plaintiffs' four motions for partial summary judgment with respect to the State's liability to pay OHA 20% of the monies it receives from each of the Sources, and deferred establishing amounts owed from those Sources for further proceedings or trial. The State's motion for leave to file an interlocutory appeal from both the order denying its motion to dismiss and the order granting the Plaintiffs' four motions for partial summary judgment was granted, and all proceedings in the suit have been stayed pending the Hawaii Supreme Court's disposition of the State's appeal.

On September 12, 2001, the Hawaii Supreme Court concluded *OHA I* by holding in *OHA v. State of Hawaii*, 96 Haw., 388 (2001) that Act 304 was effectively repealed by its own terms, and that there were no judicially manageable standards by which to determine whether OHA was entitled to the revenue it sought from the Sources because the repeal of Act 304 revived the law which the Hawaii Supreme Court in *Yamasaki* had previously concluded was insufficiently clear to establish how much OHA was entitled to receive from the ceded lands. See *OHA v. State*, 96 Haw., 388 (2002). The Hawaii Supreme Court dismissed the case for lack of justiciability noting that it was up to the State Legislature to enact legislation to give effect to the right of native Hawaiians to benefit from the ceded lands under the State Constitution. The State Legislature took no action during the 2002 legislative session, and the State's payments of 20% of "revenue" were discontinued as of the first quarter in fiscal 2002.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

The State Legislature took no action during the 2002 and 2003 legislative sessions to establish a new mechanism for establishing how much OHA was entitled to receive from the ceded lands. On January 10, 2003, and pending legislative action to establish such a mechanism, the Governor issued Executive Order No. 03-03 directing state agencies to resume transferring 20% of receipts from leases, licenses, and permits indisputably paid for the use of improved or unimproved parcels of ceded lands to OHA, if federal or state law did not preclude all or any portion of the receipt from being used to better the conditions of native Hawaiians, and the transfer of all or any portion of the receipt to OHA would not cause the agency to renege on a preexisting pledge, rate covenant, or other preexisting obligation to holders of revenue bonds or other indebtedness of the State or agency. During the 2003 legislative session, the State Legislature appropriated monies from the various funds into which the ceded lands receipts had been deposited after the decision in *OHA I* was issued and agencies ceased making payments to OHA, and directed the agencies to pay them to OHA.

OHA continues to pursue its claims for a portion of the revenues from the Sources and other ceded lands that it made in *OHA I*. On July 21, 2003, OHA filed a new lawsuit, *OHA, et al. v. State of Hawaii, et al.*, Civil No. 03-1-1505-07 ("*OHA II*"). There follows additional background information pertinent to *OHA II*. In September 1996, the Office of the Inspector General of the U.S. Department of Transportation ("DOT") issued a report (the "IG Report") concluding that from 1992 to 1995, the Hawaii Department of Transportation's payment to OHA of \$28.2 million was a "diversion of airport revenues in violation of applicable federal law as OHA provided no airport services in return. The Hawaii Attorney General disagreed with the IG Report's conclusion, stating in November 1996 that the payments to OHA were simply an operating cost of the airports, and thus not a diversion of airport revenues in violation of federal law. In April 1997, the Acting Administrator of the FAA concurred in writing (the "FAA Memorandum"), with the IG Report and opposed the Hawaii Attorney General's position. In support of its appeal of the First Circuit Court's *OHA I* decision to the Hawaii Supreme Court, but differing with the original position of the Hawaii Attorney General, the State noted in its May 1997 amended opening brief that "unless the federal government's position, set forth in the IG Report, changes, Act 304 prohibits the State from paying OHA airport-related revenues." In its June 1997 reply, the State stated that the "DOT Inspector General's determination shows that the federal government is on its way to finding such payments illegal and requiring the State to reimburse past payments of airport-related revenues to OHA." In October 1997, Public Law 105-66, 1997 HR 2169 (the "Forgiveness Act") was enacted into federal law. The Forgiveness Act essentially provides that in exchange for there being no further payments of airport revenues for claims related to ceded lands, any such payments received prior to April 1, 1996 need not be repaid. The Hawaii Attorney General submitted the Forgiveness Act to the Hawaii Supreme Court ("Court") in December 1997, "for the Court's use" in conjunction with the *OHA I* appeal, whereupon the Court requested the parties submit supplemental briefs to address whether the Forgiveness Act affected the Court's interpretation of Act 304. The State, in its March 1998 supplemental brief, stated, inter alia, that paying OHA a pro-rata share of airport monies violated federal law, and that there was no live, ripe controversy regarding those payments because the Forgiveness Act relieved the State and OHA of any obligation to return improper past payments.

Despite the adverse *OHA I* decision, the Plaintiffs in *OHA II* have now sued the State for alleged breaches of fiduciary duties as purported trustee of the ceded lands public trust, alleged violations of Act 304, Chapter 10, and Article XII, Sections 4, 5, and 6 of the Hawaii Constitution, alleged violations of the Contract Clause of the U.S. Constitution, and alleged misrepresentation and non-

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

disclosure, by the following alleged acts (but not limited to these acts): (1) failing to oppose positions set forth in the FAA Memorandum; (2) resolving its dispute with the FAA by obtaining a forgiveness of the prior \$28.2 million payments in exchange for a promise not to make future airport revenue payments to OHA and not to appeal the positions set forth in the FAA Memorandum; (3) breaching the trust duty of impartiality by not opposing the positions set forth in the FAA Memorandum in order to use as a sword in *OHA I*; (4) failing to timely advise OHA that the State was not going to continue to oppose the positions set forth in the FAA Memorandum or IG Report, and that it was planning to settle with the federal government, in order to provide OHA with a fair opportunity to take measures to step into the State's position to oppose the FAA; and (5) failing to obtain instructions from the Court on how to proceed given the State's conflict between defending the State against OHA in *OHA I*, and having a duty to oppose the positions set forth in the FAA Memorandum.

OHA further alleges that these alleged "breaches, errors, and omissions" were substantial factors that resulted in the passing of the Forgiveness Act and the issuance of the Hawaii Supreme Court's opinion in *OHA I*. Plaintiffs claim that, accordingly, the State is liable to OHA for damages including, but not limited to: (1) the damages alleged by OHA in *OHA I*, and (2) amounts payable under Act 304 that have not been paid, including but not limited to, airport landing fees. Plaintiffs also seek declaratory and injunctive relief ordering the State to reinstate Act 304, pay airport-related revenues to OHA from sources other than airport revenues (and enjoining the State and its agents, employees, and officials from opposing any of the above), and seeks appointment of an independent trustee to temporarily replace the State as trustee of the native Hawaiian public trust with respect to matters relating to reinstatement of Act 304 and the payment of airport-related revenues to OHA from the sources other than airport revenues.

The State is currently unable to predict with reasonable certainty the magnitude of its potential liability for such claims, if any. Resolution of all of OHA's claims could have a material adverse effect on the State's financial condition.

In a second lawsuit, OHA filed a complaint for declaratory and injunctive relief on November 4, 1994 (*OHA v. Housing Finance and Development Corporation, et al.*, Civil No. 94-4207-11 (First Circuit)) to enjoin the State from alienating any ceded lands or, alternatively, to preclude the extinguishing of any rights native Hawaiians may have in ceded lands which may be alienated.

Alternatively, OHA sought a declaration that the amounts the Housing Finance and Development Corporation (the "Corporation") and the State paid to OHA for ceded lands the Corporation planned to use to develop and sell housing units pursuant to Act 318, SLH of 1992, were insufficient. Act 318 established a separate process for valuing the ceded lands the Corporation used for its two housing developments at Kealahou and Lahaina, and quantifying the amounts of income and proceeds from the ceded lands that the Corporation and State were required to pay OHA for conveying and using the parcels for the Corporation's two projects.

In December 2002, following a trial on the issues, the trial court confirmed the State's authority to sell ceded lands, denied the declaratory ruling that the sale of ceded lands did not directly or indirectly release or limit Hawaiians' claim to those lands which the Plaintiff requested, and ordered that judgment be entered in the State's and Corporation's favor as to Counts I, II, and III of the Amended Complaint. The Plaintiffs moved for and were granted leave to file immediate appeals

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

from the trial court's ruling to the Hawaiian Supreme Court. Those appeals are now pending. Trial to determine the sufficiency of the proceeds paid to OHA by the Corporation and the State from the sale of particular parcels of ceded lands at issue has not been scheduled.

In a third lawsuit, OHA filed suit against the Hawaii Housing Authority (the HHA), the executive director of the HHA, the board members of the HHA and the Director of Finance on July 27, 1995 (*OHA v. HHA, et al.*, Civil No. 95-2682-07 (First Circuit)) to secure additional compensation and an itemized accounting of the sums previously paid to OHA for five specifically identified parcels of ceded lands which were transferred to the HHA for its use to develop, construct, and manage additional affordable public rental housing units under HRS Chapter 201G. On January 11, 2000, all proceedings in this suit were stayed pending the Hawaii Supreme Court's decision in the State's appeal in *OHA v. State of Hawaii*, Civil No. 94-0205-01 (First Circuit). The repeal and revival of the pre-Yamasaki law by the Hawaii Supreme Court's September 12, 2001 decision in *OHA v. State* should also require dismissal of the claims OHA makes in *OHA v. HHA*, and the case remains pending.

At the present time, the State is not able to estimate with any reasonable certainty the magnitude of the potential liability as it may be determined either by judicial rulings (either at trial or on appeal) or by legislation enacted as a result of the process established in Act 329. Accordingly, no estimate of loss has been made in the accompanying basic financial statements. However, an ultimate decision against the State could have a material adverse effect on the financial position of the State.

### ***Department of Education and Department of Health***

*Felix v. Lingle*, Civil No. 93-00367 (U.S. District Court for the District of Hawaii). This case involves the State's responsibility under federal law to provide mental health services as a related service to children and adolescents who need such services to benefit from special education. After the U.S. District Court granted partial summary judgment as to liability in the Plaintiffs' favor, the parties entered into a consent decree which allowed the State to plan and implement a new system of care. Under the consent decree and the supervision of the U.S. District Court, the State has been implementing a plan to improve the provision of such services. Because of the failure of the State to timely complete the implementation plan approved by the U.S. District Court, the State was held in contempt of court and the consent decree was extended to June 30, 2001 for completion of infrastructure to support the delivery of services and December 31, 2001 for substantial compliance with the consent decree.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

The State avoided the U.S. District Court's imposition of a federal court-appointed receiver by meeting the court's revised benchmarks and conditions which the State was ordered to fulfill. At a hearing held on November 30, 2001, the U.S. District Court determined that the State had made significant progress in meeting the terms of the consent decree and, therefore, that a federal receiver was not necessary. On September 10, 2002, the court ruled that the State was in substantial compliance with the consent decree as of June 30, 2002. However, the court ordered the federal court supervision to continue until December 31, 2003. During this period, the level and quality of services provided by the State will be monitored to determine whether the State can sustain the levels of performance previously demonstrated.

### *Department of Hawaiian Home Lands*

#### *Hawaiian Home Lands Trust Fund*

Act 14, Special SLH of 1995, was approved by the Governor on June 29, 1995 and obligates the State to make 20 annual deposits of \$30,000,000, or their discounted value equivalent, into the Hawaiian Home Lands Trust Fund beginning in the fiscal year ended June 30, 1996. The primary purpose of Act 14 is to resolve controversies and claims related to the Hawaiian Home Lands trust which arose between August 31, 1959 and July 1, 1988. Act 14 also established in the State Treasury a trust fund known as the Hawaiian Home Lands Trust Fund.

The State transferred \$30,000,000 to the Hawaiian Home Lands Trust Fund during the fiscal year ended June 30, 2003.

As of June 30, 2003, the State has transferred approximately \$240,000,000 to the Hawaiian Home Lands Trust Fund. The State's remaining \$360,000,000 obligation discounted at 6% and assuming annual payments of \$30,000,000 over the remaining term of the obligation is approximately \$251,500,000. Such amount has been included in claims and judgments payable in the accompanying statement of activities.

#### *Transfer of Property*

Act 95, SLH of 1996, authorizes the transfer of certain parcels of land to the DHHL. The properties were conveyed in fiscal 1997 and the allocated costs were charged against contributed capital. The estimated future costs of those parcels will be recognized as contributions returned to the State and others when costs are incurred. The estimated allocated project costs and allocated costs incurred to date of those parcels of land were approximately \$22,278,000 and \$11,927,000, respectively.

#### *Individual Claims*

In 1991, the State Legislature enacted HRS Chapter 674, entitled "Individual Claims Resolution Under the Hawaiian Home Lands Trust," which established a process for individual beneficiaries of the Hawaiian Homes Commission Act of 1920 to file claims to recover actual economic damages they believed they suffered from a breach of trust caused by an act or omission of an official of the State between August 21, 1959, when Hawaii became a state, and June 30, 1988. Claims were required to be filed no later than August 31, 1995. There were 4,327 claims filed by 2,753 individuals.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

The process was a three-step process which (1) began with informal proceedings presided over by the Hawaiian Home Lands Trust Individual Claims Review Panel (the Panel) to provide the State Legislature with non-binding findings and advisory opinions for each claim; (2) provided for the State Legislature's review and consideration of the Panel's findings and advisory opinions, and appropriations of funds to pay the actual economic damages the State Legislature deemed appropriate by October 1, 1999; and (3) allowed claimants to bring de novo civil actions by December 31, 1999 if they were not satisfied with the Panel's findings and advisory opinions, or the State Legislature's response to the Panel's recommendations.

Legislation to allow the Panel and the State Legislature until September 30, 2000 to act on all claims, and postpone the deadline for unsatisfied claimants to file suit until December 31, 2000, was adopted by the State Legislature, but vetoed by the Governor in the 1999 legislative session, and the Panel unseated on December 31, 1999. As of September 30, 1999, claims from 1,376 claimants had not been reviewed by the Panel, and all but the claims of two claimants had not been acted upon by the State Legislature. In 1997, the State Legislature declared it to be its intent to postpone acting upon the Panel's recommendations until all claims had been reviewed and forwarded to it.

On September 30, 1999, three claimants filed a suit for declaratory and injunctive relief in the U.S. District Court to secure an injunction prohibiting the enforcement of the notice and suit filing deadlines specified in HRS Chapter 674. *Kalima, et al. v. Cayetano*, Civil No. 99-00671HG/LEK. A motion for preliminary injunction was heard on November 15, 1999 and denied as moot on September 28, 2000. By stipulation filed on November 13, 2000, the action was dismissed without prejudice.

On December 29, 1999, the same three claimants filed a class motion lawsuit in the First Circuit Court for declaratory and injunctive relief and for general, special and punitive damages for breach of trust or fiduciary duty under HRS Chapters 674 and 673, violation of the due process, equal protection and native rights clauses of the State Constitution, and breach of contract under HRS Chapter 661. *Kalima, et al. v. State of Hawaii, et al.*, Civil No. 99-4771-12VSM (First Circuit Court) ("*Kalima I*"). Five other claimants filed similar individual claims actions for themselves on or before December 31, 1999. *Aguiar v. State of Hawaii, et al.*, Civil No. 99-612 (Third Circuit Court); *Silva v. State of Hawaii, et al.*, Civil No. 99-4775-12 (First Circuit Court); *Wilhelm v. State of Hawaii, et al.*, Civil No. 99-4774-12 (First Circuit Court); *Williamson v. State of Hawaii, et al.*, Civil No. 99-4773-12 (First Circuit Court); *Hanohano v. State of Hawaii, et al.*, Civil No. 99-4775-12 (First Circuit Court). The Plaintiffs in these other actions have stipulated to stay all proceedings in their actions pending the resolution of all questions of law in *Kalima I* that are common to the questions of law presented in their suits. Plaintiff Hanahano has since stipulated to the dismissal of her action without prejudice.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

---

On March 30, 2000, the three named-plaintiffs in *Kalima I* filed a second class action lawsuit in the First Circuit Court for declaratory and injunctive relief, and for damages under HRS Chapter 673, for the Panel's and the State Legislature's alleged failure to remedy their breach of trust claims under HRS Chapter 674. *Kalima, et al. v. State of Hawaii, et al.*, Civil No. 00-1-1041-03 (First Circuit Court) ("*Kalima II*"). All proceedings in this action were stayed by stipulation, pending the resolution of those questions of law in *Kalima I* that are common to both *Kalima I* and *Kalima II*.

On August 30, 2000, the First Circuit Court entered an order in *Kalima I* granting Plaintiffs' motion for summary judgment and declaratory relief as to Count I of the Complaint, and denying Defendants' motion for judgment on the pleadings. Essentially, the First Circuit Court rejected Defendants' sovereign immunity, lack of subject matter jurisdiction, and no-cause of action defenses, and ruled that the Plaintiffs and those similarly situated to them (by an order filed on August 29, 2000, a class was so certified for purposes of Count I) could pursue their claims for damages and other relief under HRS Chapters 674 and 661.

The First Circuit Court allowed the State to take an interlocutory appeal from the August 30, 2000 order to the Hawaii Supreme Court, and entered an order staying all proceedings in *Kalima I* pending the Hawaii Supreme Court's disposition of the appeal. By an order entered on September 20, 2001, however, that appeal was dismissed by the Hawaii Supreme Court for lack of appellate jurisdiction. Since then, the State has secured a certification of finality for the August 30, 2000 order from the court, and filed another notice of appeal of the orders so that the questions of law the court decided can be reviewed by the Hawaii Supreme Court prior to trial. All briefs have been filed and the parties are awaiting oral argument or a decision from the court in this second appeal. All proceedings in *Kalima I* in the court remain stayed, and no trial date has been set in either *Kalima I* or any of the other individual claims cases.

At the present time, the State is not able to estimate with any reasonable certainty the magnitude of the potential liability related to these individual claims cases. Accordingly, no estimate of loss has been made in the accompanying basic financial statements. However, an ultimate decision against the State could have a material adverse effect on the financial position of the State.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### (13) RISK MANAGEMENT

GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, establishes accounting and financial reporting standards for risk financing and insurance related activities of state governmental entities and requires the recordation of a liability for risk financing and insurance related losses if it is determined that a loss has been incurred and the amount can be reasonably estimated. The State retains various risks and insures certain excess layers with commercial insurance companies. The excess layers insured with commercial insurance companies are consistent with the prior fiscal year. Settled claims have not exceeded the coverage provided by commercial insurance companies in any of the past three fiscal years. A summary of the State's underwriting risks is as follows:

#### A. Property Insurance

The State has an insurance policy with a variety of insurers in a variety of layers for property coverage. The deductible is \$250,000 per occurrence. The deductible for windstorm coverage is 3% of loss subject to a \$250,000 per occurrence minimum. This policy includes earthquake, named hurricane, and flood coverage with a deductible of 3% of loss subject to a \$250,000 minimum and a \$10,000,000 annual aggregate. The limit of loss per occurrence is \$25,000,000. This policy also includes terrorism coverage whose limit of loss per occurrence is \$10,000,000 with a deductible of \$250,000 per occurrence.

The State also has a crime insurance policy for various types of coverages with a minimum limit of loss of \$1,000,000 per occurrence and a maximum limit of \$10,000,000 with \$250,000 deductibles. Losses not covered by insurance are paid from legislative appropriations of the State's General Fund.

#### B. General Liability (including Torts)

Claims under \$10,000 are handled by the risk management office of the Department of Accounting and General Services. All other claims are handled by the Department of the Attorney General. The State has personal injury and property damage liability, including automobile and public errors and omissions, insurance policy in force with a \$3,000,000 deductible per occurrence. The annual aggregate per occurrence is \$7,000,000.

Losses under the deductible amount or over the aggregate limit are paid from legislative appropriations of the State's General Fund.

#### C. Medical Insurance

The State's community hospitals included in the HHSC are insured by a comprehensive hospital professional liability policy. The policy covers losses from personal injury, professional liability, patient property damage, and employee benefits. This policy covers losses up to a limit of \$20,000,000 per occurrence and in the aggregate.

#### D. Self-Insured Risks

The State generally self-insures its automobile no-fault and workers' compensation losses. Automobile losses are administered by third-party administrators. The State administers its workers' compensation losses.

# STATE OF HAWAII

## Notes to Basic Financial Statements

June 30, 2003

### E. Reserve for Losses and Loss Adjustment Costs

A liability for workers' compensation and general liability claims is established if information indicates that a loss has been incurred as of June 30, 2003 and the amount of the loss can be reasonably estimated. The liability also includes an estimate for amounts incurred but not reported. The amount of the estimated loss is recorded in the accompanying statement of net assets as those losses will be liquidated with future expendable resources. The estimated losses will be paid from legislative appropriations of the State's General Fund. The following table represents changes in the amount of the estimated losses and the loss adjustment costs at June 30 (amounts expressed in thousands):

	2003	2002
Unpaid losses and loss adjustment costs at the beginning of the fiscal year	\$ 98,400	\$ 84,400
Incurring losses and loss adjustment costs:		
Provision for insured events of current fiscal year	25,800	30,200
Increase (decrease) in provision for insured events of prior fiscal years	600	11,800
Total incurred losses and loss adjustment costs	26,400	42,000
Payments:		
Losses and loss adjustment costs attributable to insured events of current fiscal year	(3,000)	(4,500)
Losses and loss adjustment costs attributable to insured events of prior fiscal years	(19,700)	(23,500)
Total payments	(22,700)	(28,000)
Unpaid losses and loss adjustment costs at the end of the fiscal year	\$ 102,100	\$ 98,400

### (14) SUBSEQUENT EVENTS

#### A Revenue Bond Issue

On August 20, 2003, Airports issued \$80,900,000 of Airports System Revenue Bonds, Refunding Series of 2003. The bonds bear interest at the initial rate of 2% per annum to June 30, 2004. Thereafter, the interest rate will be converted to a weekly rate, fixed rate, or extended rate, at the option of Airports. The bonds are subject to redemption at 100% of the principal amount on July 1, 2004 and on each July 1 thereafter to 2013. Proceeds of the bonds were used to redeem \$80,310,000 of the Refunding Series of 1993 revenue bonds at a redemption price of 102%, on or about September 25, 2003.

#### B. General Obligation Bond Issue

On August 21, 2003, the State issued \$225,000,000, of general obligation bonds, Series DA, and \$188,650,000 and \$23,730,000 of general obligation refunding bonds, Series DB and Series DC, respectively. The Series DA and Series DB bonds each bear interest ranging from 2.80% to 5.25%, whereas the Series DC bonds bear interest at 3.00%. The Series DA and Series DB bonds each begin to mature on September 1, 2008, and the Series DC bonds mature on September 1, 2005. Bonds were issued, in the case of the Series DA bonds, to finance certain expenditures and public improvement projects, including a payment in connection with the Hawaiian Home Lands Settlement. The Series DB and Series DC bonds were issued for the purpose of redeeming certain of the State's general obligation bonds on various dates at specified redemption prices.

## ***SUPPLEMENTARY INFORMATION***

**This page intentionally left blank.**

## NONMAJOR GOVERNMENTAL FUNDS

### Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted for specific purposes. Certain Special Revenue Funds are presented separately in the accompanying combining financial statements, with the remainder grouped as a single entity. The Special Revenue Funds are as follows:

**Highways** – accounts for programs related to maintaining and operating land transportation facilities.

**Natural Resources** – accounts for programs related to the conservation, development and utilization of agriculture, aquaculture, water, land, and other natural resources of the State.

**Wastewater** – accounts for programs related to the water sanitation of the State.

**Health** – accounts for programs related to mental health, nutrition services, communicable disease, and for other public health services.

**Med-Quest** – accounts for the programs related to the health care programs of the State.

**Human Services** – accounts for social service programs which include public welfare, eligibility and disability determination, and housing assistance.

**Education** – accounts for programs related to instructional education, school food services, and student driver education.

**Economic Development** – accounts for programs related to the development and promotion of industry and international commerce, energy development and management, economic research and analysis, and the utilization of resources.

**Employment** – accounts for programs related to employment and training, disability compensation, placement services, and occupational safety and health.

**Regulatory** – accounts for programs related to consumer protection, business registration, and cable television regulation.

**Hawaiian Programs** – accounts for programs related to the betterment of the conditions of native Hawaiians.

**Administrative Support** – accounts for programs of certain administrative agencies.

**All Other** – accounts for programs related to water recreation, inmate stores, and driver training and education.

### Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of general obligation bonds serviced by the General Fund and general obligation bonds and revenue bonds serviced by the Special Revenue Funds.

**STATE OF HAWAII**  
**Nonmajor Governmental Funds**  
**Combining Balance Sheet**

## **APPENDIX C**

### **EXTRACT FROM THE CONSTITUTION OF THE STATE OF HAWAII**

#### **ARTICLE VII**

##### **TAXATION AND FINANCE**

##### **LAPSING OF APPROPRIATIONS**

**Section 11.** All appropriations for which the source is general obligation bond funds or general funds shall be for specified periods. No such appropriation shall be made for a period exceeding three years; provided that appropriations from the state educational facilities improvement special fund may be made for periods exceeding three years to allow for construction or acquisition of public school facilities. Any such appropriation or any portion of any such appropriation that is unencumbered at the close of the fiscal period for which the appropriation is made shall lapse; provided that no appropriation for which the source is general obligation bond funds nor any portion of any such appropriation shall lapse if the legislature determines that the appropriation or any portion of the appropriation is necessary to qualify for federal aid financing and reimbursement. Where general obligation bonds have been authorized for an appropriation, the amount of the bond authorization shall be reduced in an amount equal to the amount lapsed.

##### **DEFINITIONS; ISSUANCE OF INDEBTEDNESS**

**Section 12.** For the purposes of this article:

1. The term "bonds" shall include bonds, notes and other instruments of indebtedness.
2. The term "general obligation bonds" means all bonds for the payment of the principal and interest of which the full faith and credit of the State or a political subdivision are pledged and, unless otherwise indicated, includes reimbursable general obligation bonds.
3. The term "net revenues" or "net user tax receipts" means the revenues or receipts derived from:
  - a. A public undertaking, improvement or system remaining after the costs of operation, maintenance and repair of the public undertaking, improvement or system, and the required payments of the principal of and interest on all revenue bonds issued therefor, have been made; or
  - b. Any payments or return on security under a loan program or a loan thereunder, after the costs of operation and administration of the loan program, and the required payments of the principal of and interest on all revenue bonds issued therefor, have been made.
4. The term "person" means an individual, firm, partnership, corporation, association, cooperative or other legal entity, governmental body or agency, board, bureau or other instrumentality thereof, or any combination of the foregoing.
5. The term "rates, rentals and charges" means all revenues and other moneys derived from the operation or lease of a public undertaking, improvement or system, or derived from any payments or return on security under a loan program or a loan thereunder; provided that insurance premium payments, assessments and surcharges, shall constitute rates, rentals and charges of a state property insurance program.
6. The term "reimbursable general obligation bonds" means general obligation bonds issued for a public undertaking, improvement or system from which revenues, or user taxes, or a combination of both, may be derived for the payment of the principal and interest as reimbursement to the general fund and for which reimbursement is required by law, and, in the case of general obligation bonds issued by the State for a political

subdivision, general obligation bonds for which the payment of the principal and interest as reimbursement to the general fund is required by law to be made from the revenue of the political subdivision.

7. The term "revenue bonds" means all bonds payable from the revenues, or user taxes, or any combination of both, of a public undertaking, improvement, system or loan program and any loan made thereunder and secured as may be provided by law, including a loan program to provide loans to a state property insurance program providing hurricane insurance coverage to the general public.

[Subsections 8 and 9 are omitted.]

The legislature, by a majority vote of the members to which each house is entitled, shall authorize the issuance of all general obligation bonds, bonds issued under special improvement statutes and revenue bonds issued by or on behalf of the State and shall prescribe by general law the manner and procedure for such issuance. The legislature by general law shall authorize political subdivisions to issue general obligation bonds, bonds issued under special improvement statutes and revenue bonds and shall prescribe the manner and procedure for such issuance. All such bonds issued by or on behalf of a political subdivision shall be authorized by the governing body of such political subdivision.

Special purpose revenue bonds shall only be authorized or issued to finance facilities of or for, or to loan the proceeds of such bonds to assist:

1. Manufacturing, processing or industrial enterprises;
2. Utilities serving the general public;
3. Health care facilities provided to the general public by not-for-profit corporations;
4. Early childhood education and care facilities provided to the general public by not-for-profit corporations;
5. Low and moderate income government housing programs; or
6. Not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges and universities,

each of which is hereinafter referred to in this paragraph as a special purpose entity.

The legislature, by a two-thirds vote of the members to which each house is entitled, may enact enabling legislation for the issuance of special purpose revenue bonds separately for each special purpose entity, and, by a two-thirds vote of the members to which each house is entitled and by separate legislative bill, may authorize the State to issue special purpose revenue bonds for each single project or multi-project program of each special purpose entity; provided that the issuance of such special purpose revenue bonds is found to be in the public interest by the legislature; and provided further that the State may combine into a single issue of special purpose revenue bonds two or more proposed issues of special purpose revenue bonds, separately authorized as aforesaid, in the total amount of not exceeding the aggregate of the proposed separate issues of special purpose revenue bonds. The legislature may enact enabling legislation to authorize political subdivisions to issue special purpose revenue bonds. If so authorized, a political subdivision by a two-thirds vote of the members to which its governing body is entitled and by separate ordinance may authorize the issuance of special purpose revenue bonds for each single project or multi-project program of each special purpose entity; provided that the issuance of such special purpose revenue bonds is found to be in the public interest by the governing body of the political subdivision; and provided further that the political subdivision may combine into a single issue of special purpose revenue bonds two or more proposed issues of special purpose revenue bonds, separately authorized as aforesaid, in the total amount of not exceeding the aggregate of the proposed separate issues of special purpose revenue bonds. No special purpose revenue bonds shall be secured directly or indirectly by the general credit of the issuer or by any revenues or taxes of the issuer other than receipts derived from payments by a person under contract or from any security for such

contract or special purpose revenue bonds and no moneys other than such receipts shall be applied to the payment thereof. The governor shall provide the legislature in November of each year with a report on the cumulative amount of all special purpose revenue bonds authorized and issued, and such other information as may be necessary.

### **DEBT LIMIT; EXCLUSIONS**

**Section 13.** General obligation bonds may be issued by the State; provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year, whichever is higher, on such bonds and on all outstanding general obligation bonds to exceed: a sum equal to twenty percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance until June 30, 1982; and thereafter, a sum equal to eighteen and one-half percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance. Effective July 1, 1980, the legislature shall include a declaration of findings in every general law authorizing the issuance of general obligation bonds that the total amount of principal and interest, estimated for such bonds and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance. Any bonds issued by or on behalf of the State may exceed the debt limit if an emergency condition is declared to exist by the governor and concurred to by a two-thirds vote of the members to which each house of the legislature is entitled. For the purpose of this paragraph, general fund revenues of the State shall not include moneys received as grants from the federal government and receipts in reimbursement of any reimbursable general obligation bonds which are excluded as permitted by this section.

A sum equal to fifteen percent of the total of the assessed values for tax rate purposes of real property in each political subdivision, as determined by the last tax assessment rolls pursuant to law, is established as the limit of the funded debt of such political subdivision that is outstanding and unpaid at any time.

All general obligation bonds for a term exceeding two years shall be in serial form maturing in substantially equal installments of principal, or maturing in substantially equal installments of both principal and interest. The first installment of principal of general obligation bonds and of reimbursable general obligation bonds shall mature not later than five years from the date of issue of such series. The last installment on general obligation bonds shall mature not later than twenty-five years from the date of such issue and the last installment on general obligation bonds sold to the federal government, on reimbursable general obligation bonds and on bonds constituting instruments of indebtedness under which the State or a political subdivision incurs a contingent liability as a guarantor shall mature not later than thirty-five years from the date of such issue. The interest and principal payments of general obligation bonds shall be a first charge on the general fund of the State or political subdivision, as the case may be.

In determining the power of the State to issue general obligation bonds or the funded debt of any political subdivision under section 12, the following shall be excluded:

1. Bonds that have matured, or that mature in the then current fiscal year, or that have been irrevocably called for redemption and the redemption date has occurred or will occur in the then fiscal year, or for the full payment of which moneys or securities have been irrevocably set aside.

2. Revenue bonds, if the issuer thereof is obligated by law to impose rates, rentals and charges for the use and services of the public undertaking, improvement or system or the benefits of a loan program or a loan thereunder or to impose a user tax, or to impose a combination of rates, rentals and charges and user tax, as the case may be, sufficient to pay the cost of operation, maintenance and repair, if any, of the public undertaking, improvement or system or the cost of maintaining a loan program or a loan thereunder and the required payments of the principal of and interest on all revenue bonds issued for the public undertaking, improvement or system or loan program, and if the issuer is obligated to deposit such revenues or tax or a combination of both into a special fund and to apply the same to such payments in the amount necessary therefor.

3. Special purpose revenue bonds, if the issuer thereof is required by law to contract with a person obligating such person to make rental or other payments to the issuer in an amount at least sufficient to make the required payment of the principal of and interest on such special purpose revenue bonds.

4. Bonds issued under special improvement statutes when the only security for such bonds is the properties benefited or improved or the assessments thereon.

5. General obligation bonds issued for assessable improvements, but only to the extent that reimbursements to the general fund for the principal and interest on such bonds are in fact made from assessment collections available therefor.

6. Reimbursable general obligation bonds issued for a public undertaking, improvement or system but only to the extent that reimbursements to the general fund are in fact made from the net revenue, or net user tax receipts, or combination of both, as determined for the immediately preceding fiscal year.

7. Reimbursable general obligation bonds issued by the State for any political subdivision, whether issued before or after the effective date of this section, but only for as long as reimbursement by the political subdivision to the State for the payment of principal and interest on such bonds is required by law; provided that in the case of bonds issued after the effective date of this section, the consent of the governing body of the political subdivision has first been obtained; and provided further that during the period that such bonds are excluded by the State, the principal amount then outstanding shall be included within the funded debt of such political subdivision.

8. Bonds constituting instruments of indebtedness under which the State or any political subdivision incurs a contingent liability as a guarantor, but only to the extent the principal amount of such bonds does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under this section; provided that the State or political subdivision shall establish and maintain a reserve in an amount in reasonable proportion to the outstanding loans guaranteed by the State or political subdivision as provided by law.

9. Bonds issued by or on behalf of the State or by any political subdivision to meet appropriations for any fiscal period in anticipation of the collection of revenues for such period or to meet casual deficits or failures of revenue, if required to be paid within one year, and bonds issued by or on behalf of the State to suppress insurrection, to repel invasion, to defend the State in war or to meet emergencies caused by disaster or act of God.

The total outstanding indebtedness of the State or funded debt of any political subdivision and the exclusions therefrom permitted by this section shall be made annually and certified by law or as provided by law. For the purposes of section 12 and this section, amounts received from on-street parking may be considered and treated as revenues of a parking undertaking.

Nothing in section 12 or in this section shall prevent the refunding of any bond at any time.

### FORM OF CONTINUING DISCLOSURE CERTIFICATE

State of Hawaii

Dated \_\_\_\_\_, 2004

#### **\$225,000,000 General Obligation Bonds of 2004, Series DD**

This Continuing Disclosure Certificate (this "Disclosure Certificate") is executed and delivered by the State of Hawaii (the "State") in connection with the issuance of its \$225,000,000 aggregate principal amount of State of Hawaii General Obligation Bonds of 2004, Series DD (the "Bonds"). The Bonds are being issued pursuant to the authority of the Constitution and laws of the State, including, in particular, certain acts of the Legislature of the State, as implemented by that certain Certificate of the Director of Finance of the State of Hawaii providing for the issuance of the Bonds (the "Bond Certificate"). Pursuant to Section 403 of the Bond Certificate, the State covenants and agrees as follows:

Section 1. *Purpose of Disclosure Certificate.* This Disclosure Certificate is being executed and delivered by the State for the benefit of the Holders and Beneficial Owners of the Bonds and in order to assist the Participating underwriters in complying with Securities and Exchange Commission Rule 15c2-12(b)(5).

Section 2. *Definitions.* In addition to the definitions set forth in the Bond Certificate, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"*Annual Report*" shall mean any Annual Report provided by the State pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"*Beneficial Owner*" shall mean any person which (a) has the power, directly or indirectly, to vote or consent with respect to, or to dispose of ownership of, any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries) or (b) is treated as the owner of any Bonds for federal income tax purposes.

"*Dissemination Agent*" shall mean the Director of Finance or any successor Dissemination Agent designated in writing by the State and which has filed with the State a written acceptance of such designation.

"*Listed Events*" shall mean any of the events listed in subsection 5(a) of this Disclosure Certificate.

"*National Repository*" shall mean any Nationally Recognized Municipal Securities Information Repository for purposes of the Rule. The National Repositories currently approved by the Securities and Exchange Commission are set forth at <http://www.sec.gov/info/municipal/nrmsir.htm>.

"*Participating Underwriter*" shall mean any of the original underwriters of the Bonds required to comply with the Rule in connection with offering of the Bonds.

"*Repository*" shall mean each National Repository and each State Repository.

"*Rule*" shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

"*State*" shall mean the State of Hawaii.

"State Repository" shall mean any public or private repository or entity designated by the State as a state repository for the purpose of the Rule and recognized as such by the Securities and Exchange Commission. As of the date of this Disclosure Certificate, there is no State Repository.

Section 3. *Provision of Annual Reports.* (a) The State shall, or shall cause the Dissemination Agent to, not later than nine months after the end of the State's fiscal year (presently June 30), commencing with the report for the Fiscal Year ending June 30, 2003, to each Repository an Annual report which is consistent with the requirements of Section 4 of this Disclosure Certificate. The Annual Report may be submitted as a single document or as separate documents comprising a package and may cross-reference other information as provided in Section 4 of this Disclosure Certificate, provided that the audited financial statements of the State may be submitted separately from the balance of the Annual Report and later than the date required above for the filing of the Annual Report if they are not available by that date. If the State's fiscal year changes, it shall give notice of such change in the same manner as for a Listed Event under subsection 5(c).

(b) Not later than 15 Business Days prior to said date, the State shall provide the Annual Report to the Dissemination Agent (if other than the State). If the State is unable to provide to the Repositories an Annual Report by the date required in subsection (a) above, the State shall send a notice to each Repository, the Municipal Securities Rulemaking Board and the State Repository, if any, in substantially the form attached as Exhibit A.

(c) The Dissemination Agent shall:

(i) determine each year prior to the date for providing the Annual Report the name and address of each National Repository and the State Repository, if any; and

(ii) (if the Dissemination Agent is other than the State), file a report with the State certifying that the Annual Report has been provided pursuant to this Disclosure Certificate, stating the date it was provided and listing all the Repositories to which it was provided.

Section 4. *Contents of Annual Reports.* The State's Annual Report shall contain or include by reference information of the type included in Appendix B to the final Official Statement (the "Official Statement") dated August 21, 2003, relating to the Bonds.

The audited financial statements of the State for the prior fiscal year shall be prepared in accordance with generally accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board. If the State's audited financial statements are not available by the time the Annual Report is required to be filed pursuant to subsection 3(a), the Annual Report shall contain unaudited financial statements in a format similar to the financial statements contained in the final Official Statement, and the audited financial statements shall be filed in the same manner as the Annual Report when they become available.

Any of such information may be included by specific reference to other documents, including official statements of debt issues of the State or related public entities, which have been submitted to each of the Repositories or the Securities and Exchange Commission. If the document included by reference is a final official statement, it must be available from the Municipal Securities Rulemaking Board. The State shall clearly identify each such other document so included by reference.

Section 5. *Reporting of Significant Events.* (a) Pursuant to the provisions of this Section 5, the State shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds, if material:

1. principal and interest payment delinquencies;
2. non-payment related defaults;
3. modifications to rights of Bondholders;

4. bond calls;
5. defeasances;
6. rating changes;
7. adverse tax opinions or events affecting the tax-exempt status of the Bonds;
8. unscheduled draws on the debt service reserves reflecting financial difficulties;
9. unscheduled draws on the credit enhancements reflecting financial difficulties;
10. Substitution of the credit or liquidity providers or their failure to perform; or
11. release, substitution or sale of property securing repayment of the Bonds.

(b) Whenever the State obtains knowledge of the occurrence of a Listed Event, the State shall as soon as possible determine if such event would be material under applicable federal securities laws.

(c) If the State determines that knowledge of the occurrence of a Listed Event would be material under applicable federal securities laws, the State shall promptly file a notice of such occurrence with the Municipal Securities Rulemaking Board and the State Repository. Notwithstanding the foregoing, notice of Listed Events described in Subsections (a)(4) and (5) above need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to Holders of affected Bonds pursuant to the Bond Certificate.

**Section 6. *Termination of Reporting Obligation.*** The State's obligations under this Disclosure Certificate shall terminate upon the legal defeasance or payment in full of all of the Bonds. If such termination occurs prior to the final maturity of the Bonds, the State shall give notice of such termination in the same manner as for a Listed Event under subsection 5(c).

**Section 7. *Dissemination Agent.*** The State may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent shall not be responsible in any manner for the content of any notice or report prepared by the State pursuant to this Disclosure Certificate.

**Section 8. *Amendment; Waiver.*** Notwithstanding any other provision of this Disclosure Certificate, the State may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied:

(a) If the amendment or waiver relates to the provisions of subsection 3(a), Section 4 or subsection 5(a), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Bonds, or the type of business conducted;

(b) The undertaking, as amended or taking into account such waiver, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) The amendment or waiver either (i) is approved by the Holders of the Bonds in the same manner as provided in the Bond Certificate for amendments to the Bond Certificate with the consent of Holders or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the Holders or Beneficial Owners of the Bonds.

In the event of any amendment or Waiver of a provision of this Disclosure Certificate, the State shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the State. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in the same manner as for a Listed Event under subsection 5(c), and (ii) the Annual Report for the year in which the change is made should present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Section 9. *Additional Information.* Nothing in this Disclosure Certificate shall be deemed to prevent the State from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the State chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the State shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

Section 10. *Default.* In the event of a failure of the State to comply with any provision of this Disclosure Certificate, any Holder or Beneficial Owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the State to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an event of default under the Bond Certificate with respect to the Bonds, and the sole remedy under this Disclosure Certificate in the event of any failure of the State to comply with this Disclosure Certificate shall be an action to compel performance.

Section 11. *Beneficiaries.* This Disclosure Certificate shall inure solely to the benefit of the State, the Dissemination Agent, the Participating Underwriters and Holders and Beneficial Owners from time to time of the Bonds and shall create no rights in any other person or entity.

Section 12. *Governing Law.* This Disclosure Certificate shall be construed and interpreted in accordance with the laws of the State of Hawaii, and any suits and actions arising out of this Disclosure Certificate shall be instituted in a court of competent jurisdiction in the State of Hawaii; provided, however, that to the extent this Disclosure Certificate addresses matters of federal securities laws, including the Rule, this Agreement shall be construed in accordance with such federal securities laws and official interpretations thereof.

APPENDIX F

FORM OF OPINION OF BOND COUNSEL

[Letterhead of Orrick Herrington & Sutcliffe LLP]

[Closing Date]

State of Hawaii  
Honolulu, Hawaii

Re: State of Hawaii General Obligation Bonds of 2004, Series DD  
(Final Opinion)

Ladies and Gentlemen:

We have acted as bond counsel in connection with the issuance by the State of Hawaii (the "State") of \$225,000,000 aggregate principal amount of State of Hawaii General Obligation Bonds of 2004, Series DD (the "Bonds"), pursuant to the provisions of Part I of Chapter 39, Hawaii Revised Statutes, a Certificate of the Director of Finance of the State dated \_\_\_\_\_, 2004 (the "Certificate"), and various acts of the Legislature of the State identified in the Certificate.

In such connection, we have reviewed the Certificate, the Tax Certificate of the State, dated the date hereof (the "Tax Certificate"), certificates and opinions of the Attorney General and certificates of other officers of the State, and such other documents, opinions and matters to the extent we deemed necessary to render the opinions set forth herein.

Certain agreements, requirements and procedures contained or referred to in the Certificate, the Tax Certificate and other relevant documents may be changed and certain actions (including, without limitation, the defeasance of the Bonds) may be taken or omitted under the circumstances and subject to the terms and conditions set forth in such documents. No opinion is expressed herein as to any Bond or the interest thereon if any such change occurs or action is taken or omitted upon the advice or approval of counsel other than ourselves.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after the date hereof. Our engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update this letter.

We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and validity against, any parties other than the State. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in the second paragraph hereof. Furthermore, we have assumed compliance with all covenants and agreements contained in the Certificate and the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to ensure that future actions, omissions or events will not cause interest on the Bonds to be included in gross income for federal income tax purposes.

We call attention to the fact that the rights and obligations under the Bonds, the Certificate and the Tax Certificate and their enforceability may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against the State of Hawaii. We express no opinion with respect to any indemnification, contribution, penalty, choice of law, choice of forum or waiver provisions contained in the foregoing documents. Finally, we undertake no

responsibility for the accuracy, completeness or fairness of the Official Statement or other offering material relating to the Bonds and express no opinion with respect thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute valid general obligations of the State.
2. The Certificate has been duly executed and delivered by the Director of Finance and constitutes the valid obligation of the State.
3. Interest and principal payments on the Bonds are a first charge on the general fund of the State to the punctual payment of which the full faith and credit of the State are pledged.
4. Interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986. Interest on the Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although we observe that interest on the Bonds is included in adjusted current earnings in calculating corporate alternative minimum taxable income. The Bonds and the income therefrom are exempt from all taxation by the State of Hawaii or any county or other political subdivision thereof, except inheritance, transfer and estate taxes; provided that no opinion is expressed with respect to the franchise tax imposed on banks and other financial institutions. We express no opinion regarding any other tax consequences related to the ownership or disposition of, or the accrual or receipt of interest on, the Bonds.

Faithfully yours,

ORRICK, HERRINGTON & SUTCLIFFE LLP

**APPENDIX G**

**SPECIMEN BOND INSURANCE POLICY**

**FINANCIAL GUARANTY INSURANCE POLICY**

**MBIA Insurance Corporation**

**Armonk, New York 10504**

Policy No. [NUMBER]

MBIA Insurance Corporation (the "Insurer"), in consideration of the payment of the premium and subject to the terms of this policy, hereby unconditionally and irrevocably guarantees to any owner, as hereinafter defined, of the following described obligations, the full and complete payment required to be made by or on behalf of the Issuer to [PAYING AGENT/TRUSTEE] or its successor (the "Paying Agent") of an amount equal to (i) the principal of (either at the stated maturity or by any advancement of maturity pursuant to a mandatory sinking fund payment) and interest on, the Obligations (as that term is defined below) as such payments shall become due but shall not be so paid (except that in the event of any acceleration of the due date of such principal by reason of mandatory or optional redemption or acceleration resulting from default or otherwise, other than any advancement of maturity pursuant to a mandatory sinking fund payment, the payments guaranteed hereby shall be made in such amounts and at such times as such payments of principal would have been due had there not been any such acceleration); and (ii) the reimbursement of any such payment which is subsequently recovered from any owner pursuant to a final judgment by a court of competent jurisdiction that such payment constitutes an avoidable preference to such owner within the meaning of any applicable bankruptcy law. The amounts referred to in clauses (i) and (ii) of the preceding sentence shall be referred to herein collectively as the "Insured Amounts." "Obligations" shall mean:

[PAR]

[LEGAL NAME OF ISSUE]

Upon receipt of telephonic or telegraphic notice, such notice subsequently confirmed in writing by registered or certified mail, or upon receipt of written notice by registered or certified mail, by the Insurer from the Paying Agent or any owner of an Obligation the payment of an Insured Amount for which is then due, that such required payment has not been made, the Insurer on the due date of such payment or within one business day after receipt of notice of such nonpayment, whichever is later, will make a deposit of funds, in an account with U.S. Bank Trust National Association, in New York, New York, or its successor, sufficient for the payment of any such Insured Amounts which are then due. Upon presentment and surrender of such Obligations or presentment of such other proof of ownership of the Obligations, together with any appropriate instruments of assignment to evidence the assignment of the Insured Amounts due on the Obligations as are paid by the Insurer, and appropriate instruments to effect the appointment of the Insurer as agent for such owners of the Obligations in any legal proceeding related to payment of Insured Amounts on the Obligations, such instruments being in a form satisfactory to U.S. Bank Trust National Association, U.S. Bank Trust National Association shall disburse to such owners, or the Paying Agent payment of the Insured Amounts due on such Obligations, less any amount held by the Paying Agent for the payment of such Insured Amounts and legally available therefor. This policy does not insure against loss of any prepayment premium which may at any time be payable with respect to any Obligation.

As used herein, the term "owner" shall mean the registered owner of any Obligation as indicated in the books maintained by the Paying Agent, the Issuer, or any designee of the Issuer for such purpose. The term owner shall not include the Issuer or any party whose agreement with the Issuer constitutes the underlying security for the Obligations.

Any service of process on the Insurer may be made to the Insurer at its offices located at 113 King Street, Armonk, New York 10504 and such service of process shall be valid and binding.

This policy is non-cancellable for any reason. The premium on this policy is not refundable for any reason including the payment prior to maturity of the Obligations.

IN WITNESS WHEREOF, the Insurer has caused this policy to be executed in facsimile on its behalf by its duly authorized officers, this [DAY] day of [MONTH, YEAR].
